Brett, 2024-07-12 A Christian imagination of colonial discovery permeated the early modern world but legal histories developed in very different ways depending on imperial jurisdictions *Indigenous Rights and the Legacies of the Bible* From Moses to Mabo explores the contradictions and ironies that emerged in the interactions between biblical warrants and colonial theories of Indigenous natural rights The early debates in the Americas mutated in the British colonies with a range

of different outcomes after the American Revolution and tracking the history of biblical interpretation provides an illuminating pathway through these historical complexities A ground breaking legal judgement in the High Court of Australia *Mabo v Queensland* 1992 demonstrates the enduring legacies of debates over the previous five centuries The case reveals that the Australian colonies are the only jurisdiction of the English common law tradition within which no treaties were made with the First Nations Instead there is a peculiar development of terra nullius ideology which can be traced back to the historic influences of the book of Genesis in Puritan thought in the seventeenth century Having identified both similarities and differences between various colonial arguments and their overt dependence on early modern theological reasoning Mark G Brett examines the paradoxical permutations of imperial and anti imperial motifs in the biblical texts themselves Concepts of rights shifted over the centuries from theological to secular frameworks and more recently from anthropocentric assumptions to ecologically embedded concepts of Indigenous rights and responsibilities Bearing in mind the differences between ancient and modern notions of indigeneity a fresh understanding of this history proves timely as settler colonial states reflect on the implications of the United Nations Declaration on the Rights of Indigenous Peoples 2007 Brett s illuminating insights in this detailed study are particularly relevant for the four states that initially voted against the Declaration the USA Canada New Zealand and Australia **Animism and Philosophy of Religion** Tiddy Smith,2023-02-25

Mainstream philosophy of religion has persistently failed to engage seriously or critically with animist beliefs and practices The field that is now called philosophy of religion could quite easily be renamed philosophy of theism with few lecturers on the subject having to change their lecture notes It is the aim of this volume to rectify that failure and to present animism as a live option among the plethora of religious worldviews The volume addresses four major questions 1 What is this thing called animism 2 Are there any arguments for or against animist belief and practice 3 What is the relationship between animism naturalism and the sciences And 4 Should we take animism seriously Animism and Philosophy of Religion is intended to be the first authoritative scholarly volume on the issue of animism and its place in the philosophy of religion Ambitiously it aims to act as the cornerstone volume for future work on the subject and as a key text for courses engaging with the subject

common ground of shamanic traditions and evaluating the diversity of both traditional indigenous communities and individual Western seekers This is done in an introduction a bibliography a chronology and hundreds of cross referenced dictionary entries which explore the consistent features of a variety of shamans the purposes shamanism serves the function and activities of the shaman and the cultural contexts in which they make sense Readings for a History of Anthropological Theory Paul A. The Hebrew Bible and Environmental Ethics Mari Joerstad, 2019-05-23 The environmental crisis has prompted religious leaders and lay people to look to their traditions for resources to respond to environmental degradation In this book Mari Joerstad contributes to this effort by examining an ignored feature of the Hebrew Bible its attribution of activity and affect to trees fields soil and mountains The Bible presents a social cosmos in which humans are one kind of person among many Using a combination of the tools of biblical studies and anthropological writings on animism Joerstad traces the activity of non animal nature through the canon She shows how biblical writers go beyond sustainable development asking us to be good neighbors to mountains and trees and to be generous to our fields and vineyards They envision human communities that are sources of joy to plants and animals The Biblical writers attention to inhabited spaces is particularly salient for contemporary environmental ethics in their insistence that our cities suburbs and villages contribute to flourishing landscapes

Plants as Persons Matthew Hall, 2011-05-06 Plants are people too No but in this work of philosophical botany Matthew Hall challenges readers to reconsider the moral standing of plants arguing that they are other than human persons Plants constitute the bulk of our visible biomass underpin all natural ecosystems and make life on Earth possible Yet plants are considered passive and insensitive beings rightly placed outside moral consideration As the human assault on nature continues more ethical behavior toward plants is needed Hall surveys Western Eastern Pagan and

Indigenous thought as well as modern science for attitudes toward plants noting the particular resources for plant personhood and those modes of thought which most exclude plants The most hierarchical systems typically put plants at the bottom but Hall finds much to support a more positive view of plants Indeed some indigenous animisms actually recognize plants as relational intelligent beings who are the appropriate recipients of care and respect New scientific findings encourage this perspective revealing that plants possess many of the capacities of sentience and mentality traditionally denied them

Blood, Bones and Spirit Heather McDonald, 2012-11-27 In this fascinating and beautifully written book Heather McDonald examines Aboriginal people's experiences of colonialism and post colonialism in the nineteenth and twentieth centuries Blood Bones and Spirit analyses how Aboriginal people have appropriated Biblical stories of land inheritance expansion and loss in order to make sense of their own dispossession It investigates the embodiment of Christianity by Aboriginal people through their appropriation of Christ's body his blood bones and spirit in order to replenish and heal their own colonised bodies Indeed this local study of Christianisation in a small East Kimberley town presents a challenge to the very history and philosophy of Western religion Heather McDonald spreads out before the reader various aspects of Aboriginal Christianity the way Aborigines have assimilated Christian stories to make sense of their history and their relationships with the dominant society their understanding of what it means to be Christian their church activities and their conflicting interpretations of the Christian way of life Aboriginal Christians are repossessing the land and reclaiming a traditional earth bound world immanent spirituality These Aboriginal understandings of colonisation including missionisation and Aboriginal ways of interpreting and understanding Christianity offer a unique contribution to the reconciliation process
