as Ambisonics or Wave Field Synthesis have in the meantime moved closer together by using increasingly consistent theoretical frameworks Finally the quality of virtual acoustic environments is often considered as a result of all processing stages mentioned above increasing the need for discussions on consistent strategies for evaluation Thus it seemed appropriate to integrate two of the most relevant communities i e to combine the 2nd International Auralization Symposium with the 5th International Symposium on Ambisonics and Spherical Acoustics The Symposia on Ambisonics initiated in 2009 by the Institute of Electronic Music and Acoustics of the University of Music and Performing Arts in Graz were traditionally dedicated to problems of spherical sound field analysis and re synthesis strategies for the exchange of ambisonics encoded audio material and more than other conferences in this area the artistic application of spatial audio systems This publication contains the official conference proceedings It includes 29 manuscripts which have passed a 3 stage peer review with a board of about 70 international reviewers involved in the process Each contribution has already been published individually with a unique DOI on the DepositOnce digital repository of TU Berlin Some conference contributions have been recommended for resubmission to Acta Acustica united with Acustica to possibly appear in a Special Issue on Virtual Acoustics in late 2014 These are not published in this collection Great Directors at Work David Richard Jones, 1986 The subject of this book is theatre directing in four internationally famous instances The four directors Konstantin Stanislavsky Bertolt Brecht Elia Kazan and Peter Brook all were monarchs of the profession in their time Without their work theatre in the twentieth century so often called the century of the director would have a radically different shape and meaning The four men are also among the dozen or so modern directors whose theatrical achievements have become culture phenomena In histories theories hagiographies and polemics these directors are conferred classic stature as are the four plays on which they worked Chekhov s The Seagull Brecht s Mother Courage and Her Children and Williams s A Streetcar Named Desire have long been recognized in the theatre and in the study as masterpieces. They are anthologized guoted taught parodied read and produced constantly and globally The culturally conservative might question the presence of MaratiSade in such august company but Peter Weiss s play stands every chance of figuring in Western repertories classroom study and theatrical histories until well into the twenty first century In their quite different ways these are all classics of that Western drama which is part of our immediate heritage The Saturday Review of Politics, Literature, Science and Art, 1900
