Doing Rebellious Research , 2022-05-09 The ways in which research and scholarship are co produced co performed and proclaimed as particular kinds of knowledges and truths in and beyond the academy is radically changing The capacity to write rebelliously in varying registers and voices tempos and volumes as featured across this book is boundaryless In this edited volume we ask new questions which simultaneously trouble and open up what the product and performance of academic work words and worlds might come to be At the heart of this book we move between departing radically from academic writing to arriving at a new academic endeavor and transaction between reader and text driven by the invitation to open rebellion in academic research and writing This unique volume brings together an extraordinary range of international scholars researchers and artists that include contemporary social scientists critical theorists visual artists poets musicians hip hoppers choreographers activists film makers theatre makers magicians and circus artists from both within and outside the academy in Europe UK India Africa USA Canada Australia and New Zealand They articulate new concepts for thinking differently generate new theories differently and present new methods of writing differently This book provides permission to depart radically in academic writing and creative practice particularly for doctoral and higher degree research students and those who work alongside them as supervisors and advisors and higher research degree educators The claim here is that rebellious departures and performances in academic research and writing are the future of academia This book provides a series of steps toward preparing for that future

Uncovering the Body Ed Levine, 2005 *Uncovering the Body* provides a new perspective on how to experience and think about art and the artistic process It uses the bodily experience as the source and mode of engaging and experiencing work Our older ways of thinking about art imply the dualities of mind and body reason and feeling Author Ed Levine includes chapters on the following subject matter to explain his innovative philosophy Bodily thoughts and the intelligent flesh Art and ornithology artist as migratory bird The artistic process Looking into time Western culture is marked by dualities of mind and body and of body and spirit which have found their way into our thinking and understanding of art and the artistic process Thinking and experiencing through and by means of the body can dissolve these dichotomies and provide an alternative way of engaging and finding meaning in works of art *Uncovering the Body* provides an alternative to the postmodern interpretation of art It offers a point of view that moves beyond the limitations that postmodern thinking imposes on our understanding of art and its methods By reengaging our bodies we can establish a new relationship between art and ourselves

[Sites of Dissent](#) Alissa Starodub, 2021-10-27 Contemporary articulations of dissent to social order and its production of truth cannot be ignored any longer Hamburg during the G20 gathering Washington D C on the day of Trump's inauguration the squares and streets of Paris and Tunis at the end of 2018 Public space is temporarily taken by those who rise against the powers that keep structural oppression and social order in its place Not only riots but collective social centres protest camps and temporary as well as permanent occupations of lands and buildings are other utopian spatial alternatives created by autonomous social movements to prefigure a horizontal social organization This book discusses spatial practices of autonomous social movements the movements who see their everyday experiences and

creations as the revolution they are making together with these movements and in taking the diversity of their articulations into account Sites of Dissent is thus the story of a daring attempt to create research practices for radical transformation which requires a radical transformation of research practices During this attempt methodological rules of scientific research are broken and methodological heresy and wild experimentation with research practices take place Sites of Dissent aims at opening new possibilities of including diverse ways of knowing and speaking into a collective knowledge creation process at overcoming the individualized isolation in which the researcher produces knowledge about the outside world and it aims to create a space for collective learning about spatial practices of autonomous social movements to learn with and from the movements

Cogito and the Unconscious Slavoj Žižek, 1998-04-08 The Cartesian cogito the principle articulated by Descartes that I think therefore I am is often hailed as the precursor of modern science At the same time the cogito's agent the ego is sometimes feared as the agency of manipulative domination responsible for all present woes from patriarchal oppression to ecological catastrophes Without psychoanalyzing philosophy Cogito and the Unconscious explores the vicissitudes of the cogito and shows that psychoanalyses can render visible a constitutive madness within modern philosophy the point at which I think therefore I am becomes obsessional neurosis characterized by If I stop thinking I will cease to exist Noting that for Lacan the Cartesian construct is the same as the Freudian subject of the unconscious the contributors follow Lacan's plea for a psychoanalytic return to the cogito Along the path of this return they examine the ethical attitude that befits modern subjectivity the inherent sexualization of modern subjectivity the impasse in which the Cartesian project becomes involved given the enigmatic status of the human body and the Cartesian subject's confrontation with its modern critics including Althusser Bataille and Dennett In a style that has become familiar to Žižek's readers these essays bring together a strict conceptual analysis and an approach to a wide range of cultural and ideological phenomena from the sadist paradoxes of Kant's moral philosophy to the universe of Ayn Rand's novels from the question Which if any is the sex of the cogito to the defense of the cogito against the onslaught of cognitive sciences Challenging us to reconsider fundamental notions of human consciousness and modern subjectivity this is a book whose very Lacanian orthodoxy makes it irreverently transgressive of predominant theoretical paradigms Cogito and the Unconscious will appeal to readers interested in philosophy psychoanalysis cultural studies and theories of ideology Contributors Miran Božović Mladen Dolar Alain Grosrichard Marc de Kessel Robert Pfaller Renata Salecl Slavoj Žižek Alenka Župancić

Perfecting Training Witness Lee, 1990-06-01 According to Ephesians 4:11-16 we are first told that the gifts were given And He gave some apostles and some prophets and some evangelists and some shepherds and teachers This is the initial step then the result is unto the work of the ministry that is unto the building up of the Body of Christ How could the Body be built up By the growth in life Then out of the growth in life the function will come the operation in measure of each one part to cause the growth of the Body unto the building up of itself in love Thus there is the initial stage and then there is the result Between these two ends is the

perfecting of the saints If there is no perfecting of the saints all the gifts given by the Head become vain Also there will be nothing to cause the growth of the Body in life that functions may come out to build up the Body in love The crucial and central point in this portion of the Word is the perfecting of the saints Throughout the past years the Lord has been leading us in the ministry to perfect the saints for the growth in life so that the functions may come out to build up the Body in love
