

# REDUCING PREJUDICE AND DISCRIMINATION

- Successful integration requires:
  1. Firm endorsement by those in authority
  2. Absence of competition among members of different racial groups
  3. Equal status of groups
  4. Contact that would permit learning about each other

## **Reducing Prejudice And Discrimination:**

**Reducing Prejudice and Discrimination** Stuart Oskamp, 2013-05-13 Finding ways to reduce prejudice and discrimination is the central issue in attacking racism in our society Yet this book is almost unique among scientific volumes in its focus on that goal This important book combines critical analysis of theories about how to reduce prejudice and discrimination with cutting edge empirical research conducted in real world settings as well as in controlled laboratory situations This book s outstanding contributors focus on a common set of questions about ways to reduce intergroup conflict prejudice and stereotyping They summarize their own research as well as others interpret the conclusions and suggest implications concerning the practical methods that have been or could be used in programs aimed at reducing intergroup conflict The chapters present solidly based critical analyses and research findings in clear reader friendly prose This book evolved from the Sixteenth Annual Claremont Symposium on Applied Social Psychology Each Symposium in the series concentrates on a single area in which social psychological knowledge is being applied to the resolution of a current social problem Ideal for teachers social workers administrators managers and other social practitioners who are concerned about prejudice and discrimination this book will also serve as a valuable foundation of knowledge in courses that examine this topic

*How to reduce discrimination and prejudice in society?* Vlad Popa-Florea, 2016-01-15 Essay from the year 2012 in the subject Psychology Social Psychology grade 1 6 Jacobs University Bremen gGmbH course Stereotypes Prejudice and Discrimination language English abstract Nowadays the world is becoming more globalized interconnected and heterogeneous People can no longer interact just with their own type or race but on the contrary must embrace the diversity that surrounds them However as human beings live in groups and act all together as a group this life style also develops an alternative side of stereotypes prejudice and discrimination Stereotypes are related to the cognitive aspect of perception over people thus defined as beliefs and conceptions on the behavior of different groups This paper will evaluate and discuss methods through which an individual person can reduce prejudice and discrimination in society It will offer theoretical background and empirical evidence along with certain limitations that restrain the reduction methods

**In what ways can an individual person help reduce prejudice and discrimination in society?** Benjamin Niklas Scher, 2013-01-23 Seminar paper from the year 2012 in the subject Sociology Individual Groups Society grade 1 33 Jacobs University Bremen gGmbH language English abstract This paper starts by pointing out why stereotypes are harmful especially for the recipient Some consequences are increased anger depression and lower task performance Continuing by explaining how an individual can reduce discrimination within himself as well as in a group this paper draws from the three main theories of stereotype development namely social cognition perspective social identity perspective and the discursive perspective Drawing also from insights from the economic sociology I conclude that high status power and a position in a structural hole between groups are facilitators for combating discrimination Finally an example setting integrates the different theories and measure

explained **Reducing Prejudice in the Classroom**, 1984 **A Level Psychology Through Diagrams** Grahame Hill, 2001 DT These highly successful revision guides have been brought right up to date for the new A Level specifications introduced in September 2000 DT Oxford Revision Guides are highly effective for both individual revision and classroom summary work The unique visual format makes the key concepts and processes and the links between them easier to memorize DT Students will save valuable revision time by using these notes instead of condensing their own DT In fact many students are choosing to buy their own copies so that they can colour code or highlight them as they might do with their own revision notes Racial Reconciliation and the Healing of a Nation Charles J. Ogletree, Jr., Austin Sarat, 2017-10-24 The work at hand for bridging the racial divide in the United States From Baltimore and Ferguson to Flint and Charleston the dream of a post racial era in America has run up against the continuing reality of racial antagonism Current debates about affirmative action multiculturalism and racial hate speech reveal persistent uncertainty and ambivalence about the place and meaning of race and especially the black white divide in American culture They also suggest that the work of racial reconciliation remains incomplete Racial Reconciliation and the Healing of a Nation seeks to assess where we are in that work examining sources of continuing racial antagonism among blacks and whites It also highlights strategies that promise to promote racial reconciliation in the future Rather than revisit arguments about the importance of integration assimilation and reparations the contributors explore previously unconsidered perspectives on reconciliation between blacks and whites Chapters connect identity politics the rhetoric of race and difference the work of institutions and actors in those institutions and structural inequities in the lives of blacks and whites to our thinking about tolerance and respect Going beyond an assessment of the capacity of law to facilitate racial reconciliation Racial Reconciliation and the Healing of a Nation challenges readers to examine social political cultural and psychological issues that fuel racial antagonism as well as the factors that might facilitate racial reconciliation AS Level Psychology Through Diagrams Grahame Hill, 2001 This text uses material from the first edition of Advanced Psychology Through Diagrams combined with several new pages to meet the requirements of the new AS Level examination specifications **Psychology** Michael W. Eysenck, 2004 In this book Michael Eysenck one of the UK's most eminent and leading psychologists provides a unique approach to Introductory Psychology *The Importance of Target and Audience in Reducing Prejudice and Discrimination Through Intergroup Contact and Extended Contact* Amy Ellard-Gray, 2019 This dissertation compared the efficacy of intergroup contact theory with an alternative prejudice reduction intervention extended contact An experimental manipulation utilizing direct and extended contact conditions was created in an effort to reduce heterosexual Americans sexual prejudice and subtle discrimination against the LGBTQ group Over the course of two studies I tested conditions that could give extended contact an advantage over direct contact I hypothesized that extended contact with a straight self identified ally would make extended contact more effective than direct contact with a gay person Study 1 was a 2 participant gender x 2 target's sexual orientation gay

straight x 2 target s explicit support for LGBTQ issues ally advocate non ally non advocate between subjects experimental design Participants viewed a video in which a male target shared facts about sexual orientation and the harmfulness of prejudice and discrimination Participants completed an online pre test and a post test following the manipulation Study 2 was essentially a replication of Study 1 but an attempt was made to strengthen the manipulation of target s explicit support for LGBTQ issues Results showed that among participants with low previous contact with the LGBTQ group contact with a gay identified target resulted in lower subtle discrimination than extended contact The hypothesis that an ally would make extended contact more effective than direct contact was not supported in either study However Study 1 showed a novel finding that advocacy for LGBTQ issues was associated with higher subtle discrimination among those with low to no contact with the LGBTQ group regardless of sexual orientation of the contact This finding has implications for the application of prejudice reduction interventions in the real world In addition a pre post comparison of prejudice showed that the manipulation itself reduced prejudice over and above target s self disclosed identity suggesting potential for a video format prejudice reduction intervention tool that can be distributed through online channels for a large scale reach
