Ideological Violence Tygrrrr Express,2010-04-07 Ideological Violence is dedicated to the enraged mobs who try to destroy everything that is decent and right with this world through any means necessary Islamofascist Jihadists use bombs So have many environmentalists animal rights activists college professors college protesters community organizers and other leftist organizations that truly believe in forcing their world view on innocent Americans trying to live their lives in peace and quiet Hollywood sanitizes violence when committed by third world genocidal lunatics while glorifying violence against CPAs wearing red and blue diagonal neckties The author s Judaism has shown him a plethora of liberal Jews that shrug off Osama Bin Laden wielding a bomb and preaching Jihad but froth at the mouth over Pat Robertson wielding a book and preaching love thy neighbor His goal is to end ideological violence and force liberals to confront their own pathological demons and stop blaming conservatives for their own failures Once they realize that we are human beings we can come together and work on solutions to benefit the world If the left insists on war war is what they will get and they will be crushed If this makes him a hero to conservatives resulting in him being sandwiched between a pair of hot Republican Jewish brunettes who fan him and drop grapes into his mouth all the better *The Cold War* Spencer C. Tucker,2020-10-27 This sweeping reference work covers every aspect of the Cold War from its ignition in the ashes of World War II through the Berlin Wall and the Cuban Missile Crisis to the collapse of the Soviet Union in 1991 The Cold War superpower face off between the Soviet Union and the United States dominated international affairs in the second half of the 20th century and still reverberates around the world today This comprehensive and insightful multivolume set provides authoritative entries on all aspects of this world changing event including wars new military technologies diplomatic initiatives espionage activities important individuals and organizations economic developments societal and cultural events and more This expansive coverage provides readers with the necessary context to understand the many facets of this complex conflict The work begins with a preface and introduction and then offers illuminating introductory essays on the origins and course of the Cold War which are followed by some 1 500 entries on key individuals wars battles weapons systems diplomacy politics economics and art and culture Each entry has cross references and a list of books for further reading The text includes more than 100 key primary source documents a detailed chronology a glossary and a selective bibliography Numerous illustrations and maps are inset throughout to provide additional context to the material **A History of Evil in Popular Culture** Sharon Packer MD,Jody Pennington,2014-07-15 Evil isn t simply an abstract theological or philosophical talking point In our society the idea of evil feeds entertainment manifests in all sorts of media and is a root concept in our collective psyche This accessible and appealing book examines what evil means to us Evil has been with us since the Garden of Eden when Eve unleashed evil by biting the apple Outside of theology evil remains a highly relevant concept in contemporary times evil villains in films and literature make these stories entertaining our criminal justice system decides the fate of convicted criminals based on the

determination of their status as evil or insane This book examines the many manifestations of evil in modern media making it clear how this idea pervades nearly all aspects of life and helping us to reconsider some of the notions about evil that pop culture perpetuates and promotes Covering screen media such as film television and video games print media that include novels and poetry visual media like art and comics music and political polemics the essays in this book address an eclectic range of topics The diverse authors include Americans who left the United States during the Vietnam War era conservative Christian political pundits rock musicians classical linguists Disney fans scholars of American slavery and experts on Holocaust literature and films From portrayals of evil in the television shows *The Wire* and *24* to the violent lyrics of the rap duo Insane Clown Posse to the storylines of the *Lord of the Rings* and *Harry Potter* books readers will find themselves rethinking what evil is and how they came to hold their beliefs *The Routledge Handbook of Animal Ethics* Bob Fischer, 2019-12-06 There isn't one conversation about animal ethics Instead there are several important ones that are scattered across many disciplines This volume both surveys the field of animal ethics and draws professional philosophers graduate students and undergraduates more deeply into the discussions that are happening outside of philosophy departments To that end the volume contains more nonphilosophers than philosophers explicitly inviting scholars from other fields such as animal science ecology economics psychology law environmental science and applied biology among others to bring their own disciplinary resources to bear on matters that affect animals The Routledge Handbook of Animal Ethics is composed of 44 chapters all appearing in print here for the first time and organized into the following six sections I Thinking About Animals II Animal Agriculture and Hunting III Animal Research and Genetic Engineering IV Companion Animals V Wild Animals Conservation Management and Ethics VI Animal Activism The chapters are brief and they have been written in a way that is accessible to serious undergraduate students regardless of their field of study The volume covers everything from animal cognition to the state of current fisheries from genetic modification to intersection animal activism It is a resource designed for anyone interested in the moral issues that emerge from human interactions with animals **New Unionist**, 1985 *The Cuisine of Sacrifice Among the Greeks* Marcel Detienne, Jean-Pierre Vernant, 1989 For the Greeks the sharing of cooked meats was the fundamental communal act so that to become vegetarian was a way of refusing society It follows that the roasting or cooking of meat was a political act as the division of portions asserted a social order And the only proper manner of preparing meat for consumption according to the Greeks was blood sacrifice The fundamental myth is that of Prometheus who introduced sacrifice and in the process both joined us to and separated us from the gods and ambiguous relation that recurs in marriage and in the growing of grain Thus we can understand why the ascetic man refuses both women and meat and why Greek women celebrated the festival of grain giving Demeter with instruments of butchery The ambiguity coded in the consumption of meat generated a mythology of the other werewolves Scythians Ethiopians and other monsters The study of the sacrificial consumption of meat thus leads into exotic territory and to unexpected findings In The

The Whooper Swan Mark Brazil,2010-01-31 This is the first ever monograph on the Whooper Swan This species is found in the northern Palearctic and is the world s most widely distributed swan It is a familiar bird in northern Europe and across

Asia to the far East and is particularly noticeable when migrating between breeding and wintering grounds in large noisy flocks This migratory behaviour makes it a powerful symbol of seasonal change and this together with the bird s beautiful appearance make it a popular subject of folklore and legend For much of its range the Whooper Swan is the archetypal wild swan and its voice and appearance is deeply evocative of time and place This book looks at all aspects of the life and times of this enchanting bird The book includes chapters on taxonomy population range and distribution diet breeding biology behaviour migratory behaviour and longevity as well as taking a look at the swan s associations with our own species in history and legend and throughout its geographic range This book is a brilliantly readable and exhaustively researched monograph It is illustrated throughout with numerous photographs and line drawings illustrating various aspects of the species behaviour and morphology It will appeal greatly to all those with an interest in birdwatching especially those who already know something of this wonderful and inspirational bird

The Handbook of Bird Identification Mark Beaman, Steve Madge, 2010-09-30 An identification guide covering all the bird species to have occurred in the European region Birding is one of the most popular activities and pastimes in Europe and so it follows that it is essential to be able to identify the birds on view be it in the back garden or for making more serious in depth studies This book aims to bring together as much information as possible in one volume using extremely detailed up to date guides and identification of every species known to have occurred in Europe and the West Palearctic that is the whole of Europe North Africa as far south as the Central Sahara the Middle East to the border of Iran the Azores Madeira Canary Islands the islands off Mauritania and the Cape Verde islands as defined by Cramp and Simons 1977 They have certainly been successful in doing so and have produced a wonderfully comprehensive guide covering nearly 900 species showing a wide range of differing plumages The colour plates are exquisite and have been painted by some of Europe s leading bird artists The text is clear and can be followed by beginners but finer points of identification are included for the benefit of more serious bird watchers Particularly helpful is the cross referencing of the text and colour plates There are more than 600 colour maps to identify where the birds are to be found which are simple and easy to use with excellent descriptions of status and habitat
