

REAL AMERICAN HEROES

Secrets To Their Success

John Weber
and Jim Gibbs

Foreword by Jim Sundberg

Real American Heroes Secrets To Their Success

David Graham Phillips

Real American Heroes Secrets To Their Success:

Real American Heroes Jim Weber, Jim Gibbs, 2005-02-01 Much gain has been made in understanding addiction and its treatment in the last two decades. However, training for addiction treatment team medical doctors, psychiatrists, psychologists, social workers, dentists, pharmacists, school and addiction counselors remains shallow and in most instances completely wanting. Many universities that train addiction treatment teams do not offer courses in addiction. This compilation explores major areas of interest in addiction studies. With thorough investigation, Dr. Wachuku highlights the role of genetics in addiction. He also emphasizes that other facets such as environmental and social factors are equally worthy of consideration. He delves into societal enabling and codependency issues from a perspective that other addiction researchers have taken for granted. At the eve of the millennium, pharmacotherapy, the use of medication to treat addiction, became a buzzword in the addiction treatment field. The use of medications such as naltrexone, acamprosate, bupropion, UH232, to mention but a few, promise new hope in lasting cure for addiction. Dr. Wachuku examines this new trend in addiction treatment and offers strong professional opinion on the role of counseling in pharmacotherapy. Dual diagnosis, substance abuse induced mental health problems or mental health problems exacerbated by substance abuse, is another area of treatment that has received considerable attention in recent years. While working as a consultant in a dual diagnosis clinic, Dr. Wachuku saw opportunity for case study to examine different treatment modalities for dual diagnosis. He traces the origin of dual diagnosis, comprehensive treatment in the United States, epitomizes the shortcomings of current treatment in the facility he consulted with, and offers solutions to existing problems. Harm reduction is yet another treatment option that has received a mixed welcome. Dr. Wachuku sheds light on the origin of harm reduction in the United States. He carefully examines the controversial Swiss Heroin Project, the first global clinical attempt to use pure grade heroin to treat heroin addicts. In contrast, he reviews the Chinese Compulsory treatment model, an attempt to fully understand treatment approaches in foreign countries. This anthology is highly recommended as a supplemental text to students in addiction studies. Even more so, this compilation raises food for thought and prods addiction professionals interested in research to challenge some of the findings in this book. Indeed, this book is a must own for not only professionals in the addiction field but to all in sundry who may be affected by addiction in one form or another. It offers useful insight into addiction and challenges treatment professionals to explore other treatment options.

The Politically Incorrect Guide to Real American Heroes Brion McClanahan, 2012-11-13 Profiles heroic figures from the beginning of the United States history to the present whose contributions to society the author asserts have been overshadowed by the actions of those the liberal media holds in high esteem.

The Great Commission: Or, The Christian Church Constituted and Charged to Convey the Gospel to the World Rev. John Harris (D.D.), 1842

Foundations of American Civilization Arthur Treat Gorton, 1914

Inventing Baseball Heroes Amber Roessner, 2014-06-09 In *Inventing Baseball Heroes*, Amber Roessner examines herocrafting in sports journalism through an incisive analysis of the work

surrounding two of baseball's most enduring personalities Detroit Tigers outfielder Ty Cobb and New York Giants pitcher Christy Mathewson. While other scholars have demonstrated that the mythmakers of the Golden Age of Sports Writing 1920-1930 manufactured heroes out of baseball players for the mainstream media, Roessner probes further with a penetrating look at how sportswriters compromised emerging professional standards of journalism as they crafted heroic tales that sought to teach American boys how to be successful players in the game of life. Cobb and Mathewson, respectively stereotyped as the game's sinner and saint, helped shape their public images in the mainstream press through their relationship with four of the most prominent sports journalists of the time: Grantland Rice, F. C. Lane, Ring Lardner, and John N. Wheeler. Roessner traces the interactions between the athletes and the reporters, delving into newsgathering strategies as well as rapport building techniques and ultimately revealing an inherent tension in objective sports reporting in the era. *Inventing Baseball Heroes* will be of interest to scholars of American history, sports history, cultural studies, and communication. Its interdisciplinary approach provides a broad understanding of the role sports journalists played in the production of American heroes.

Designed for Success Janet Borgerson, Jonathan Schroeder, 2024-05-14 A charmingly illustrated history of midcentury instructional records and their untold contribution to the American narrative of self-improvement, aspiration, and success. For the midcentury Americans who wished to better their golf game through hypnosis, teach their parakeet to talk, or achieve sexual harmony in their marriage, the answers lay no further than the record player. In *Designed for Success*, Janet Borgerson and Jonathan Schroeder shed light on these endearingly earnest albums that contributed to a powerful American vision of personal success. Rescued from charity shops, record store cast-off bins, or forgotten boxes in attics and basements, these educational records reveal the American consumer's rich but sometimes surprising relationship to advertising, self-help, identity construction, and even aspects of transcendentalist thought. Relegated to obscurity and novelty, instructional records such as *Secrets of Successful Varmint Calling*, *You Be a Disc Jockey*, and *How to Ski*. A Living Room Guide for Beginners offer distinct insights into midcentury media production and consumption. Tracing the history of instructional records from the inception of the recording industry to the height of their popularity, Borgerson and Schroeder offer close readings of the abundant topics covered by *Designed for Success* records. Complemented by over a hundred full-color illustrations, *Designed for Success* is a wonderfully nostalgic tour that showcases the essential role these vinyl records played as an unappreciated precursor to contemporary do-it-yourself culture and modern conceptions of self-improvement.

Teaching Comics and Graphic Narratives Lan Dong, 2014-01-10 The essays in this collection discuss how comics and graphic narratives can be useful primary texts and learning tools in college and university classes across different disciplines. There are six sections: American Studies, Ethnic Studies, Women's and Gender Studies, Cultural Studies, Genre Studies, and Composition, Rhetoric, and Communication. With a combination of practical and theoretical investigations, the book brings together discussions among teacher-scholars to advance the scholarship on teaching comics and graphic narratives and provides scholars with useful
