Miles Alfred Henry Miles, 1895 **Mac Life** ,2007-07 'Inquiétude' in the work of Pierre Mac Orlan Roger W. Baines, 2021-10-25 This is the first major study in English of the work of the French novelist essayist journalist poet and chansonnier Pierre Mac Orlan 1882-1970 It assesses Mac Orlan's contribution to the post 1918 phenomenon of intellectual disillusionment and disorientation which was termed the nouveau mal du siècle or inquiétude Although he has largely been ignored by critics thus far Mac Orlan was part of mainstream French literary production and a major exponent of inquiétude Where he differs from his contemporaries is in his subject matter in his use of sociological rather than abstract intellectual material His expression of inquiétude encompasses le fantastique social adventure marginality le cafard and sadistic sexuality His originality lies in his invention of le fantastique social in his constant use of certain techniques as well as the subject matter of German Expressionism via the depiction of the disturbing landscape of the modern city post 1918 inflation and decadence prostitutes and criminals doomed adventurers the mystery of modern technology and in the expression of a morbid interest in sexual violence This volume will be of particular interest to students of inter war French literature and thought *Reference Catalogue of Current Literature* ,1913 *The Reference Catalogue of Current Literature* ,1913 **Life's Great Adventure** Francis STOPFORD, 1912 *Woman in America Her Work and Her Reward* by Maria J. McIntosh Maria Jane Macintosh, 1850 **Adventure Games** Aaron A. Reed, John Murray, Anastasia Salter, 2020-02-20 The genre of adventure games is frequently overlooked Lacking the constantly evolving graphics and graphic violence of their counterparts in first person and third person shooters or role playing games they are often marketed to and beloved by players outside of mainstream game communities While often forgotten by both the industry and academia adventure games have had and continue to have a surprisingly wide influence on contemporary games in categories including walking simulators hidden object games visual novels and bestselling titles from companies like Telltale and Campo Santo In this examination of heirs to the genre's legacy the authors examine the genre from multiple perspectives connecting technical analysis with critical commentary and social context This will be the first book to consider this important genre from a comprehensive and

transdisciplinary perspective Drawing upon methods from platform studies software studies media studies and literary studies they reveal the genre s ludic and narrative origins and patterns where character and the player s embodiment of a character is essential to the experience of play and the choices within a game A deep structural analysis of adventure games also uncovers an unsteady balance between sometimes contradictory elements of story exploration and puzzles with different games and creators employing a multitude of different solutions to resolving this tension
