Rebuilding A House Divided A Memoir By The Architect Of Germanys Reunification:

Rebuilding a House Divided Hans-Dietrich Genscher, 1998 Americans may not recognize his name but the actions of Hans Dietrich Genscher Germany's foreign minister from 1974-1989 have had an enormous impact on the world we live in today. In this sweeping memoir Genscher illuminates such seminal events as the destruction of the Berlin Wall and the reunification of Germany, the dismantling of the Eastern Bloc and the creation of the European Union. From the perspective of the ultimate insider, Genscher describes the thawing of the Cold War, including his own behind-the-scenes conversations with Mikhail Gorbachev and other world leaders, the strategies he developed that led to the emotionally charged demolition of the Berlin Wall, and the heated meetings between international leaders as the face of Europe changed. His candid portraits of Reagan, Thatcher, Mitterrand, and Gorbachev, and his eyewitness accounts of what really goes on behind closed doors, show a side of international affairs rarely seen by the American public. A number one bestseller in Germany, *Rebuilding a House Divided* is must reading for anyone interested in politics, diplomacy, and the complex relationship between the United States and Europe.

France and the Reunification of Germany Tilo Schabert, 2021-10-12 With the collapse of the Soviet Union and its Eastern European bloc, the reunification of Germany was a major episode in the history of modern Europe, and one widely held to have been opposed by that country's centuries-old enemy, France. But while it has been previously believed that French President François Mitterrand played a negative role in events leading up to reunification, this book shows that Mitterrand's main concern was not the potential threat of an old nemesis but rather that a reunified Germany be firmly anchored in a unified Europe. Updated with a new introduction and other materials, the book blends primary research and interviews with key actors in France and Germany to take readers behind the scenes of world governments as a new Europe was formed. Tilo Schabert had unprecedented exclusive access to French presidential archives and here focuses on French diplomacy not only to dispel the notion that Mitterrand was reluctant to accept reunification but also to show how successful he was in bringing it about.

The German Problem Transformed Thomas Banchoff, 2010-05-06 Does the new, more powerful Germany pose a threat to its neighbors? Does the new German Problem resemble the old? *The German Problem Transformed* addresses these questions fifty years after the founding of the Federal Republic and ten years after the fall of the Berlin Wall. Many observers have underscored the reemergence of Germany as Europe's central power. After four decades of division, they contend, Germany is once again fully sovereign without the strictures of bipolarity; its leaders are free to define and pursue national interests in East and West. From this perspective, the reunified Germany faces challenges not unlike those of its unified predecessor a century earlier. *The German Problem Transformed* rejects this formulation. Thomas Banchoff acknowledges post-reunification challenges but argues that postwar changes, not prewar analogies, best illuminate them. The book explains the transformation of German foreign policy through a structured analysis of four critical postwar junctures: the cold war of the 1950s, the détente of the 1960s and 1970s, the new cold war of the early 1980s, and the post-cold

war 1990s Each chapter examines the interaction of four factors international structure and institutions foreign policy ideas and domestic politics in driving the direction of German foreign policy at a key turning point This book will be of interest to scholars and students of German history German politics and European international relations as well as policymakers and the interested public Thomas Banchoff is Assistant Professor of Government Georgetown University

The Crisis of Détente in Europe Leopoldo Nuti, 2008-11-11 This edited volume is the first detailed exploration of the last phase of the Cold War taking a critical look at the crisis of détente in Europe in the late 1970s and early 1980s The transition from détente to a new phase of harsh confrontation and severe crises is an interesting indeed crucial phase of the evolution of the international system This book makes use of previously unreleased archival materials moving beyond existing interpretations of this period by challenging the traditional bipolar paradigm that focuses mostly on the role of the superpowers in the transformation of the international system The essays here emphasize the combination and the interplay of a large number of variables political ideological economic and military and explore the topic from a truly international perspective Issues covered include human rights the Euromissiles the CSCE Commission on Security and Cooperation in Europe the Revolution in Military Affairs economic growth and its consequences

Bureaucratic, Societal, and Ethical Transformation of the Former East Germany Jean-Claude Garcia-Zamor, 2004-01-06 This book analyzes the state of the bureaucracy in the eastern part of Germany prior to reunification and discusses changes that occurred after 1990 The contributors review the impact of these changes on the bureaucracy and other sectors of society where a new ethic seems to have emerged guiding practitioners involved in restructuring East German institutions Issues discussed include the performance of the administrative structures the transformation of the Eastern German university system the various affirmative action policies implemented after 1990 compensation to victims of abuses by the former socialist regime changes in public relations policy after 1990 and an ethic guiding the models of restructuring institutions for industrialized and developing countries

A Legal Geography of Yugoslavia's Disintegration Ana S. Trbovich, 2008-02-05 The author explains the violent break up of the former Yugoslavia in the early 1990s in the context of two legal principles sovereignty and the self determination of peoples She also offers an analysis of Kosovo's future status international recognition of secession implications for other conflicts and much more

Euromissiles Susan Colbourn, 2022-11-15 In *Euromissiles* Susan Colbourn tells the story of the height of nuclear crisis and the remarkable waning of the fear that gripped the globe In the Cold War conflict that pitted nuclear superpowers against one another Europe was the principal battleground Washington and Moscow had troops on the ground and missiles in the fields of their respective allies the NATO nations and the states of the Warsaw Pact Euromissiles intermediate range nuclear weapons to be used exclusively in the regional theater of war highlighted how the peoples of Europe were dangerously placed between hammer and anvil That made European leaders uncomfortable and pushed fearful masses into the streets demanding peace in their time At the center of the story is NATO Colbourn highlights the weakness

of the alliance seen by many as the most effective bulwark against Soviet aggression Divided among themselves and uncertain about the depth of US support the member states were riven by the missile issue This strategic crisis was as much as any summit meeting between US president Ronald Reagan and Soviet general secretary Mikhail Gorbachev the hinge on which the Cold War turned Euromissiles is a history of diplomacy and alliances social movements and strategy nuclear weapons and nagging fears and politics To tell that history Colbourn takes a long view of the strategic crisis from the emerging dilemmas of allied defense in the early 1950s through the aftermath of the INF Treaty thirty five years later The result is a dramatic and sweeping tale that changes the way we think about the Cold War and its culmination **The**

Passion of International Leadership Philippe Beauregard, 2022-10-04 How do international leaders emerge and why are they successful in bringing followers to converge on their positions The Passion of International Leadership draws on recent advances in political psychology and state of the art research in International Relations to go beyond current knowledge and simplistic accounts of international leadership It tells surprising and intense stories of policymakers at the head of great powers attempting to cooperate during crisis moments and uses these stories to challenge commonly held beliefs and intuitions about international leadership Beauregard explores international leadership in four cases of transatlantic cooperation when Western policymakers were confronted with foreign conflicts like civil or secessionist wars He provides a fascinating study of the recognition of Slovenia Croatia and Bosnia during the wars in Yugoslavia the peace mediation during the Russia Georgia war in 2008 the adoption of economic sanctions against Russia over the conflict in Ukraine and finally cooperation on striking against the Islamic State in Iraq and Syria The book argues that leaders are driven by their convictions and that they must strike a balance between the intense emotions associated with their beliefs and their need to represent a broader community At the same time as they seek to bring followers on board by persuading them they need to pay attention to emotionally contagious and resonant events that can alter the course of international cooperation

Debating the End of Yugoslavia Florian Bieber, Armina Galijaš, 2016-05-13 Countries rarely disappear off the map In the 20th century only a few countries shared this fate with Yugoslavia The dissolution of Yugoslavia led to the largest war in Europe since 1945 massive human rights violations and over 100 000 victims Debating the End of Yugoslavia is less an attempt to re write the dissolution of Yugoslavia or to provide a different narrative than to take stock and reflect on the scholarship to date New sources and data offer fresh avenues of research avoiding the passion of the moment that often characterized research published during the wars and provide contemporary perspectives on the dissolution The book outlines the state of the debate rather than focusing on controversies alone and maps how different scholarly communities have reflected on the dissolution of the country what arguments remain open in scholarly discourse and highlights new innovative paths to study the period Religion in the Post-Yugoslav Context Branislav Radeljic, Martina Topic, 2015-07-01 Religion in the Post Yugoslav Context brings together a diverse group of scholars each of them specializing in the role of

religion in one of the Yugoslav successor states In addition to providing the readership with the understanding of both the general context religion during the disintegration of the Yugoslav state as well as more specific aspects individual post Yugoslav states this rich collection complements the existing research in the fields of religious studies and political science It represents an important source for scholars and students interested in the post Yugoslav dynamic Moreover this kind of analysis is of major relevance for state and non state actors involved in promotion of religious tolerance
