Trading Places--SMEs in the Global Economy Lester Lloyd-Reason, Leigh Sear, 2007-01-01 There are 18 contributions in the book, all of whom are very highly regarded in the fields of entrepreneurship and international management. The book is well researched and edited. The book provides an excellent discussion on the importance of SMEs in the global economy. Through a number of different case study examples and discussion of various elements of the internationalization process, this book provides an outstanding resource for the study of SMEs that operate in the international market.

Vanessa Ratten, Journal of International Entrepreneurship. This book is most timely. It arrives at a time when globalisation and new technologies present major opportunities and challenges to the role of the independent small and medium-sized business in economies. The book's strength in dealing with many of the emerging issues is underpinned by a truly international range of contributors with a strong mix of practical as well as academic experience. From the preface by Allan Gibb, Professor Emeritus, Durham University, UK, Lester Lloyd Reason and Leigh Sear bring together leading researchers and thinkers in this critical guide to the ongoing worldwide research shaping the role played by SMEs within today's global economy. The expert contributors contend that the past twenty years have seen an explosion in research into international SMEs, resulting in a considerable body of academic literature and thinking. This research, they argue, may merely serve to increase our lack of understanding in this area and

often results in myths and misconceptions upon which SME policies and support programmes have been developed and introduced. They go on to suggest that academic models are often poorly suited to the problems faced by SMEs within the international trading environment. In many instances the contributors find SMEs at the vanguard of the challenge to accepted business practices; it is these challenges that underpin the text. Illustrating that today's SMEs are faced with the critical issue of how to create and maintain a sustainable competitive advantage in light of the increased complexity of international trade and global business linkages, this Handbook will prove invaluable to both academics and practitioners involved in business and management and entrepreneurship. **Marketing Theory** Jagdish N. Sheth, Atul Parvatiyar, Can Usay, 2024-11-13

Presents a comprehensive and up to date account of the evolution and underlying rationale of marketing theories. Marketing is a dynamic discipline subject to evolutionary changes over time. Over the years many schools of marketing thought have enriched the discipline. Today some of the schools are only found in history books while others have transformed into new modern schools of thought shaped by changing marketing contexts and the emergence of digital technology. Marketing Theory examines 16 schools of marketing thought that emerged, evolved and dominated the marketing discipline over the course of a century. Written by a team of noted experts, this acclaimed book provides in depth evaluations of each school utilizing a rigorous metatheoretical framework based on scientific criteria such as syntax, semantics and pragmatics. In this new global expanded edition, Marketing Theory identifies four new schools of marketing thought that have emerged in the past 30 years, each with separate chapters devoted to their assessment. It remains a must read book for doctoral students in marketing as well as young scholars and practitioners who want to understand the rationale and theoretical tenets of the various schools and contextualize their role in developing contemporary marketing theory. New to this Edition: New chapters on four new schools of marketing thought; New content on contenders for a general theory of marketing: Market Orientation, Service Dominant Logic, Rule of Three Theory and Resource Advantage; R A Theory of Competition; New and expanded coverage of Relationship Marketing with greater emphasis on R A Theory.
