Reading the World, 4th Edition Michael Austin, 2019-10-08 The only global great ideas reader with new chapters on Ethics Empathy and Visual Arguments      Reading the World Dianne C. Luce, 2009 In *Reading the World* Dianne C Luce explores the historical and philosophical contexts of Cormac McCarthy's early works crafted during his Tennessee period from 1959 to 1979 to demonstrate how McCarthy integrates literary realism with the imagery and myths of Platonic gnostic and existentialist philosophies to create his unique vision of the world Luce begins with a substantial treatment of the east Tennessee context from which McCarthy's fiction emerges sketching an Appalachian culture and environment in flux Against this backdrop Luce examines novel by novel McCarthy's distinctive rendering of character through mixed narrative techniques of flashbacks shifts in vantage point and dream sequences Luce shows how McCarthy's fragmented narration and lyrical style combine to create a rich portrayal of the philosophical and religious elements at play in human consciousness as it confronts a world rife with isolation and violence      **Reading the World** Mary Franklin-Brown, 2012-09 The thirteenth century saw such a proliferation of new encyclopedic texts that more than one scholar has called it the century of the encyclopedias Various referred to as a speculum thesaurus or imago mundi the term encyclopedia was not commonly applied to such books until the eighteenth century these texts were organized in such a way that a reader could easily locate a collection of authoritative statements on any given topic Because they reproduced rather than simply summarized parts of prior texts these compilations became libraries in miniature In this groundbreaking study Mary Franklin Brown examines writings in Latin Catalan and French that are connected to the encyclopedic movement Vincent of Beauvais's *Speculum maius* Ramon Llull's *Libre de meravelles* *Arbor scientiae* and *Arbre de filosofia d amor* and Jean de Meun's continuation of the *Roman de la Rose* Franklin Brown analyzes the order of knowledge in these challenging texts describing the wide ranging interests the textual practices including commentary compilation and organization and the diverse discourses that they absorb from preexisting classical patristic and medieval writing She also demonstrates how these encyclopedias like libraries became heterotopias of knowledge spaces where many possible ways of knowing are juxtaposed But Franklin Brown's study will not appeal only to historians she argues that a revised understanding of late medievalism makes it possible to discern a close connection between scholasticism and contemporary imaginative literature She shows how encyclopedists employed the same practices of figuration narrative and citation as poets and romancers while much of the difficulty of the imaginative writing of this period derives from a juxtaposition of heterogeneous discourses inspired by encyclopedias With rich and innovative readings of texts both familiar and neglected *Reading the World* reveals how the study of encyclopedism can illuminate both the intellectual work and the imaginative writing of the scholastic age      Reading the World's Stories Annette Y.
