No Agent Needed Matt Theriault, 2018-11-19 Have you been pondering the idea of selling a property Thinking about how you might be able to sell it fast while maximizing the profit doing it yourself How difficult could it be Like it s not rocket science right LOL Nope it s not However experience selling for sale by owner fsbo has its benefits With today s technology and advancement transacting real estate can be pretty simple There are many different services available whether marketing services fulfillment services or transaction services that can empower the average person to sell their house in a relatively short period of time for a top of the market price so much so that a private seller such as yourself could potentially reach a detrimental level of over confidence in the process Technology is great and it has its place and value but it s still a people business and the number of people involved in a real estate transaction can introduce a seemingly countless number of variables that all the technology in the world couldn t ever expect to prepare you for My name is Matt Theriault and prior to becoming a real estate investor I was a real estate agent I have more than a thousand transactions

under my belt actually I have many more than that I stopped counting a long time ago I haven't seen it all but I've seen a lot and that's why I know you can with a little help sell your property without an agent So I scrolled through my personal phone for some of the most experienced real estate investors in the country I specifically asked my friends to join me in this book and recall some of their past transactions and impart the lessons learned from a wide array of situations where they too were seemingly staring easy home runs in the face Even with all their experience and available resources random wild pitches and foul balls took significant bites out of their run count They've now shared their lessons learned along the way as well as some of their regrets Where they could have done things differently they have shared that too Real estate is not an exact science There are many moving parts and variables at play in every transaction No one could be prepared for every possible scenario however I have put forth a valiant effort to prepare you What I've compiled in this book is educational and practical as well as entertaining at times in the interest of minimizing the potential for loss while tipping the odds in your favor for the outcome you desire An agent has their place in a real estate transaction but they're certainly not required Matt no agent needed Theriault

Mettling, David Cusic, Ryan Mettling, 2024-11-20 Features of Performance Programs Company s Illinois Real Estate License Exam Prep IL RELEP National Principles Law Key Point Review 60 pages Real Estate Math Key Formula Review Practice 20 pages Illinois Specific Laws and Regulations Key Point Review 32 pages National Practice Tests 500 questions Illinois Practice Tests 125 questions Illinois Sample Exam 100 questions We know the real estate licensing exam can be tough and very nerve wracking to prepare for That s why we created the Illinois Real Estate License Exam Prep IL RELEP the way we did Since we have been managing real estate schools and developing curriculum for forty years we know how all this works or fails to work IL RELEP is comprehensive in that it contains both key content review and testing practice And the text review is Illinois specific not just simplistic national content but terse relevant and accurate Illinois laws and regulations presented as a well organized set of state key point reviews ideal for pre test memorization But let s not dismiss the

importance of the national content either IL RELEP's national key point reviews are a succinct compression of tested national principles and practices that comprise the national portion of state license exams from coast to coast. Our content is drawn from our own national textbook *Principles of Real Estate Practice*, one of the most widely used principles textbooks in the country. Finally, our national content as well as our question selection is further tailored to the state testing outline promulgated by PSI for Illinois. Thus, the breadth and depth of the law reviews and test questions reflect the topic emphasis of your state's testing service and your Illinois license exam.

A word about the test questions: IL RELEP's testing practice section consists of ten national practice tests, three state practice tests, and one state exam sample test. The practice tests are roughly 50 questions in length, and the sample test is 100 questions. The test questions are designed to cover the content covered by the law reviews, which reinforces your learning of the total body of information tested by your state exam. The questions are direct to the point and designed to test your understanding. When you have completed a given test, you can check your answers against the answer key in the appendix. You may also note that each question's answer is accompanied by a brief explanation or rationale to further reinforce your understanding. In the end, as you know, it's all up to you. Unlike other publications, we are not going to tell you that using this book will guarantee that you pass your state exam. It still takes hard work and study to pass. But we have done our best here to get you ready. Following that, the most we can do is wish you the best of success in taking and passing your Illinois real estate exam. So good luck!
