beginning the study of Ancient History a sufficient amount of source material to illustrate the important facts mentioned in every good text book There is also a clear intent to give the reader some taste of the notable literary flavor pervading the histories of Greece and Rome It is a distinct loss of an opportunity to pass from the study e g of the Roman Emperors and to read no typical passages of Tacitus This compilation has been prepared for constant use along with some standard text book and various matters of marked historical importance as the Servian Constitution of Rome have been deliberately omitted because most school histories state the fact sufficiently well and little is added by reproducing the arid statements in Livy On the other hand many tales have been included like the story of Horatius at the Bridge or of Cincinnatus called from the Plow which condensed histories may well slight but which afford refreshing illustrations of the ancient life or the ancient viewpoint Comparing the compass of this work with the wide extent of available literature it is evident that a very large number of desirable passages have been perforce omitted There are practically no quotations from Cicero because Cicero is a writer many students will earn a passing acquaintance with in the schools again certain highly significant passages are omitted because they are quoted in so many school histories There are no quotations from many of the poets because the tragedians and lyricists were after all poets and not historians The compiler has been forced continually to exercise his best judgment He is entirely aware how fallible that judgment may have been To meet the requirements for a work covering the Old Orient and the Early Middle Ages to 800 A D sections have been added covering these topics but no attempt has been made to have them so long as the chapters relating strictly to Greece and Rome Even for the classical history itself far more material came to hand for some periods than for others Desirable selections for the First Age of Rome are scanty while again readings on the First Century of the Empire come in bewildering profusion As a rule however those epochs for which one has the most material are in turn the best worth studying and no apology is made for the lack of proportion in the length of some of the chapters This volume has been prepared for immature students it is therefore stripped of the learned notes citations references etc which are rightly demanded by the erudite The notes and introductions have a single end in view to make the selections comprehensible to readers with little experience in Ancient History problems Out of consideration for this audience also the pages have not been disfigured by frequent indications of omission where passages of the ancient writer have been stricken out in the interests of brevity In every case however where to facilitate condensation words not of the original author have been substituted they are always inclosed in brackets to guard against misconception In compiling a work of this kind a great number of translations have been put under requisition In many cases these have been diligently compared with the originals and often such alterations have been made in the wording as to render the present author largely responsible for the form

AUTHORS PREFACE V here given This is entirely the case except with Plutarch where the translation appears without being ascribed to any particular translator
