Study Guide for Readings in Art History, from Paleolithic Cave to Baroque Painting Maria Cheremeteff, 1998 *Our Beautiful, Dry, and Distant Texts* James Elkins, 2010-11-01 Elkins argues that writing is what art historians produce and whether such writing is a transparent vehicle for the transmission of facts or an embattled forum for the rehearsal of institutional relations and constructions of history it is an expressive medium with the capacity for emotion and reflection Therefore it needs to be taken seriously for its own sake it is the testament of art history and of individual historians and it is only weakened and slighted by versions of history that imagine it either as uncontrolled dissemination or as objective discovery and reporting

Rethinking Art History Donald Preziosi, 1989-01-01 A general overview of the theoretical and institutional history of the discipline of art history Refuting the image of art history as a discipline in crisis Preziosi asserts that many of the dilemmas and contradictions of art history today are not new but can be traced back to problems surrounding the founding of the discipline its institutionalization and its academic expansion since the 1870s Donald Preziosi has written a timely and incisive study of the methods and assumptions of art history in the modern period As the book unfolds one realizes that art history was never as unitary and monolithic as the phrase the discipline of art history suggests but is in fact a complicated and highly contradictory range of practices whose disciplinary coherence may be more mythical than real This is a deliberately discomforting book however for its clear sightedness rigor and wit it is a book to be welcomed by everyone concerned with the present condition and future direction of visual studies Norman Bryson Harvard University An important and courageous book *Rethinking Art History* is a rigorous and original contribution to the current post structuralist and postmodernist debates in cultural studies here and abroad Steven Z Levine Bryn Mawr College Through this kind of reading of the discourse of art history Preziosi provides some acute analysis of the metaphors and stratagems which continue to discipline the discipline of art history
