A Reflection on Sraffa's Revolution in Economic Theory Ajit Sinha,2021-06-02

This book presents a substantial collection of essays from a wide range of well respected scholars addressing several aspects of Piero Sraffa's economics in light of continuing controversies over the interpretation that should be placed on his work. It moves beyond extant scholarship with an added emphasis on the philosophical dimension of Sraffa's seminal work *Production of Commodities by Means of Commodities*. Contributors probe new ways of thinking about the political economy of Sraffa and in doing so alongside the comments to each contribution by other scholars provide a cutting edge debate and discussion on non mainstream economic theory. This book will be of interest to academics and advanced graduate students in economics with additional interest from scholars in philosophy and the methodology of science.

The Economics of A.R.J. Turgot P.D. Groenewegen,2012-12-06 This book can be described as a development of my Masters thesis *The Economics of A R J Turgot* written at the University of Sydney in 1961-62. It has therefore been a long time in the making and needless to say I incurred many an intellectual debt during this period which I would like to acknowledge here. My thanks go first to Professor J R Wilson who supervised my Masters thesis and who read part of this manuscript in draft to the late Professor Jacob Viner whose tremendous knowledge of the history of economics was put at my disposal on several occasions and to Professor R L Meek with whom I discussed this work in conversation and correspondence and who has given assistance in several other ways. I also owe a great debt of gratitude to a large number of librarians for their assistance in unearthing infrequently used material housed in the collections over which they preside. In particular I wish to acknowledge thanks to the librarians of the Fisher Library at the University of Sydney, the Public Library of New South Wales, the Australian National Library, the British Library of Economics and Political Science, the British Museum, the Goldsmiths Library at the University of London, the Kress Collection at the Baker Library at Harvard, the Seligman Collection at the Butler Library at Columbia University and the Bibliotheque nationale.
