Readings In Religious Philosophy:

Readings in the Philosophy of Religion Andrew Eshleman, 2008-04-28 Offers an array of Western and non Western theistic and non theistic religious thought Combining key readings by contemporary philosophers with pivotal historical texts this anthology brings together some of the best work in both Western philosophy of religion and Eastern thought including selections on Hinduism Buddhism and Confucianism

Classical and Contemporary Readings in the Philosophy of Religion John Hick, 1990 Features a chronological sequence so that discussions by the same writer of different but related topics may conveniently be studied together Third edition includes readings reflecting the most contemporary thought in philosophy of religion

Philosophy of Religion Michael L. Peterson, William Hasker, Bruce Reichenbach, 2014 Incorporating ten new readings and expanded pedagogical features the fourth edition of *Philosophy of Religion Selected Readings* is the most complete and economically priced introductory anthology in the philosophy of religion It presents seventy eight selections more than any other collection organized into fourteen thematic sections providing instructors with great flexibility in organizing their courses Addressing both classical concepts and a host of contemporary issues the readings cover all of the standard subjects including religious experience divine attributes theistic arguments the problem of evil and miracles as well as more recent topics like reformed epistemology process theism the kalam cosmological argument the religion science controversy religious ethics and the diversity of world religions While it deals primarily with the Western and analytic traditions in philosophy the book also incorporates readings representing continental feminist and Asian perspectives The fourth edition offers enhanced pedagogy including substantially expanded section introductions numerous new glossary terms and updated suggestions for further reading It also provides ten new selections including pieces by Daniel Dennett Stephen T Davis and Gottfried Leibniz and work on various issues in religion and science by William Dembski Philip Kitcher John Lennox and John Polkinghorne As in the previous edition study questions appear at the end of each selection Amazon com

Readings in Philosophy of Religion Linda Zagzebski, Timothy D. Miller, 2009-03-30 Comprised of readings from ancient to modern times this volume offers a comprehensive introduction to the central questions of the philosophy of religion Provides a history of the philosophy of religion from antiquity up to the twentieth century Each section is preceded by extensive commentary written by the editors followed by readings that are arranged chronologically Designed to be accessible to both undergraduate and graduate students

God, Man, and Religion Keith E. Yandell, 1973

Reading Philosophy of Religion Graham Oppy, Michael Scott, 2010-04-26 *Reading Philosophy of Religion* combines a diverse selection of classical and contemporary texts in philosophy of religion with insightful commentaries Offers a unique presentation through a combination of text and interactive commentary Provides a mix of classic and contemporary texts including some not anthologized elsewhere Includes writings from thinkers such as Aquinas Boethius Hume Plantinga and Putnam Divided into sections which examine religious language the existence of God reason argument and belief divine properties and

religious pluralism **Readings in Religious Philosophy** Geddes MacGregor, John Wesley Robb, 1962 Readings in the Philosophy of Religion, 1965 **Philosophy of Religion** Michael L. Peterson, 2010 Incorporating ten new readings and expanded pedagogical features the fourth edition of *Philosophy of Religion Selected Readings* is the most complete and economically priced introductory anthology in the philosophy of religion. It presents seventy-eight selections more than any other collection organized into fourteen thematic sections providing instructors with great flexibility in organizing their courses. Addressing both classical concepts and a host of contemporary issues, the readings cover all of the standard subjects including religious experience, divine attributes, theistic arguments, the problem of evil and miracles, as well as more recent topics like reformed epistemology, process theism, the kalam cosmological argument, the religion/science controversy, religious ethics, and the diversity of world religions. While it deals primarily with the Western and analytic traditions in philosophy, the book also incorporates readings representing continental feminist and Asian perspectives. The fourth edition offers enhanced pedagogy including substantially expanded section introductions, numerous new glossary terms, and updated suggestions for further reading. It also provides ten new selections including pieces by Daniel Dennett, Stephen T. Davis, and Gottfried Leibniz, and work on various issues in religion and science by William Dembski, Philip Kitcher, John Lennox, and John Polkinghorne. As in the previous edition, study questions appear at the end of each selection. An excellent stand-alone text for courses in the philosophy of religion, *Philosophy of Religion Selected Readings Fourth Edition* is also a perfect companion to the editors' textbook *Reason and Religious Belief Fifth Edition* (OUP, 2012) as the two books share the same topical organization.

Readings in the Philosophy of Religion Baruch A. Brody, 1974 This anthology brings together 59 classic and contemporary readings on the philosophy of religion which stress in particular the analytical viewpoint **Readings in the Philosophy of Religion - Second Edition** Kelly James Clark, 2008-02-14 Like the first edition, the second edition of *Readings in the Philosophy of Religion* covers topics in a point-counterpoint manner specifically designed to foster deep reflection. Unique to this collection is the section on the divine attributes. The book's focus is on issues of fundamental human concern: God's suffering, hell, prayer, feminist theology, and religious pluralism. All of these are shown in a lengthy introduction to relate to the standard issues in philosophical theology: omnipotence, omniscience, immutability, goodness, and eternity. For this second edition, each major section ends with an extended reflection by a philosopher who shows how to think through the issues raised in the preceding essays. Also included are a new section on the ontological argument with classical discussions by Anselm and Gaunilo, along with a new essay by Laura Garcia, a new section on religious language, new essays on the free will defense, theodicies, and feminist theology, and a new version of the cosmological argument that does not rely on the principle of sufficient reason **Readings in the Philosophy of Religion** John Arthur Murrant, 1970 **Philosophy of Religion** William L. Rowe, William J. Wainwright, 1998 This third edition of *Philosophy of Religion* offers a wide variety of readings designed to introduce students to important issues in the philosophy of religion. The authors have coupled new

readings including essays by Robert M Adams Peter Van Inwagen and William P Alston with readings from classical philosophers offering students an even more comprehensive and well focused text Many of the essays are particularly accessible to beginning philosophy students New essays cover religious pluralism teleological and moral arguments for God's existence and the problem of evil Philosophy of Religion 3 e is an excellent choice for use as a main text or as a supplement for introductory courses in philosophy and religion *Rethinking the Gods* Peter van Nuffelen, 2011-12-01 Ancient philosophers had always been fascinated by religion From the first century BC onwards the traditionally hostile attitude of Greek and Roman philosophy was abandoned in favour of the view that religion was a source of philosophical knowledge This book studies that change not from the usual perspective of the history of religion but as part of the wider tendency of Post Hellenistic philosophy to open up to external non philosophical sources of knowledge and authority It situates two key themes ancient wisdom and cosmic hierarchy in the context of Post Hellenistic philosophy and traces their reconfigurations in contemporary literature and in the polemic between Jews Christians and pagans Overall Post Hellenistic philosophy displayed a relatively high degree of unity in its ideas on religion which should not be reduced to a preparation for Neoplatonism *Readings in Religious Philosophy*. Geddes MacGregor, J. Wesley Robb Geddes MacGregor, J. Wesley Robb, Lucius Garvin, 1962 *God Matters*, 2007 The Challenge of Religion Frederick Ferré, Joseph J. Kockelmans, John Edwin Smith, 1982 To use a book like this either for the professor who may have adopted it for a course or for the person who may simply be reading it out of interest is to call for creative imagination There are many different ways in which these readings might be approached Our own editorial discussions about groupings and orderings were themselves quite lively

God Matters Raymond Martin, Christopher Bernard, 2003 *God Matters* is a state of the art accessible anthology of the major issues in philosophy of religion Its accessibility is due to its mix of classic readings and brand new readings about contemporary issues commissioned specifically with an undergraduate student in mind These commissioned readings make the difficult concepts of contemporary philosophy of religion easy to understand and are complemented by key excerpts from more technical philosophers writing on the same subjects The result is an engaging comprehensive reader that introduces students to the most important ideas in classical and contemporary philosophy of religion to the most important thinkers and even to excerpts from the key texts in which these thinkers presented their groundbreaking theories **Readings in the Philosophy of Religion** John A. Mourant, 1983-07-01 **Readings in the Philosophy of Religion - Third Edition** Kelly James Clark, 2017-05-03 This anthology contains the best of both classical and contemporary sources offering a balanced historical approach to the philosophy of religion while reflecting the latest developments in the field The included readings grapple with issues that are existentially compelling and provocative regardless of one's religious leanings Topics are covered in a point counterpoint manner designed to foster deep reflection This third edition contains an entirely new section on early Chinese religion as well as new essays on religious language feminism and the cognitive science of religion

Right here, we have countless books **Readings In Religious Philosophy** and collections to check out. We additionally come up with the money for variant types and along with type of the books to browse.
