Rebuilding Labor Organizing And Organizers In The New Union Movement:

Rebuilding Labor Ruth Milkman, Kim Voss, 2004 In *Rebuilding Labor* Ruth Milkman and Kim Voss bring together established researchers and a new generation of labor scholars to assess the current state of labor organizing and its relationship to union revitalization Throughout this collection the focus is on the formidable challenges unions face today and on how they may be overcome publisher description *The Future of Union Organising* G. Gall, 2009-07-07 While union organising has developed over time and in many different environments it has become apparent that a number of key problems have developed Evaluating its efficacy in terms of union strategies tactics styles and resources this title outlines a number of strategies for improving these deficiencies **The Future of Unions and Worker Representation** Anthony Forsyth, 2022-01-13 This book charts the path to revitalisation for trade unions in Australia the USA the UK and Italy It examines the examples of innovation and digital campaigning that are enabling unions to build new forms of worker power and overcome decades of declining membership wrought by neoliberalism globalisation and hostility from employers and the state The study evaluates the responses of unions in each country to falling membership levels since the 1980s It considers the US organising model and its adoption in Australia and the UK comparing this with the strategies of Italian unions which have been more deliberately focused on precarious and migrant workers The increasing reliance of US unions on community alliances as seen in the Fight for 15 and similar campaigns is scrutinised along with new union prototypes like Hospo Voice in Australia the Independent Workers Union of Great Britain and SI Cobas in Italy The book includes an in depth analysis of union responses to the gig economy in the four countries and the emergence of self organised worker collectives to combat this exploitative business model The vital role played by unions in defending the interests of workers during the COVID 19 pandemic is also examined As well as highlighting the most successful union initiatives to meet the challenges of the past 30 years the book assesses the strengths and deficiencies of the legal framework for union representation in the four nations It identifies the labour law reforms needed to rebuild collectivism but argues that more is needed than favourable laws This cross national study provides a rich basis for identifying the combination of reforms strategies and linkages required to ensure that unions can remain relevant for a new generation of digitally active workers **Migration, Precarity, and Global Governance** Carl-Ulrik Schierup, Ronaldo Munck, Branka Licic-Brboric, Anders Neergaard, 2015-02-05 *Migration Precarity Global Governance* explores an understudied but central area within contemporary studies of globalisation and precarisation It relates to the interface between migration global governance and the role of civil society with particular focus on the dilemmas and options of trade unions too often left off the agenda The volume suggests that the trade union movement is undergoing a fundamental debate about revitalisation which could play an important role in terms of the economic political and social integration of migrant workers with implications for the transformation of contemporary societies in general The volume adopts an interdisciplinary and comparative approach emphasizing the complexity of

historically grounded social relations It examines international migration as it is impacted by and impacts on globalization social and political struggles and the recurring crisis of capitalism The first part of the book presents five complementary perspectives on the political economy of migration labour and citizenship Part Two offers analyses of the relationship between labour unions and migrant workers Part Three explores the way trade unions migrant organisations and other civil society groupings interact with an incipient global governance regime relating to migration It also examines issues of state and non state actors accountability in relation to human rights claims as well as the impact of the norm of corporate social responsibility

Trade Unions on YouTube Jenny Jansson,Katrin Uba,2019-08-01 This open access book investigates how trade unions representing different social classes use YouTube videos for renewal purposes Information and communication technology has undoubtedly offered new opportunities for social movements but while research suggests that these new means of communication can be used for trade union revitalization few studies have examined what unions actually do on social media By analysing more than 4500 videos that have been uploaded by Swedish trade unions Jansson and Uba explore how unions use YouTube to address issues such as recruiting new members improving internal democracy promoting political campaigns and constructing new self images The results demonstrate that trade unions representing a range of social classes use different revitalization strategies via YouTube This research will be of use to students and scholars researching European politics and political participation trade unionism and labour movements in the digital age

Rising Up Bryan Evans,Carlo Fanelli,Tom McDowell,2021-02-15 Canada has one of the highest rates of low wage work among advanced industrial economies In a labour market characterized by the ongoing fallout from COVID 19 deepening income inequality job instability and diluted union representation the living wage movement offers a response Rising Up traces the history and international context of living wage movements across Canada In the 1970s the balance of political and economic power began to shift in favour of business as trade unions weakened and governments failed to check corporate power By the 2000s austerity measures had dismantled social spending facilitating the growth of low waged employment Contributors to this astute collection of essays examine union and community based approaches to labour organizing migrant labour and media mis representations among other key topics Offering stimulating debate about living wages and social inequality Rising Up promotes alternatives to a neoliberalized labour market

Uncertain Times E. Paul Durrenberger,2017-08-15 In this first ever collection of labor anthropology from around the world the contributors to *Uncertain Times* assert that traditional labor unions have been co opted by neoliberal policies of corporate capital and have become service organizations rather than drivers of social movements The current structure of labor unions facilitates corporations need for a stable labor force while reducing their power to prevent outsourcing subcontracting and other methods of undercutting worker security and union power Through case studies from Switzerland Israel Argentina Mexico the United States Greece Sweden Turkey Brazil and Spain the authors demonstrate that this process of neutering unions has been uneven across time and space They

also show that the potential exists for renewed union power based on more vociferous and creative collective action. These firsthand accounts from activist anthropologists in the trenches as union members and staff as well as academics analyzing policy law worker organizing and community impact illustrate the many approaches that workers around the world are taking to reclaim their rights in this ever shifting labor landscape. *Uncertain Times* is the first book to use this crucial comparative ethnographic approach for understanding the new rules of the global labor struggle and the power workers have to change those rules. The volume will be of great interest to students and scholars of anthropology sociology of work and labor studies labor union leadership and others interested in developing innovative methods for organizing working people fomenting class consciousness and expanding social movements. Fving Gadi Nissim Darcy Pan Steven Payne Alicia Reigada Julia Soul Manos Spyridakis Christian Zolniski. *Recoding Power* Sidney A. Rothstein, 2022. Digital transformation increasingly drives economic growth in the rich capitalist democracies but orienting production around digital technologies is associated with rising inequality and spreading precarity. In *Recoding Power* Rothstein outlines three tactics that workers can use to build power in the current episode of economic transition where they otherwise lack access to traditional power resources like unions and institutions for social protection. Drawing on four in depth case studies of workers responding to mass layoffs at tech firms in the United States and Germany Rothstein shows how workers can develop creative tactics to recode management's discursive techniques for control transforming them from obstacles into resources for collective action. By centering workers' lived experiences in the workplace *Recoding Power* develops an account of existing digital transformation illustrating how the path of capitalist development is shaped not by economic necessity but by political creativity. Across Canada and the United States immigrant workers face important obstacles at work and in the broader society whether their immigration status is temporary permanent or nonexistent. Hyper precarious workers of all status groups and their allies in unions and worker centers are organizing to improve their conditions. In this book Jorge Frozzini and Alexandra Law two longtime volunteers with a Canadian worker center draw on their own experience in depth interviews and academic work from the fields of law communication studies and social movement theory to produce a tactically focused theoretically informed introduction to

immigrant worker organizing in a neoliberal era Frozzini and Law describe the phenomenon of employment precarity in the context of U S and Canadian labor history explaining how union certification and collective bargaining function under the law Without directing activists toward any single best strategy they cover tactical and ethical questions raised when organizers offer casework as a recruitment and research tool The royalties from this book will go to the Immigrant Workers Centre Montreal
