Recent Social Trends In Russia 1960 1995:

Recent Social Trends in Russia 1960-1995 I. A. Butenko, K. Э Разлогов, 1997 Recent Social Trends in Russia is a collection of statistical and sociological data on trends in Russian society that have never before been assembled in a comprehensive and systematic manner *Leviathan Transformed* Theodore Caplow, 2002-01-16 The authors using these goals as a checklist found that each of the seven states performs well in some areas and badly in others They discovered that all states approached these goals in a style shaped by their own history and in particular by how they have been affected by the troubles of the twentieth century Their investigations offer a new informative way of looking at these nation states and detail the social and political conditions in each state Contributors include Theodore Caplow Salustiano Del Campo Royal Academy of Political and Social Science Madrid Nikolai Genov Bulgaria Academy of Sciences Karl Otto Hondrich Goethe University Simon Langlois Universit de Laval Alberto Martinelli University of Milan and Henri Mendras OFCE Paris

Changing Structures of Inequality Yannick Lemel, Heinz-Herbert Noll, 2002 The international sociological community has engaged recently in a controversial discussion on social inequality There is a vigorous debate on whether the traditional concepts of social class and social stratification are still useful Some researchers argue that social classes still offer a key explanation to social inequalities while others challenge the long standing tradition of class analysis New approaches have been proposed to describe recent social changes in the stratification system vanishing middle class two thirds societies cosmographic inequality and classless society among others **Multicultural Variations** Lance W. Roberts, Barry Ferguson, Mathias Bös, 2013-02-01 Contrary to mid twentieth century predictions ethnic pluralism has increased dramatically in North America and significantly in Europe Neither the post 9 11 emphasis on international border security nor anti immigration and anti multiculturalism movements have affected the fifty year trend of increasing labour mobility and sustained levels of migration The ethnic pluralism accompanying this powerful trend has fueled academic research and public debate Contributors report on and develop a conceptualization of ethnic social incorporation and multiculturalism in Canada the United States Germany Greece Bulgaria and Italy This group of countries displays a remarkable variety of both ethnic diversity and public policy responses to ethnic social incorporation over the past four decades It includes two countries Canada and the United States built upon very large scale immigration over the course of more than a century two countries Greece and Italy which until recently were characterized by large scale emigration but now are grappling with immigration one country Bulgaria that was until the 1990s insulated from extensive migration and faces a demographic slump and one Germany that has experimented with isolating temporary populations but is now addressing the responsibilities of permanent immigration Multicultural Variations includes national reports describing each of the six countries under investigation and is book ended by introductory and concluding chapters that present a new understanding of and synthesis on multiculturalism that is distinct from either enthusiastic support or ideological critiques Contributors

Piano Makers in Russia in the Nineteenth Century Anne Swartz, 2014-08-01 Piano Makers in Russia in the Nineteenth Century is a richly detailed thematic study of the history of the piano in Russian society from its beginnings with the European artisans who settled in St Petersburg in the early decades of the century through the transition to Russian owned family firms The piano played a defining role in the shaping of Russia s musical culture in the nineteenth century as artisans and entrepreneurs provided the foundation for the great tradition of the Russian virtuoso in the performance and the composition of piano music It also helped bring about a transformative change in the material culture as the piano expanded its reach from the court and the nobility to include music enthusiasts from all social classes and Russian families in their homes This historical study brings to light the impact of neglected piano artisans in nineteenth century Russia and presents a fresh view of the social and economic ties between the state and the piano manufacturing artisans in an era largely defined by handcrafting and entrepreneurship It contributes significantly to current

issues surrounding the role of the piano and the entrepreneur artisans in the urban centers of imperial Russia and represents an expansion of what is currently known about the piano builders who established workshops in Russia beginning in the late 1830s and 1840s well before the heyday of the virtuoso in that country Rare documents including letters memoirs gazettes exhibition catalogs music journals and administrative reports form the nucleus of this book and provide fascinating insights about state and private patronage and the class economic issues related to the affordability and prestige of the piano in Russia Issues surrounding the transformation of the music industry in Russia the role of women as patrons and performers the exportation of instruments to the Russian Far East and the complex system of tariffs and trade protection that benefited domestic piano manufacturers provide this book's thematic links Conclusions indicate that while favorable tariff laws and state imposed economic policies benefited the family owned firms in the nineteenth century they remained in effect in the decades after the nationalization of the piano industry in 1917
