Fieldwork in Geography: Reflections, Perspectives and Actions Rod Gerber, Goh Kim Chuan, 2013-03-14 Geographers regard fieldwork as a vital instrument for understanding our world through direct experience for gathering basic data about this world and as a fundamental method for enacting geographical education The range of international geography and educational experts who contributed to this volume has demonstrated that the concept of fieldwork has a considerable history in the field of geography They have demonstrated that the theoretical aspects of fieldwork have been interpreted differently in regions around the world but the importance of fieldwork remains strong globally A fresh look at the pedagogic implications for fieldwork in formal education offers ideas both for promoting it in geographical education and for maintaining its place in the geography curriculum Audience Forward looking geographers and educators now recognise that alternative strategies especially those involving the use of information technology should be developed to reaffirm the centrality of fieldwork in geographical and wider education

Reflections and Perspectives Henry Ford, 2018-11-11 Reflections and Perspectives Powerful Life Lessons is a motivational self help book written to encourage one to grow through the challenges they are confronted with The author uses his background of 36 years in Corporate America and over 30 years of business ownership to address some of the challenges common to those seeking to survive grow and prosper in their career or business The book reveals how

personal relationships can impact one's desire and ability to develop to sustain and to pursue their passion. Citing unforgettable personal examples, the author shares how the words and actions of others can negatively impact the choices we make but how ultimately we can and must be responsible for our own actions. Readers are introduced to real-life examples of how closed doors are sometimes closed for good reason, sometimes as a blessing in disguise. The author shares how his greatest opportunities resulted from what he believed were unwarranted actions against him. He reveals how a job loss became a career gain. The author cautions us against accepting labels, deeming ourselves either inferior to or superior to others. He reminds us that many of the differences which we allow to divide us are differences decided by our Creator and that we are not qualified to second-guess that wisdom which goes beyond our understanding. The importance of having great mentors is revealed along with the importance of not taking their mentors for granted. Examples are shared of how fulfilling your commitments is critical, not just to your success and reputation but also as an appropriate thank you for the time and other resources the mentor has graciously invested in you. The author reminds us that giving back benefits the giver as well as the receiver. This latest book extends the author's belief in the necessity for a strong spiritual foundation as the guiding light through periods of darkness. He believes and conveys to the reader that each of us has a calling that if left unanswered will become a challenge, unmet, a problem unsolved, an opportunity missed, a dream and a legacy unfulfilled, a link missing from the chain of events that were meant to form the history of the world. The book is a powerful but easy-to-read call for the reader to become that positive change they wish to see in the world.

Exploring Betty A. Reardon's Perspective on Peace Education Dale T. Snauwaert, 2019-05-15. This book presents commentaries by a leading international group of peace education scholars and practitioners concerning Reardon's peace education theory and intellectual legacy. The guiding question throughout the book is: How can her foundational work be used to advance the theory and practice of peace education? In an attempt to find answers, the contributing authors explore three general areas of inquiry: 1. Theoretical Foundations of Peace and Human Rights Education; 2. Feminism and the Gender Perspective as Pathways of Transformation Toward Peace and Justice; and 3. Peace Education Pedagogy and Practices. A contemplative commentary by Reardon herself rounds out the coverage.

This book explores key factors associated with consumer behaviour from both a theoretical and practical perspective. It particularly focuses on the consumer in the 21st century: educated and conscious but also impatient, disloyal and capricious. The book is divided into three main parts: the first part discusses the theoretical and legal aspects of consumers' behaviour, analysing the government's role in regulating consumer behaviour and the role of the European Union; the second part then examines organisational strategies such as omni-channel retailing and branding products; and lastly, the third part describes consumer behaviours in the context of individual products and services.

from coffee to energy **Fieldwork in Humanities Education in Singapore** Teddy Y.H. Sim, Hwee Hwang
 Sim, 2021-02-20 This book addresses the topic of humanities education fieldwork using the Singapore context as its primary focus. It explores how the thought processes behind and techniques of various humanities and social sciences subjects can be applied to fieldwork in a variety of school and training settings. In addition, it discusses how humanities students and educators could stand to benefit from utilizing fieldwork techniques and skills used in archaeology and anthropology beyond undergraduates majoring in that discipline. Finally, the adoption of multidisciplinary approaches in fieldwork incorporating history, geography, literature, and social studies demonstrate how these subjects can collaborate together in actual case studies to facilitate participants' learning in the field.
