But over the past seven years they've embraced every moment of this momentous chapter of their lives. Five years of planning the vision the values the practicalities the realities the excitement the highs the lows and the seemingly adventure stopping obstacles led to two wonderful years of living their dream the magical and the scary enjoying life and learning as a family. Over the Top Adrian Flanagan,2018-03-08 Only one person has ever sailed vertically around the world Adrian Flanagan Sailing horizontally is difficult enough crossing thousands of miles of ocean only to get near land at the Capes and battle treacherous currents However hundreds of sailors have still managed it Adrian became obsessed with the idea of sailing vertically around the world as a boy before he even knew whether it was possible Thirty years later he managed it This is his own account of his remarkable adventure It was an epic challenge sailing through the perilous waters

around Cape Horn and across the remote hostile stretch of the Russian Arctic He survived being washed overboard capsizing a close encounter with pirates and also managed to treat not one but two dislocated wrists all of this alone a thousand miles or more from anyone who could help him complete his quest It wasn't all high drama however Adrian experienced moments of awe inspiring beauty being accompanied by a pod of whales and swimming with dolphins This is a timeless and unique story pacily written with a sense of humour but which captures the zeal and determination required to accomplish something nobody else has ever done before
