Red Tail Captured, Red Tail Free Alexander Jefferson, 2017-06-15 Red Tail Captured Red Tail Free is a rare gift detailing the experience of Lt Col Alexander Jefferson who was one of 32 Tuskegee Airmen from the 332nd Fighter Group to be shot down defending a country that considered them to be second class citizens In this vividly detailed deeply personal story Jefferson writes as a genuine American hero about what it meant to be an African American pilot in enemy hands fighting to protect the promise of freedom The book features the sketches drawings and other illustrations Jefferson created during his nine months as a POW and Lewis Carlson s authoritative background on the man his unit and the fight Alexander Jefferson fought so well This revised edition covers the story of Jefferson s continuing outreach and education work as he brings the story of the Tuskegee Airmen to communities and schools across the country and the presentation of the Congressional Gold Medal to the Airmen in 2007 Red Tail Captured Red Tail Free is perhaps the only account of the African American experience in a German prison camp

The Armed Forces and American Social Change Troy Mosley, 2021-10-04 The Armed Forces and American Social Change is a powerful depiction of black Americans struggle for equality told through the lens of uniformed military service Troy Mosley uses superb storytelling personal vignettes and historical examples to show how millions of Americans have lifted themselves from oppression through opportunities gleaned from military service Collectively these efforts exerted positive outward pressure on American society which by and large has resisted social change One unique aspect of combat is that rarely are Americans more equal than when thrust into harm s way It has been said there are no atheists in combat similarly racism sexism and homophobia quickly go by the wayside when under enemy fire Yet in the 19th century and well into the 21st America s military policies regarding the use of manpower could best be described as an awkward attempt to balance the requirement to win the nation s wars while supporting a socio political caste system President Harry Truman signed Executive Order 9981 on July 26 1948 in response to police violence perpetrated against black veterans His actions broke this trend and set the military on the path toward true meritocracy Today retired General Lloyd Austin is the first black American Secretary of Defense in part due to the barriers broken down by those who served before him The armed services fiercely resisted integration gender equality and LGBTQ equality but over time have grown to value America s wellspring of diversity as a strategic and operational advantage Under the Trump administration many military policies supporting transgender inclusion were reversed This reversal thrust the U S military among other institutions into the ideological tug of war that lies at the

heart of present day polarization in American society This ideological divide is the crux of the public discourse surrounding Critical Race Theory America s racist and sexist past and how we contextualize our history going forward for the betterment of the nation As far as America has come we still have work to do for Truman s vision of equality of opportunity to become a reality for all Americans Join this thought provoking narrative that celebrates brave American military pioneers and challenges us all to continue pushing for a better expression of America
