sexual assault in two different settings a university tribunal and a criminal trial This case is situated within international studies on rape trials and is relevant to the legal systems of the US Canada Britain Australia and New Zealand She shows how culturally dominant notions about rape percolate through the talk of sexual assault cases in a variety of settings and ultimately shape their outcome Ehrlich hopes that to understand rape trials in this way is to recognize their capacity for change By highlighting the underlying preconceptions and prejudices in the language of courtrooms today this important book paves the way towards a fairer judicial system for the future
