Alternate History Kathleen Singles, 2013-10-14 While strictly speaking Alternate Histories are not Future Narratives their analysis can shed a clear light on why Future Narratives are so different from past narratives Trying to have it both ways most Alternate Histories subscribe to a conflicting set of beliefs concerning determinism and freedom of choice contingency and necessity For the very first time Alternate Histories are here discussed against the backdrop of their Other Future Narratives The volume contains in depth analyses of the classics of the genre such as Philip K Dick's *The Man in the High Castle* and Philip Roth's *The Plot against America* as well as less widely discussed manifestations of the genre such as Dieter Kuhn's *N* Christian Kracht's *Ich werde hier sein im Sonnenschein und im Schatten* and Quentin Tarantino's film *Inglourious Basterds*

Ayodhya Revisited Kunal Kishore, 2016-01-01 This work of monumental research is a treatise on Ayodhya with utmost authenticity and absolute accuracy Based on original sources and scientific investigation it propounds a new thesis which demolishes many popular perceptions It exonerates the intrepid warrior Babur from the charge of demolishing a temple on the birthplace of Rama and constructing the mosque which has been a source of contention and dissension for long It further shows how inscriptions in the mosque were factitious and Mir Baqi of inscriptions is a fictitious person different from Baqi Tashkindi Shegawal of the Baburnama The book produces incontrovertible evidence which indubitably proves that there existed a Rama temple on the Ramajanamabhumis The exact birthplace of Rama was earmarked by a rectangular Bedi measuring 18.9 in length and 15 in width and was located in the inner portion of the disputed shrine The demolition of the temple and the construction of the mosque did not take place in 1528 A.D. but in c. 1660 A.D. when Fedai Khan was the Governor of Aurangzeb at Ayodhya It is a historical fact that until the British takeover of Awadh administration in 1858 both the Hindus and Muslims used to perform puja and offer Namaz respectively inside it All Mughal Emperors from Babur to Shah Jahan were magnanimous and liberal rulers and the Bairagis of Ayodhya enjoyed patronage of the first four Nawabs of Awadh However during the long rule of Aurangzeb the country was engulfed in the fire of fanaticism It has been shown in this book how an absolutely unfounded rumour in 1855 A.D. that the Hanumangarhi temple was constructed on the site of a mosque created cleavage between the two communities and the resultant festering wounds have not healed despite best efforts by saner elements of both the communities The book exposes many eminent historians hypocrisy and their lack of objectivity in writing history and it may be said that their presentation of contrived history on Ayodhya has caused irreparable damage to the cause of harmonizing communal relations in the country In contrast this text earnestly tries to take away the toxin from the polluted body of Indian politics For the first time a number of unexplored documents have been incorporated in this book as evidence and it may be proclaimed with pride that this book contains much more information on Ayodhya than available hitherto Justice G. B. Patnaik a former Chief Justice of India after going through the manuscript has endorsed the author's thesis in his Foreword It is hoped that the book will put a quietus to the long standing dispute Selected

Memory, History, Nation Susannah Radstone, 2017-09-04 In the last decade a focus on memory in the human sciences has encouraged new approaches to the study of the past As the humanities and social sciences have put into question their own claims to objectivity authority and universality memory has appeared to offer a way of engaging with knowledge of the

past as inevitably partial subjective and local At the same time memory and memorial practices have become sites of contestation and the politics of memory are increasingly prominent This inter disciplinary volume demonstrates from a range of perspectives the complex cultural work and struggles over meaning that lie at the heart of what we call memory The chapters in this volume offer a complex awareness of the workings of memory and the ways in which different or changing histories may be explained They explore the relation between individual and social memory between real and imaginary event and fantasy history and myth Contradictory accounts or memories in direct contradiction to the historical record are not always the sign of a repressive authority attempting to cover something up The tension between memory as a safeguard against attempts to silence dissenting voices and memory's own implication in that silencing runs throughout the book Topics covered range from the Basque country to Cambodia from Hungary to South Africa from the Finnish Civil War to the cult Jim Jarmusch movie Dead Man from the Rock and Roll Hall of Fame to Australia Part I Transforming Memory is concerned primarily with the social and personal transmission of memory across time and generations Part II Remembering Suffering Trauma and History brings the after effects of catastrophe to the fore Part III Patterning the National Past the relation between nation and memory is the central issue Part IV And Then Silence reflects on the complex and multiple meaning of silence and oblivion wherein amnesia is often used as a figure for the denial of shameful

The Trauma Question Roger Luckhurst, 2013-06-17 In this book Roger Luckhurst both introduces and advances the fields of cultural memory and trauma studies tracing the ways in which ideas of trauma have become a major element in contemporary Western conceptions of the self The Trauma Question outlines the origins of the concept of trauma across psychiatric legal and cultural political sources from the 1860s to the coining of Post Traumatic Stress Disorder in 1980 It further explores the nature and extent of trauma culture from 1980 to the present drawing upon a range of cultural practices from literature memoirs and confessional journalism through to photography and film The study covers a diverse range of cultural works including writers such as Toni Morrison Stephen King and W G Sebald artists Tracey Emin Christian Boltanski and Tracey Moffatt and film makers David Lynch and Atom Egoyan The Trauma Question offers a significant and fascinating step forward for those seeking a greater understanding of the controversial and ever expanding field of trauma research

Contested Pasts Katharine Hodgkin, Susannah Radstone, 2003-09-02 This inter disciplinary volume demonstrates from a range of perspectives the complex cultural work and struggles over meaning that lie at the heart of what we call memory In the last decade a focus on memory in the human sciences has encouraged new approaches to the study of the past As the humanities and social sciences have put into question their own claims to objectivity authority and universality memory has appeared to offer a way of engaging with knowledge of the past as inevitably partial subjective and local At the same time memory and memorial practices have become sites of contestation and the politics of memory are increasingly prominent

The Theater of Trauma Michael Cotsell, 2005 The Theater of Trauma is a groundbreaking rereading of the relations between psychology and

drama in the age of Eugene O'Neill, Susan Glaspell and their many brilliant contemporaries. American modernist Theater of Trauma drew its vision from the psychological investigation of trauma and its consequences among them hysteria and dissociation made by French and American psychiatrists such as the great Pierre Janet, Alfred Binet, William James, Morton Prince and W. E. B. Du Bois. The European and American dissociationist culture that developed around their work and the resulting trauma of World War I. American dramatists' deep resistance to Freud's suppression of trauma challenges the equation of Freud and modernism that has become commonplace in modernist criticism.

Kohlberg Revisited Boris Zizek, Detlef Garz, Ewa Nowak, 2015-04-23. I could easily say what a timely book but the truth is that Kohlberg is for the ages which means any time is worthwhile to revisit his work. So in that sense let us ask what aspects of his work in Moral Development and Moral Education are timely today. One answer can be found in the Kohlberg Lounge on the sixth floor of Larsen Hall which I have the privilege to visit every day. Placed there in 1987 a plaque in his honor states: In memory of Lawrence Kohlberg. In this room where ideas are born through discussion and tested through debate. Let us listen and speak with the same respect that he gave to all. In 2015 the emphasis on discussion and debate has reached beyond moral development to all aspects of pedagogy from literacy to history education and beyond. And in an era of fast and slow thinking this book reminds us that ethical reflection, self-awareness and a social conscience are the three malleable developmental skills that allow us all to be truly human. Kohlberg then Kohlberg now Kohlberg forever. Robert L. Selman, Harvard University Roy Edward Larsen, Professor of Education and Human Development, Professor of Psychology in the Department of Psychiatry. This book about one of the giants of psychology is very timely. There is a whole generation of students and scholars that is growing up with a knowledge about moral development without learning about the roots of the field. This is not a matter of nostalgia or attributional justice but one of missing out on a fountain of knowledge and insight that has not been surpassed in its depth and breadth. This book should become required reading for students in the social sciences that should begin to ask the questions that would require their teachers to read up. Gil Noam, Harvard Medical School Founder and Director of the Program in Education Afterschool Resiliency PEAR. Kohlberg's theory of moral development might be more relevant today than ever given increasing worries about the fragmentation and declining solidarity in modern Western society. But does the theory hold up in light of old criticisms and new questions and methods? The chapters by leading scholars in the field of moral development introduce new generations of moral psychologists, philosophers and educators to Kohlberg's work by addressing strengths and weaknesses and suggesting ways to move forward. A must read for anyone interested in moral education. Jan Boom, Utrecht University Chair of the Kuhmerker Dissertation Award Committee.

The ends of Ireland Conor Carville, 2024-06-04. The Ends of Ireland considers the work of a key group of critics emerging from Ireland through the 1980s and 1990s: Seamus Deane, Luke Gibbons, David Lloyd, W. J. McCormack, Gerardine Meaney and Emer Nolan. As the main representatives of the turn to theory in Irish Studies, these critics have examined Irish culture in the light of ideas taken from

psychoanalysis feminism Marxism and postcolonialism In a series of incisive yet accessible chapters Carville analyses the way in which these often provocative ideas have been put to work in the Irish context transforming our understanding of writers like Joyce and Beckett as well as informing broader debates around nationalism modernization memory and historical revisionism Essential reading for anyone concerned with Irish Studies and its relationship with theory the issues raised by *The Ends of Ireland* set a new agenda for Irish Studies in the coming times *Revisiting the Days of Genesis* Bryan C. Hodge,2011-01-01 A commitment to historical grammatical hermeneutics often has been confused with a commitment to literal language Time in our modern conception has been construed as a measurement of temporal units and the numbers assigned to them as merely counting those units However a study is needed to explore whether this is the Genesis author s use of time and whether numerical values utilized suggest something other than tracking simple measurements This book attempts to offer an answer to this question by analyzing the ancient Near Eastern and literary context of the Book of Genesis in terms of its use of temporal language in determining its value within the narrative It is the contention of this book that both of these concepts have been misunderstood to such an extent that these misperceptions often obstruct interpreters from understanding the sociological and theological intent of the author to convey a theology of God man creation and chaos that addresses concerns of both the ancient and the modern reader *Trauma and Memory* Valerie Sinason,Ashley Conway,2021-08-11 Trauma and Memory will assist mental health experts and professionals as well as the interested public in understanding the scientific issues around trauma memory and how this differs from other areas of memory This book provides accounts of the damage caused to psychology and survivors internationally by false memory groups and ideas It is unequivocally passionate about the truth of trauma memory and exposing the damaging disinformation that can seep into the field Contributors to this book include leading professionals from the field of criminology law psychology and psychotherapy in the UK and USA along with survivor professionals who understand only too well the damage such disinformation can cause This book is a valuable resource for mental health professionals of all disciplines including those involved with relevant law and public health policy It will also help survivors and survivor professionals in gaining insight into the forces resisting disclosure *Crime, Risk and Insecurity* Tim Hope,Richard Sparks,2012-11-12 This book presents new empirical and conceptual work on the questions of fear anxiety risk and trust both as problems of everyday living and as key themes in the culture and politics of contemporary Western societies The volume includes contributions from distinguished social researchers from Britain the United States Germany and Italy and will be of interest to academics and students in the areas of criminology and sociology **Revisiting Vietnam** Julia Bleakney,2013-09-13 This book explores the memorializing practices of American veterans of the Vietnam War at several of the most significant contemporary sites of memory in the United States and Vietnam These sites include veterans memoirs museum exhibits replicas of the National Vietnam Veterans Memorial and tourism to Vietnam Because war memorializing has since the late 1960s shifted focus from national soul

searching to personal identity and recovery I emphasize how contemporary narratives of the war shaped more by memory than by history often are detached from the specific history of the war and its political controversies Drawing on trauma and cultural memory scholarship as well as empirical data gathered during field research in the U S and Vietnam the author examines how veterans memorializing practices have become increasingly individualized commodified and conservative since the early 1980s

Public Rape Tanya Horeck,2013-04-15 Second wave feminism fought to end the blanket silence shrouding rape and bring it to public attention Now feminist critics must confront a different issue In Public Rape Tanya Horeck considers the public investment in images of rape and the figure of the raped woman Introducing the idea of public rape Horeck looks at how images of rape serve as cultural fantasies of sexual racial and class difference Looking at rape in real life as well as in literature and films such as *The Accused* and *Boys Don't Cry* Horek reveals how representations of rape raise vital questions about the relationship between reality and fantasy and between violence and spectacle

Young Men and Domestic Abuse David Gadd,Claire L. Fox,Mary-Louise Corr,Steph Alger,Ian Butler,2015-07-16 Surveys reveal that domestic abuse is more commonplace among teenagers and young adults than older populations yet surprisingly little is written about young men's involvement in it Reporting on a three year study based in the UK this book explores young men's involvement in domestic abuse whether as victims perpetrators or witnesses to violent behaviors between adults Original survey data focus group material and in depth biographical interviews are used to make the case for a more thoroughgoing engagement with the meanings young men come to attribute to violent behavior include the tendency among many to configure violence within families as fights that call for acts of male heroism The book also highlights the dearth of services interventions for young men prone to domestic abuse and the challenges of developing responsive practice in this area Each section of the book highlights further online resources that those looking to conduct research in this area or apply its insights in practice can draw upon

Reactions to Revolutions Ulrich Broich,2007 The outbreak of revolution in Paris in 1789 forced Britain into a political and military conflict that had a profound impact on politics economy public discourse and cultural life well into the 19th century The essays collected here examine the various responses to the revolution and the significant changes wrought within Britain by the events Some essays discuss the ideological divisions within Britain and Ireland Others take a closer look at the media and the debate on the press and reinvestigate responses to the revolution by prominent contemporaries such as William Godwin Dugald Stewart and William Wordsworth
