Rebirth Of Private Policing:

The Rebirth of Private Policing Les Johnston, 2005-06-22 these are just two of the issues addressed by Les Johnston who argues that policing far from being the exclusive preserve of public personnel is an activity undertaken by a mixture of public private and quasi public agents His book reviews the history of private policing examines developments of current concern and finally considers the implications of these developments both for the sociology of policing and for a more general understanding of public private relations in the late 20th century *Private Policing* Mark Button, 2019-04-24 The second edition of *Private Policing* details the substantial involvement of private agents and organisations involved in policing beyond the public police It develops a taxonomy of policing and explores in depth each of the main categories examining the degree of privateness amongst several other issues The main categories include the public police hybrid policing such as state policing bodies specialised police forces and non governmental organisations voluntary policing and the private security industry This book explores how the public police and many other state bodies have significant degrees of privateness from outright privatisation through to the serving of private interests The book provides a theoretical framework for private policing building upon the growing base of scholarship in this area Fully revised this new edition not only brings the old edition up to date with the substantial scholarship since 2002 but also provides more international context and several new chapters on corporate security management security officers and private investigation There is also a consideration of what the book calls the new private security industry working largely in cyber space Bringing together research from a wide range of projects the author has been involved with along with the growing body of private policing scholarship the book shows the substantial involvement of non public police bodies in policing and highlights a wide range of issues for debate and further research *Private Policing* is ideal reading for students of policing and security courses academics with an interest in private policing and security and practitioners from security and policing [Encyclopedia of Law Enforcement](#) Larry E Sullivan, 2005 Vols 1 and 2 cover U S law enforcement Vol 3 contains articles on individual foreign nations together with topical articles on international law enforcement *Transnational Crime and Policing* James Sheptycki, 2017-07-05 This collection of essays on transnational crime and policing covers a broad range of themes the relationship between global policing and the transnational state system the impact of advanced technologies on policing practice the changing morphology of occupational policing subculture and the transnational practices of police agencies The essays include case studies and are based on empirical fieldwork that began in the early 1990s and continued for over a decade well into the post 9 11 period This collection also provides valuable accounts of the secret social world of transnational police demonstrates that the developmental trajectory of transnational practices was already established prior to the age of Homeland Security and addresses the controversial issue of how transnational policing in all of its complex manifestations might be made politically accountable in the interests of the general global commonwealth *Policing Cities* Randy K Lippert, Kevin

Walby,2013-07-18 *Policing Cities* brings together international scholars from numerous disciplines to examine urban policing securitization and regulation in nine countries and the conceptual issues these practices raise Chapters cover many of the world's major cities including New York Beijing Paris London Berlin Mexico City Johannesburg Rio de Janeiro Boston Melbourne and Toronto as well as other urban areas in Britain United States South Africa Germany Australia and Georgia The collection examines the activities and reforms of the traditional public police but also those of emerging public and private policing agents and spaces that fall outside the public police's purview and which previously have received little attention It explores dramatic changes in public policing arrangements and strategies exclusion of urban homeless people new forms of urban surveillance and legal regulation and securitization and militarization of urban spaces The core argument in the volume is that cities are more than mere background for policing securitization and regulation Policing and the city are intimately intertwined This collection also reveals commonalities in the empirical interests methodological preferences and theoretical concerns of scholars working in these various disciplines and breaks down barriers among them This is the first collection on urban policing regulation and securitization with such a multi disciplinary and international character This collection will have a wide readership among upper level undergraduate and graduate level students in several disciplines and countries and can be used in geography urban studies legal and socio legal studies sociology anthropology political science and criminology courses
