Red Sun Rising:

Red Sun Rising Allen Lyle, 2025-07-28 A world shattered by the wars of gods A land rebuilt under the watchful eye of the Church of the Divine Inheritance A throne of bones waiting for a ruler strong enough to seize it Ducaine de Bordeaux was never meant to inherit power A bastard son of a disgraced house he should have been forgotten a shadow in the halls of Burjean But war betrayal and blood have a way of rearranging destiny Through cunning and ruthless ambition Ducaine rises from the ashes of his fallen family forging alliances in the dark and setting his sights on something far greater than a mere county Yet the lords of Yuropa do not bow easily The Church watches with wary eyes The kings play their endless games And in the depths of the ruined world something stirs something older than empires older than men To seize power Ducaine must be willing to risk everything His honor His soul His very humanity Because in the end all that matters is this Will he conquer the world before the world consumes him Or is the rise of Ducaine de Bordeaux destined to end in ruin like the countless rulers before him The sun is rising and it burns red

Quest for Decisive Victory Robert M. Citino, 2002-06-17 Since the earliest days of warfare military operations have followed a predictable formula after a decisive battle an army must pursue the enemy and destroy its organization in order to achieve a victorious campaign But by the mid nineteenth century the emergence of massive armies and advanced weaponry and the concomitant decline in the effectiveness of cavalry had diminished the practicality of pursuit producing campaigns that bogged down short of decisive victory Great battles had become curiously indecisive decisive campaigns virtually impossible At the beginning of the twentieth century the inability to achieve decisive victories in warfare had become the single greatest military problem facing modern armies Robert Citino now tells how European military leaders analyzed and eventually overcame this problem by restoring pursuit to its rightful place in combat and resurrecting the possibility of decisive warfare on the operational level Quest for Decisive Victory chronicles the evolution of European warfare during the first half of the twentieth century A study of war at the operational level it demonstrates the interplay and tension between technology and doctrine in warfare and reveals how problems surrounding mobility including such factors as supply lines command and control and prewar campaign planning forced armies to find new ways of fighting Citino focuses on key campaigns of both major and minor conflicts Minor wars before 1914 Boer Russo Japanese and the Balkan Wars of 1912 13 featured instructive examples of operational maneuver the First World War witnessed the collapse of operations and the rise of attrition warfare the Italo Ethiopian and Spanish Civil Wars held some promise for breaking out of stalemate by incorporating such innovations as air and tank warfare Ultimately it was Germany's opening blitzkrieg of World War II that resurrected the decisive campaign as an operational possibility By grafting new technologies tanks aircraft and radio onto a long tradition of maneuver warfare the Wehrmacht won decisive victories in the first year of the war and in the process transformed modern military doctrine Citino's study is important for shifting the focus from military theory and doctrine to detailed operational analyses of actual campaigns that formed the basis for the

revival of military doctrine Quest for Decisive Victory gives scholars of military history a better grasp of that elusive concept and a more complete understanding of modern warfare **Pilgrims and Sacred Sites in China** Susan Naquin, Chün-Fang Yü, 2023-11-15 Until now China has been scarcely represented in the burgeoning comparative literature on pilgrimage This volume remedies that omission discussing the interaction between pilgrims and sacred sites from the tenth century to the present From the perspectives of literature art history religion politics and anthropology the essays focus on China's most famous pilgrimage mountains as well as lesser known sites Until now China has been scarcely represented in the burgeoning comparative literature on pilgrimage This volume remedies that omission discussing the interaction between pilgrims and sacred sites from the tenth century to the present From the perspective Angeliad Surazeus Astarius, 2017-10-09 Angeliad of Surazeus Revelation of Angela presents 136 377 lines of verse in 1 346 poems lyrics ballads sonnets dramatic monologues eulogies hymns and epigrams written by Surazeus 2001 to 2005 **Five plays** G. Fitzmaurice, 卅三 shi qingyao, 2024-12-16 Fobo is the gentleman here The girl seemed to have great respect for the old man and asked **Been There, Done That** Bonita D. Evans, 2018-03-05 A young woman wants more in life than is being offered as she reaches maturity Always daring outspoken and adventurous she dreams of life beyond her neighborhood and the people she grew up with The late 1950s and early 1960s rarely offered opportunities to women wishing to reach out and grab a piece of life Even something as simple as traveling from one state to another required that they be either chaperoned by a man or herded into a group like cows Funny painful and at times incredible you will find yourself travelling with her as she makes an escape from a boring switchboard operator's job at a neighborhood bank to travel for 24 years around the world Myths, Symbols and Legends of Solar System Bodies Rachel Alexander, 2014-11-04 This book is an amateur astronomer's guide to the mythology and symbolism associated with the celestial bodies in the Solar System and even includes some of the legendary tales of people who had or have a connection with these objects It explores different cultures for example the Greco Roman and the Norse and different times and how stories were used to explain the worlds they saw above them You'd be amazed how much of our world today reflects the myths and stories of these cultures Most amateur astronomers are familiar with the various Solar System objects but they will be only peripherally aware of what ancient cultures thought of these other worlds In fact the mythology of the planets challenges many twenty first century concepts and beliefs There are other books available on astromythology but this one focuses mostly on our own Solar System as opposed to the constellations and deep sky objects Alexander offers a new angle on timeless subjects and is exciting informative and dramatic as well as surprisingly relevant to everyday life Find out for yourself how our modern world is steeped in the bygone worlds of yesteryear *The Use and Abuse of the Spirit in Pentecostalism* Mookgo S. Kgatle, Allan H. Anderson, 2020-11-29 This book is a pneumatological reflection on the use and abuse of the Spirit in light of the abuse of religion within South African Pentecostalism Both emerging and well established scholars of South African Pentecostalism are brought together to reflect

on pneumatology from various approaches which includes among others historical biblical migration commercialisation of religion discernment of spirits and human flourishing From a broader understanding of the function of the Holy Spirit in different streams of Pentecostalism the argument is that this function has changed with the emergence of the new Prophetic churches in South Africa This is a fascinating insight into one of the major emerging worldwide religious movements As such it will be of great interest to academics in Pentecostal Studies Christian Studies Theology and Religious Studies as well as African Studies and the Sociology of Religion
