Reason And Existenz:

Reason and Existenz Karl Jaspers, 1997 Written shortly after Jaspers's major systematic work and before his analysis of the problem of truth *Reason and Existenz* occupies a primary position in the development of his thought **Reason and Existenz** Francis Begnaud Hildebrand, 1955 Volume 9: Kierkegaard and Existentialism Jon Stewart, 2016-12-05 There can be no doubt that most of the thinkers who are usually associated with the existentialist tradition whatever their actual doctrines were in one way or another influenced by the writings of Kierkegaard This influence is so great that it can be fairly stated that the existentialist movement was largely responsible for the major advance in Kierkegaard's international reception that took place in the twentieth century In Kierkegaard's writings one can find a rich array of concepts such as anxiety despair freedom sin the crowd and sickness that all came to be standard motifs in existentialist literature Sartre played an important role in canonizing Kierkegaard as one of the forerunners of existentialism However recent scholarship has been attentive to his ideological use of Kierkegaard Indeed Sartre seemed to be exploiting Kierkegaard for his own purposes and suspicions of misrepresentation and distortions have led recent commentators to go back and reexamine the complex relation between Kierkegaard and the existentialist thinkers The articles in the present volume feature figures from the French German Spanish and Russian traditions of existentialism They examine the rich and varied use of Kierkegaard by these later thinkers and most importantly they critically analyze his purported role in this famous intellectual movement

Hannah Arendt's Aesthetic Politics Jim Josefson, 2019-05-27 We face a crisis of public reason Our quest for a politics that is free moral and rational has somehow made it hard for us to move to change our positions to visit places and perspectives that are not our own and to embrace reality This book addresses this crisis with a model of public reason based in a new aesthetic reading of Hannah Arendt's political theory It begins by telling the story of Arendt's engagement with the *Augenblicke* of Nietzsche Kierkegaard Jaspers Heidegger Kafka and Benjamin in order to identify her own aesthetic Moment Josefson then explicates this Moment what he calls the freedom of the beautiful as a third face of freedom on par with Arendt's familiar freedoms of action and the life of the mind He shows how this freedom rooted in Jaspers's phenomenology and a non metaphysical reading of Kant serves to redress the world alienation that was a uniting theme across Arendt's works Ultimately this volume aims to challenge orthodox accounts of Arendtian politics presenting Arendt's aesthetic politics as a radically new model of republicanism and as an alternative to political liberal deliberative and agonistic models of public reason **Speaking and Semiology** Richard L. Lanigan, 2013-02-06 No detailed description available for *Speaking and Semiology* Karl Jaspers Ronny Miron, 2012-01-01 This book traces the work of German philosopher Karl Jaspers 1883-1969 from his origins as a young psychiatrist up to his maturity as an existentialist philosopher The critique of Jaspers's thought follows his attempts to grant meaning to the human search for self understanding It reveals the difficulties and frustrations entailed in this search The book reveals to the reader Jaspers's handling of these difficulties through constituting

a philosophical relation toward the Being existing beyond the individual other people the world and transcendence In this book the author conducts an ongoing dialog with existing research into Jaspers s work and proposes her own new reading As well as critiquing the existing interpretations the author uncovers the challenges Jaspers s character has presented the readers Unlike most scholars who generally ignored Jaspers s early writings dealing with psychiatry and psychology this book suggests a philosophical reading of these writings This exposes the unity of the world from which Jaspers created first as a psychiatrist and later as a philosopher This reading shows Jaspers s work as an ambitious attempt to formulate an original perception of the two basic themes that have interested philosophy and human thought throughout the ages Selfhood and Being Reason and Existenz by Karl Jaspers Reinhold Niebuhr, *Speaking and Semiology* ,1991 No detailed description available for *Speaking and Semiology* **Philosophical Sojourns in Aesthetics, Existence, and Education** James M. Magrini,2022-12-14 This collection of seven speculative and critical essays initiates a journey inviting readers to abide for a short time with philosophical themes emerging from aesthetics poetry existentialism and education It opens vistas into the insightful wisdom of Nietzsche Heidegger Jaspers Rilke and Plato s Socrates The book confronts such perennial issues as the practice of philosophy as a way of life the understanding of subjecthood and human transcendence the pursuit of ethical knowledge in ways that inform and direct the choices we make in the company of others and the philosophical quest for unique ways of learning that transcend contemporary practices embracing standardization and adopting an instrumental approach to education This book is novel in that it offers these insights across broad but related fields of study for although essentially a philosophy text it provides scholarly inroads to the academic fields of literary critique classical studies psychology and educational theory The text could be effectively employed as a secondary avenue of study in institutions of higher learning supplementing primary philosophical sources in the curriculum In addition to programs offering advanced degrees the book also serves as a challenging introductory text for students at the undergraduate level demonstrating an interest in and proclivity for philosophy Transversal Rationality and Intercultural Texts Hwa Yol Jung,2011-04-22 Transversality is the keyword that permeates the spirit of these thirteen essays spanning almost half a century from 1965 to 2009 The essays are exploratory and experimental in nature and are meant to be a transversal linkage between phenomenology and East Asian philosophy Transversality is the concept that dispels all ethnocentrism including Eurocentrism In the globalizing world of multiculturalism Eurocentric universalism falls far short of being universal but simply parochial at the expense of the non Western world Transversality is intercultural interspecific interdisciplinary and intersensorial Transversal Rationality and Intercultural Texts means to transform the very way of philosophizing itself by infusing or hybridizing multiple traditions in the history of the world Like no other scholar Jung bridges the gap between Asian and Western cultures By engaging Western philosophers as diverse as Bacon Descartes Heidegger Hegel Merleau Ponty Derrida Glissant Barthes Fenollosa McLuhan and Eastern philosophers such as Wang Yang ming Nishida Kitaro

Nishitani Keiji Watsuji Tetsuro Nhat Hanh and Suzuki Daisetz Teitaro this book marks an unparalleled contribution to comparative philosophy and the study of philosophy itself
