Rebirth Of The Older Child:

The Rebirth of the Older Child Brita Bergland, 1993-01-01 *Bringing Whales Ashore* Jakobina K. Arch, 2018-04-01 Japan today defends its controversial whaling expeditions by invoking tradition but what was the historical reality In examining the techniques and impacts of whaling during the Tokugawa period 1603 1868 Jakobina Arch shows that the organized shore based whaling that first developed during these years bore little resemblance to modern Japanese whaling Drawing on a wide range of sources from whaling ledgers to recipe books and gravestones for fetal whales she traces how the images of whales and by products of commercial whaling were woven into the lives of people throughout Japan Economically Pacific Ocean resources were central in supporting the expanding Tokugawa state In this vivid and nuanced study of how the Japanese people brought whales ashore during the Tokugawa period Arch makes important contributions to both environmental and Japanese history by connecting Japanese whaling to marine environmental history in the Pacific including the devastating impact of American whaling in the nineteenth century **Contextualizing Eschatology in African Cultural and Religious Beliefs**

de Beauvoir I look for myself throughout the centuries and I don't see myself anywhere Helene Cixous As Woolf noted strange spaces of silence separate the solitary female utterances throughout history The brutal vicissitudes of the contemporary reception of feminist thinkers crushed between traditional academia and an anti intellectualism that describes itself as activism are symptoms of the fact that the conditions which produced the strange spaces of silence and made the repetitive generic loneliness from Wollstonecraft to Cixous possible are still operative They have found their way into the present age as reactionary conformity that manages to discredit any notion of feminine specificity or freedom that is not based on seduction which means not based on reproduction and consumption Kristeva The intertextual approach to Kristeva and Woolf brings to light matricide as the silent engine behind the stammering of female temporality Matricide is offered as an entrance to the conceptualization of the cultural ramifications of a language that wavers between hypnotic passion and murder As Joan Scott has demonstrated the oscillations between phantasies of uniqueness and phantasies of fusion are characteristic of women's movements Matricide in Language claims that these fantasies are subtended by imaginary matricide and that they can explain the extreme discursive practices that are characteristic of the debate in and around feminism
