Built around a single case study, *Creating New Agency Programs* clearly illustrates how to effectively plan, implement, and evaluate a small-scale social program. Useful charts, time lines, and resource lists are included and can be easily referenced and utilized. This book's emphasis on planning is important not only because it is a much-used and generally under-taught skill, but because successful planning is the process that can turn the dreams of a community into concrete reality. This book is geared toward designing programs to meet specific social needs and organizing the relevant human resources to implement them. The programs are specific, detailed, and activity-oriented but are designed to support long-range goals which may be handed down by a parent organization or the community in general.
