Reading Into Photography Shelley Armitage, Thomas F. Barrow, William E. Tydeman, 1987 *The Appalachian Photographs of Earl Palmer* Jean Haskell Speer, 2014-07-11 For more than fifty years mountain born Earl Palmer traveled the Southern Appalachians with his camera recording his personal vision of the mountain people and their heritage Over these years he created in several thousand photographs a distinctive body of work that affirms a traditional image of Appalachia a region of great natural beauty inhabited by a self sufficient people whose lives are notable for simplicity and harmony For this book Jean Haskell Speer has selected more than 120 representative photographs from Palmer s collection and has written a biographical and critical commentary based on extensive interviews with the photographer Palmer s photographs Speer argues are significant cultural statements that depict not so much a geographical region as a particular idea of Appalachia

First Exposures Steffen Siegel, 2017-08-01 An exact date for the invention of photography is evasive Scientists and amateurs alike were working on a variety of photographic processes for much of the early nineteenth century Thus most historians refer to the year 1839 as the first year of photography not because the sensational new medium was invented then but because that is the year it was introduced to the world After more than 175 years and for the first time in English *First Exposures Writings from the Beginning of Photography* brings together more than 130 primary sources from that very year 1839 subdivided into ten chapters and accompanied by fifty three images of significant visual and historical importance This is an astonishing work of discovery selection and thanks to Steffen Siegel s introductory texts notes and afterword elucidation The range of material is impressive not only all the chemical and technological details of the various processes but also contracts speeches correspondence of every kind arguments parodies satires eulogies denunciations journals and even some poems Revealing through firsthand accounts the competition the rivalries and the parallels among the various practitioners and theorists this book provides an unprecedented way to understand how the early discourse around photographic techniques and processes transcended national boundaries and interconnected across Europe and the United States

How Photography Became Contemporary Art Andy Grundberg, 2021-02-23 A leading critic s inside story of the photo boom during the crucial decades of the 1970s and 80s When Andy Grundberg landed in New York in the early 1970s as a budding writer photography was at the margins of the contemporary art world By 1991 when he left his post as critic for the New York Times photography was at the vital center of artistic debate Grundberg writes eloquently and authoritatively about photography s boom years chronicling the medium s increasing role within the most important art movements of the time from Earth Art and Conceptual Art to performance and video He also traces photography s embrace by museums and galleries as well as its politicization in the culture wars of the 80s and 90s Grundberg reflects on the landmark exhibitions that defined the moment and his encounters with the work of leading photographers many of whom he knew personally including Gordon Matta Clark Cindy Sherman and Robert Mapplethorpe He navigates crucial themes such as photography s

relationship to theory as well as feminism and artists of color Part memoir and part history this perspective by one of the period's leading critics ultimately tells a larger story about the crucial decades of the 70s and 80s through the medium of photography

Jamaica Kincaid Moira Ferguson, 1994 As a writer who has been quoted as saying she writes to save her life that is she couldn't write she would be a revolutionary Antiguan novelist Jamaica Kincaid translates this passion into searing exhilarating prose Her weaving of history autobiography fiction and polemic has won her a large readership In this first book length study of her work Moira Ferguson examines all of Kincaid's writing up to 1992 focusing especially on their entwinement of personal and political identity In doing so she draws a parallel between the dynamics of the mother daughter relationship in Kincaid's fiction and the more political relationship of the colonizer and the colonized Ferguson calls this effect the doubled mother a conception of motherhood as both colonial and biological

Burning with Desire Geoffrey Batchen, 1999-03-15 In an 1828 letter to his partner Nicéphore Niépce Louis Daguerre wrote I am burning with desire to see your experiments from nature In this book Geoffrey Batchen analyzes the desire to photograph as it emerged within the philosophical and scientific milieus that preceded the actual invention of photography Recent accounts of photography's identity tend to divide between the postmodern view that all identity is determined by context and a formalist effort to define the fundamental characteristics of photography as a medium Batchen critiques both approaches by way of a detailed discussion of photography's conception in the late eighteenth and early nineteenth centuries He examines the output

of the various nominees for first photographer then incorporates this information into a mode of historical criticism informed by the work of Michel Foucault and Jacques Derrida The result is a way of thinking about photography that persuasively accords with the medium's undeniable conceptual political and historical complexity

Scissors, Paper, Stone Martha Langford, 2007-06-27 Finalist Raymond Klibansky Book Prize Humanities and Social Sciences Federation of Canada 2008 Making a connection between photography and memory is almost automatic Should it be In *Scissors Paper Stone* Martha Langford explores the nature of memory and art She challenges the conventional emphasis on the camera as a tool of perception by arguing that photographic works are products of the mind picturing memory is first and foremost the expression of a mental process Langford organizes the book around the conceit of the child's game scissors paper stone using it to ground her discussion of the tensions between remembering and forgetting the intersection of memory and imagination and the relationship between memory and history *Scissors Paper Stone* explores the great variety of photographic art produced by Canadian artists as expressions of memory Their work including images by Carl Beam Carole Cond and Karl Beveridge Donigan Cumming Stan Denniston Robert Houle Robert Minden Michael Snow Diana Thorneycroft Jeff Wall and Jin me Yoon is presented as part of a rich interdisciplinary study of contemporary photography and how it has shaped modern memory

Coverscaping Asbjørn Grønstad, Øyvind Vågnes, 2010 Focusing on the semiotics poetics and rhetoric of album covers *Coverscaping* gives a serious study of this neglected art form Working from the assumption that record sleeves may be found to represent a visual genre in its own right the essays in this book engage in various ways with the analysis of what one might call the pictorial component of recorded music The contributions from scholars in many different fields run the whole gamut from close readings of individual covers to more theoretical or philosophical explorations of the aesthetic nature and artistic value of album covers

Locating Memory Annette Kuhn, Kirsten Emiko McAllister, 2006 Paying close attention to the setting in which photographs are made and used the contributors consider how meanings in photographs from historical inquiry to quests for identity may be shifted challenged and renewed over time and for different purposes

Survey Practices and Landscape Photography Across the Globe Sophie Junge, Erin Hyde Nolan, 2022-12-05 This edited volume considers the many ways in which landscape seen and unseen is fundamental to placemaking colonial settlement and identity formation Collectively the book's authors map a constellation of interlocking photographic histories and survey practices decentering Europe as the origin of camera based surveillance The volume charts a conversation across continents connecting Europe Africa the Arab World Asia and the Americas It does not segregate places histories and traditions but rather puts them in dialogue with one another establishing solidarity across ever shifting national linguistic racial religious and ethnic Refusing the neat organization of survey photographs into national or imperial narratives these essays celebrate the messy cross cultural reverberations of landscape over the past 170 years Considering the visual social and historical networks in which these images circulate this anthology connects the many

entangled and political histories of photography in order to reframe survey practices and the multidimensionality of landscape as an international phenomenon This book will be of interest to scholars in art history history of photography and landscape history

Photography and Its Violations John Roberts, 2014-10-14 Theorists critique photography for objectifying its subjects and manipulating appearances for the sake of art In this bold counterargument John Roberts recasts photography's violating powers of disclosure and aesthetic technique as part of a complex social ontology that exposes the hierarchies divisions and exclusions behind appearances The photographer must arrive unannounced and get in the way of the world Roberts argues committing photography to the truth claims of the spectator over the self interests and sensitivities of the subject Yet even though the violating capacity of the photograph results from external power relations the photographer is still faced with an ethical choice whether to advance photography's truth claims on the basis of these powers or to diminish or veil these powers to protect the integrity of the subject Photography's acts of intrusion and destabilization then constantly test the photographer at the point of production in the darkroom and at the computer especially in our 24 hour digital image culture In this game changing work Roberts refunctions photography's place in the world politically and theoretically restoring its reputation as a truth producing medium

Walking the Llano Shelley Armitage, 2016-02-15 When American explorers crossed the Texas Panhandle they dubbed it part of the Great American Desert A sea of grass the llano appeared empty flat and barely habitable Contemporary developments cell phone towers oil rigs and wind turbines have only added to this stereotype Yet in this lyrical ecomemoir Shelley Armitage charts a unique rediscovery of the largely unknown land a journey at once deeply personal and far reaching in its exploration of the connections between memory spirit and place Armitage begins her narrative with the intention to walk the llano from her family farm thirty meandering miles along the Middle Alamosa Creek to the Canadian River Along the way she seeks the connection between her father and one of the area's first settlers Ysabel Gurule who built his dugout on the banks of the Canadian Armitage who grew up nearby in the small town of Vega finds this act of walking inseparable from the act of listening and writing What does the land say to us she asks as she witnesses human alterations to the landscape perhaps most catastrophic the continued drainage of the land's most precious resource the Ogallala Aquifer Yet the llano's wonders persist dynamic mesas and canyons vast flora and fauna diverse wildlife rich histories Armitage recovers the voices of ancient Native and Hispano peoples their stories interwoven with her own her father's legacy her mother's decline a brother's love The llano holds not only the beauty of ecological surprises but a renewed realization of kinship in a world ever changing Reminiscent of the work of Terry Tempest Williams and John McPhee *Walking the Llano* is both a celebration of an oft overlooked region and a soaring testimony to the power of the landscape to draw us into greater understanding of ourselves and others by experiencing a deeper connection with the places we inhabit

Suspended Conversations Martha Langford, 2021-10-13 In *Suspended Conversations* Martha Langford shows how photographic albums tell intimate and revealing stories about individuals and families Rather than isolate the individual photograph treat albums as texts or argue that photography has supplanted memory she demonstrates that the photographic album must be taken as a whole and interpreted as a visual and verbal performance that extends oral consciousness Exhibiting a collection of photographic travelogues memoirs thematic collections and family sagas compiled between 1860 and 1960 and held by the McCord Museum of Canadian History this second edition includes a revised and expanded preface along with new photographs of the Notman albums Printed in colour throughout the enhanced material draws out the distinct nuances and details of each album giving them new life to tell their stories Albums are treasured by families collected as illustrations of the past by museums of social history and examined by scholars for what they can reveal about attitudes and sensibilities but when no one is left to tell the tale the intrigue of the album becomes a puzzle a suspended conversation Langford argues that oral consciousness provides the missing key Correlating photography and orality she explains how albums were designed to work as performances and how we can unlock their mysteries A fascinating glimpse of the preoccupations of previous centuries *Suspended Conversations* brings photography into the great conversation of how we remember and how we send our stories into the future
