

# Reagan Years The Record In Presidential Leadership

**Eric J. Schmertz, Natalie Datlof, Alexej  
Ugrinsky**

## **Reagan Years The Record In Presidential Leadership:**

**The Reagan Years** Joseph Hogan, 1990 A collection of political commentaries published originally in the Wall Street Journal by a Reagan critic No index No bibliography Contributors from both Britain and the US but mostly Britain cover Reagan's management of institutions Congress the Supreme Court the Cabinet councils and the White House staff the mass media the political parties and assess his leadership in the arenas of economic policy and foreign affairs Generally oriented to the level of advanced undergraduate students and generally well done though an index is sorely lacking Distributed in the US and Canada by St Martins Press Annotation copyrighted by Book News Inc Portland OR Reagan's First Four Years John David Lees, Michael Turner, 1988 **Historical Dictionary of the U.S. Presidency** Richard S. Conley, 2015-12-14 This book covers the development of the presidential office within the context of constitutional interpretations of presidential power and socio political and economic developments as well as foreign affairs events from 1789 2015 It provides details on the men who have held the office and biographies of vice presidents unsuccessful candidates for the office and noteworthy Supreme Court and other appointees The Historical Dictionary of the U S Presidency contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 300 cross referenced entries on the development of the institution of the presidency and details the personalities domestic and foreign policy governing contexts elections party dynamics and significant events that have shaped the office from the Founding to the present day This book is an excellent resource for students researchers and anyone wanting to know more about the U S Presidency Historical Dictionary of the Reagan-Bush Era Richard S. Conley, 2017-03-09 From the vantage point of the 2016 presidential election and the deepening polarization of American politics in recent decades it is striking how much more distant the Reagan Bush era of the 1980s and early 1990s seems compared to the years that have actually passed Whither the Republican Party of yesteryear Like reincarnated characters from Samuel Beckett's classic play Waiting for Godot many disillusioned conservatives in the new millennium continue to search obdurately and in vain for a leader who embodies the acclaimed leadership traits of Ronald Reagan This second edition of Historical Dictionary of the Reagan Bush Era contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 300 cross referenced entries on important personalities politics economy foreign relations events institutions policies and issues This book is an excellent resource for students researchers and anyone wanting to know more about this era **The Final Arbiter** Christopher P. Banks, David B. Cohen, John C. Green, 2012-02-01 The resolution of the 2000 presidential election by the U S Supreme Court's Bush v Gore decision generated an extraordinary outpouring of literature in a very short period of time Now that the initial furor over the decision has subsided The Final Arbiter presents a sober consideration of the consequences of the decision for the law the presidency and the legitimacy of the American political system The contributors include well established names in law and political science as well as up and coming scholars offering a broad understanding of Bush v Gore's long term

impact This book will be useful as a classroom text in both survey courses on elections and the courts and for advanced courses that consider the impact of judicial rulings on the government and political process     Reader's Guide to American History Peter J. Parish, 2013-06-17 There are so many books on so many aspects of the history of the United States offering such a wide variety of interpretations that students teachers scholars and librarians often need help and advice on how to find what they want The Reader's Guide to American History is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography Each of the 600 entries on topics in political social and economic history describes and evaluates some 6 to 12 books on the topic providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs The entries are devoted to events and individuals as well as broader themes and are written by a team of well over 200 contributors all scholars of American history     **United States Foreign Policy towards Cambodia, 1977-92** Christopher Brady, 1999-05-17 This book analyses the foreign policy of the United States towards Cambodia by examining the belief system of the key players It covers the invasion of Cambodia by the Vietnamese during the Carter administration their occupation of Cambodia through both Reagan administrations and their eventual withdrawal during Bush's tenure It concludes on the brink of the UN sponsored elections of 1993 and provides a short epilogue which brings the story up to 1997 As an examination of US foreign policy within decision making elites it makes a contribution to decision making theory and foreign policy analysis as well as providing insights into regional politics

**The President on Capitol Hill** Jeffrey E. Cohen, 2019-06-11 Can presidents influence whether Congress enacts their agenda Most research on presidential congressional relations suggests that presidents have little if any influence on Congress Instead structural factors like party control largely determine the fate of the president's legislative agenda In *The President on Capitol Hill* Jeffrey E. Cohen challenges this conventional view arguing that existing research has underestimated the president's power to sway Congress and developing a new theory of presidential influence Cohen demonstrates that by taking a position the president converts an issue from a nonpresidential into a presidential one which leads members of Congress to consider the president's views when deciding how to vote Presidential position taking also converts the factors that normally affect roll call voting such as party public opinion and policy type into resources that presidents can leverage to influence the vote By testing all House roll calls from 1877 to 2012 Cohen finds that not only do presidents have more influence than previously thought but through their influence they can affect the substance of public policy *The President on Capitol Hill* offers a new perspective on presidential congressional relations showing that presidents are not simply captives of larger political forces but rather major players in the legislative process     **Powers of Possibility** Alex Houen, 2012 By outlining a novel concept of literary practice potentialism this text shows how opening up literary possibilities enabled writers such as Allen Ginsberg LeRoi Jones Amiri Baraka William S. Burroughs Kathy Acker and Lyn Hejinian to tackle matters of power and politics     *Groupthink or Deadlock* Paul A. Kowert, 2012-02-01 The danger of

groupthink is now standard fare in leadership training programs and a widely accepted explanation among political scientists for policy making fiascoes Efforts to avoid groupthink however can lead to an even more serious problem deadlock Groupthink or Deadlock explores these dual problems in the Eisenhower and Reagan administrations and demonstrates how both presidents were capable of learning and consequently changing their policies sometimes dramatically but at the same time doing so in characteristically different ways Kowert points to the need for leaders to organize their staff in a way that fits their learning and leadership style and allows them to negotiate a path between groupthink and deadlock **The Press and the Modern Presidency** Louis W. Liebovich, 2001-06-30 Scandal and sex sell even in the serious business of presidential news coverage The media deference shown to Kennedy and the scrutiny applied to Clinton illustrate the changed relation between the two and bookend this pertinent updated 1998 Choice Outstanding Academic Book award winner Liebovich tackles misconceptions about the media's role in politics how chief executives cooperate with and manipulate the press as it suits their needs and how ratings pressures have bent coverage of elections and the Executive Branch for the worse Well written thorough and the only book to explore the changing relation between the press and the presidency in the later twentieth century students and researchers alike will profit from reading this work written by one of America's leading scholars in the field For students interested in communications history or contemporary American politics it is an unparalleled administration by administration introduction to the complex and intertwined workings of two of the most powerful and influential forces at work in American politics today It furthermore provides researchers with a solid historical explanation of how both presidential politics and political news coverage have come to be popularly reviled and discounted

**A Companion to Ronald Reagan** Andrew L. Johns, 2015-02-10 A Companion to Ronald Reagan evaluates in unprecedented detail the events policies politics and people of Reagan's administration It assesses the scope and influence of his various careers within the context of the times providing wide ranging coverage of his administration and his legacy Assesses Reagan and his impact on the development of the United States based on new documentary evidence and engagement with the most recent secondary literature Offers a mix of historiographic chapters devoted to foreign and domestic policy with topics integrated thematically and chronologically Includes a section on key figures associated politically and personally with Reagan *Reagan* Iwan Morgan, 2020-06-11 Ronald Reagan is arguably the most successful post war American president A transformational leader he is broadly credited with renewing American prosperity after the stagflation hit 1970s laying the foundations for Cold War victory and bringing about the shift to the right in late twentieth century politics In this new biography Iwan Morgan shrewdly assesses Reagan's considerable achievements whilst also highlighting the shortcomings that were an indisputable part of his record Based on extensive research this book plots a chronological path through Reagan's life covering his upbringing his rise and fall as a Hollywood star his time as California governor and his pursuit of the presidency Morgan offers a detailed evaluation of the pragmatic conservatism that was the

hallmark of Reagan's presidential leadership in domestic affairs In the international sphere he explains Reagan's metamorphosis from Cold War hawk to negotiator for nuclear arms reduction while also examining his role in the Iran Contra scandal This book ultimately shows that what made Reagan an American icon above all else was his optimism regarding his country and his ability to articulate its best values even if he himself did not always live up to these Today as the Republican Party grapples with its new direction and identity understanding the legacy of Ronald Reagan and Reaganism is more relevant than ever

**Exit with Honor** William E Pemberton, 2015-03-04 Few presidents have sparked as much interest in recent years as Ronald Reagan already the subject of a large number of biographies and specialized subjects This biography based on recent research into the Reagan archives and synthesis of the large memoir literature explores the shaping of his values and beliefs during his childhood in the American heartland his leadership of the American conservative movement and his successful political career culminating in the first two term presidency since Dwight Eisenhower Pemberton finds Reagan's personal career and ability to understand and communicate with the American people admirable but finds many of the long term effects of his presidency harmful

*Ronald Reagan's America* Eric J. Schmertz, Natalie Datlof, Alexej Ugrinsky, 1997

The American Presidency Under Siege Gary L. Rose, 1997-03-20 This book explores the failure of the modern American presidency a failure the author attributes to the development of a political system that impedes creative leadership The American presidency Gary L Rose argues is under siege Surrounded and blockaded by a reactionary Congress an entrenched bureaucracy an aggressive media lobbyists political action committees and special interest groups American presidents fail not because of a lack of ability or character but because of the political system and style of politics inside the Beltway Rose ascribes this emergence of a political system that obstructs presidential leadership to the decline of political parties as electoral and governing mechanisms As political parties have declined presidents have lost vital political connections that historically have enhanced their capacity to lead He presents a variety of prescriptive measures including political party and legal reform that have the potential to restore political parties and the governing capacity of the presidency

**Congressional Record** United States. Congress, 2001 **Ronald Reagan** David Mervin, 2014-09-11 First published in 1990 American as well as British students will find much that is interesting and illuminating in this British view of the Reagan presidency David Mervin writes as an experienced American politics specialist whose study includes first hand observation in the United States Putting aside policy substance and concentrating on effectiveness in using the political process Mervin portrays Reagan's presidential record more favorably than may be common in the British community

**Who Leads Whom?** Brandice Canes-Wrone, 2010-07-15 Who Leads Whom is an ambitious study that addresses some of the most important questions in contemporary American politics Do presidents pander to public opinion by backing popular policy measures that they believe would actually harm the country Why do presidents go public with policy appeals And do those appeals affect legislative outcomes Analyzing the actions of modern presidents ranging from Eisenhower to Clinton

Brandice Canes Wrone demonstrates that presidents involvement of the mass public by putting pressure on Congress shifts policy in the direction of majority opinion More important she also shows that presidents rarely cater to the mass citizenry unless they already agree with the public s preferred course of action With contemporary politics so connected to the pulse of the American people Who Leads Whom offers much needed insight into how public opinion actually works in our democratic process Integrating perspectives from presidential studies legislative politics public opinion and rational choice theory this theoretical and empirical inquiry will appeal to a wide range of scholars of American political processes

**White House Studies Compendium** Robert W. Watson, 2007 brings together piercing analyses of the American presidency dealing with both current issues and historical events The compendia consists of the combined and rearranged issues of the journal White House Studies with the addition of a comprehensive subject index Preface
