Unsolved Mysteries Jack Albert (author), 1901 Unsolved! George Sullivan, 1992 Explores nine unsolved mysteries including the shooting of Robert Kennedy the disappearance of a young boy and a subway crash **The Mysterious Times** Melissa Heckscher, 2004 From the Bermuda Triangle to life on Mars **Unsolved Mysteries** Albert Jack, 2018-05-08 From the Author of the Internationally Bestselling Books *Red Herrings* either one of the world's most famous or something on a much smaller scale But writing a book on just one of these would have been relatively easy The challenge came from researching many of them and then condensing them down in a way that I know you my reader will enjoy them And that is in short sharp informative sections that can be read on the train bus queue or whilst you are waiting to pick the kids up from school In other words the challenge was to explain each mystery in a way you can enjoy and absorb in about ten minutes flat Therefore inevitably some information will be missing for which I apologise in advance But the missing detail isn't critical to the basic story the core details of the mystery in question should all be in there And this brings me to an important point Given that I am a fan of the unknown and unexplained I have not set out to be a mystery buster in this series Instead I just wanted to tell the story reveal some little known detail and offer a rational explanation wherever I could I wanted to provoke a bit of thought and conversation wherever I could but leave you to decide the answer for yourselves does the story remain a mystery in your view or have you managed to piece together a theory of your own that you can share with friends Although to be fair I must admit there are some cases where I just couldn't resist presenting some of my own ideas and giving full rein to my scepticism But don't let that stop you from enjoying yourselves

WINNER OF THE BLUE PETER BOOK AWARD 2018 Best Book with Facts Have you ever wondered what goes bump in the night From mysteries like Shackleton's ghostly companion to the Loch Ness Monster and friends read the amazing evidence about these mysterious cases and make up your own mind **Paranormal Mysteries** Albert Jack, 2018-05-08 From the author of the internationally bestselling *Red Herrings* We all love a good mystery don't we And by all I mean each and every one of us are or will be captivated at one time or another by a decent real life scary mystery either one of the world's most famous or something on a much smaller scale But writing a book on just one of these would have been relatively easy The challenge came from researching many of them and then condensing them down in a way that I know you my reader will enjoy them And that is in short sharp informative sections that can be read on the train bus queue or whilst you are waiting

to pick the kids up from school In other words the challenge was to explain each mystery in a way you can enjoy and absorb in about ten minutes flat Therefore inevitably some information will be missing for which I apologise in advance But the missing detail isn't critical to the basic story the core details of the mystery in question should all be in there In some cases such as chapters on The Bermuda Triangle UFO's or USO's there are literally thousands of examples that I could have used of course but in each case I have kept them down to just a handful And this brings me to an important point Given that I am a fan of the unknown and unexplained I have not set out to be a mystery buster in this series Instead I just wanted to tell the story reveal some little known detail and offer a rational explanation wherever I could I wanted to provoke a bit of thought and conversation wherever I could but leave you to decide the answer for yourselves does the story remain a mystery in your view or have you managed to piece together a theory of your own that you can share with friends Although to be fair I must admit there are some cases where I just couldn't resist presenting some of my own ideas and giving full rein to my scepticism But don't let that stop you from enjoying yourselves The other two books in this series are *Mystery The World's Ten Most Famous Mysteries Unsolved Mysteries Famous Disappearances* Michael Newton, 2004-01-01

Places for Dead Bodies Gary J. Hausladen, 2010-01-01. From Tony Hillerman's Navajo Southwest to Martin Cruz Smith's Moscow, an exotic vividly described locale is one of the great pleasures of many murder mysteries. Indeed, the sense of place is no less than the compelling character of the detective; it is often what keeps authors writing and readers reading a particular series of mystery novels. This book investigates how police procedural murder mysteries have been used to convey a sense of place. Gary Hausladen delves into the work of more than thirty authors, including Tony Hillerman, Martin Cruz Smith, James Lee Burke, David Lindsey, P. D. James, and many others. Arranging the authors by their region of choice, he discusses police procedurals set in America, the United Kingdom, and Ireland, Europe, Moscow, Asia, and selected locales in other parts of the world, as well as in historical places ranging from the Roman Empire to turn of the century Cairo.

Growing up Wild Bob Henke,2000-05-17 There is a tremendous information gap between scientists working in the outdoor fields and the millions of others who share their interest in natural processes The failure of naturalists to provide information to the public has allowed some amazing myths to develop Far worse however this knowledge gap can bring about actual damage to the environment

through laws and public policy initiatives based on erroneous information *Growing Up Wild* bridges this gap bringing the latest results of scientific research to the public in an irreverent humorous style that would make the book worth reading for entertainment value alone The author who combines careers as a wildlife professional and newspaper columnist provides an eclectic mix of topics from toads to turkeys in a style that while always humorous ranges from gonzo journalism to formal poetry sometimes in the same essay Many of the essays contained in the book began life as one of the authors weekly newspaper columns These were supposed to focus on a single organism and give some interesting facts about it That is they were supposed to be typical nature pieces The questions that came in in response to the original columns seemed to indicate that people were not even reading all the way through So he changed the format to start out with some outrageous tale to pique the interest and make people wonder how on earth this was going to segue to the real topic move on to the main topic then hook back to the anecdote at the end The response was quite overwhelming Since the material in this book has a mix of early and more recent columns the reader can watch this style develop There is something for everyone in this collection of essays Topics range from single celled organisms to whales In addition to recreational reading this book provides excellent supplementary material for students In spite of the humor and light tone each essay provides an in depth look into the lives of our wild neighbors as well as making some pointed commentary on the culture and political processes that affect them
