Kerkhoff, Casey Medlock Paul, 2019-11. This book shows teachers how to apply a five-phase project-based inquiry framework to disciplinary literacy for students in grades 6-12. The use of project-based inquiry helps students build discipline-specific skills and knowledge across fields. The authors incorporate their experience in using the model for professional development with over 3,000 teachers, offering practical examples and classroom vignettes to illustrate the model. Given the current focus on disciplinary literacy across multiple sets of standards, including the Next Generation Science Standards, the 3C Framework for Social Studies, and the Common Core State Standards, this book provides a clear blueprint for teachers in meeting these standards while providing students with deep learning specific to these disciplines. *Battleground: Religion* Daniel L. Smith-Christopher, 2008-12-30. Is there a controversial issue in the contemporary world that does not involve religion? Whether it's a debate over the beginning of life or on sexuality and family life or on the stewardship of humans over the environment, almost all of the most contentious matters that impact today's society involve people's deeply held religious beliefs. *Battleground Religion* helps clarify these complex topics by examining how various religious beliefs and practices impact current political, social, and cultural debates. Each of the approximately 100 entries examines a hot-button issue from war and peace to the culture wars and discusses in a balanced and objective way the points of view on these topics from all parts of the religious spectrum. Students will come away from *Battleground Religion* with a better understanding of the issues that they will be encountering for years to come. Each entry includes a bibliography or resources for further information.
