Exploring Education Alan R. Sadovnik, Peter Cookson, Jr., Susan Semel, Ryan Coughlan, 2017-10-10 This much anticipated fifth edition of Exploring Education offers an alternative to traditional foundations texts by combining a point of view analysis with primary source readings Pre and in service teachers will find a solid introduction to the foundations disciplines history philosophy politics and sociology of education and their application to educational issues including school organization and teaching curriculum and pedagogic practices education and inequality and school reform and improvement This edition features substantive updates including additions to the discussion of neo liberal educational policy recent debates about teacher diversity updated data and research and new selections of historical and contemporary readings At a time when foundations of education are marginalized in many teacher education programs and teacher education reform pushes scripted approaches to curriculum and instruction Exploring Education helps teachers to think critically about the what and why behind the most pressing issues in contemporary education

Knowledge that Counts in a Global Community Léonie J. Rennie, Grady Venville, John Wallace, 2013-03 This book explores the potential contribution of curriculum integration in a context where school curricula segregated by discipline remain the norm despite the fact that most if not all of the world's problems are interdisciplinary

Leading Professional Development in Education Bob Moon, John Butcher, Elizabeth Bird, 2000 This work focuses on the nature of professional learning and the policy context in which educational reform takes

place It also explores the forms of leadership relevant to the differing contexts of professional development *New Directions in Education Policy Implementation* Meredith I. Honig, 2006-07-13 A companion to Allan R Odden's *Education Policy Implementation* also published by SUNY Press this book presents original work by a new generation of scholars contributing to education policy implementation research The contributors define education policy implementation as the product of the interaction among particular policies people and places Their analyses of previous generations of implementation research reveal that contemporary findings not only build directly on lessons learned from the past but also seek to deepen past findings These contemporary researchers also break from the past by seeking a more nuanced contingent and rigorous theory based explication of how implementation unfolds They argue that researchers and practitioners can help improve education policy implementation by not asking simply what works but rather focusing their attention on what works for whom where when and why *Methodological Approaches to STEM Education Research Volume 3* Peta J. White, Russell Tytler, Joseph Paul Ferguson, John Cripps Clark, 2022-09-30 We live in challenging and uncertain times with profound implications for the purpose and nature of education The crises of the Anthropocene with the related climate related challenges biodiversity loss a global pandemic and changes to the world of work driven by science and technology innovation and the ascendancy of data and knowledge pressure us to rethink how we prepare people for such futures This in turn has changed the landscape of educational research perhaps particularly in the areas of mathematics health and environmental education research that are so central to responding to these global pressures and potential solutions We need to think critically about education research design and practice as part of a considered and robust discussion of education research theory and practice that will inform and help shape education systems into the future This volume responds to these challenges casting fresh light on contemporary methodologies fit for reconsidering education into the future Chapters explore post qualitative inquiry with overviews and practices arts based and interdisciplinary methodologies self study and auto ethnography for the Anthropocene co design with teachers researching for system change the ethics of netnography and principles and practices of literature review [Leading Professional Practice in Education](#) Christine Wise, Marion Cartwright, Pete Bradshaw, 2012-09-05 This volume provides an overview of key contemporary themes in educational leadership It focuses on developing professional capacity organisation improvement and the implementation of change looking at theoretical frameworks and concepts recent research studies and case examples of effective practice The book covers leading learning and learner leadership change processes and distributed leadership leading professional development for educational contexts Designed to encourage critical analysis and debate this volume will be a useful resource for postgraduate and professional development courses in educational leadership and for practitioners It is a companion to *Educational Leadership Context Strategy and Collaboration* also published by Sage [Global Developments in Literacy Research for Science Education](#) Kok-Sing Tang, Kristina Danielsson, 2018-01-19 This book highlights recent

developments in literacy research in science teaching and learning from countries such as Australia Brazil China Finland Germany Hong Kong New Zealand Norway Singapore Spain South Africa Sweden Taiwan and the United States It includes multiple topics and perspectives on the role of literacy in enhancing science teaching and learning such as the struggles faced by students in science literacy learning case studies and evaluations of classroom based interventions and the challenges encountered in the science classrooms It offers a critical and comprehensive investigation on numerous emerging themes in the area of literacy and science education including disciplinary literacy scientific literacy classroom discourse multimodality language and representations of science and content and language integrated learning CLIL The diversity of views and research contexts in this volume presents a useful introductory handbook for academics researchers and graduate students working in this specialized niche area With a wealth of instructional ideas and innovations it is also highly relevant for teachers and teacher educators seeking to improve science teaching and learning through the use of literacy

Handbook of Adolescent Literacy Research Leila Christenbury,Randy Bomer,Peter Smagorinsky,2011-06-10 The first comprehensive research handbook of its kind this volume showcases innovative approaches to understanding adolescent literacy learning in a variety of settings Distinguished contributors examine how well adolescents are served by current instructional practices and highlight ways to translate research findings more effectively into sound teaching and policymaking The book explores social and cultural factors in adolescents approach to communication and response to instruction and sections address literacy both in and out of schools including literacy expectations in the contemporary workplace Detailed attention is given to issues of diversity and individual differences among learners Winner Literacy Research Association s Fry Book Award
