Reflections On Sociology And Theology:

Reflections on Sociology and Theology David Martin, 2007 A New Tract for the Times: Reflections on Politics, Sociology & Religion. Collected and Redacted from Various Sources ... James Hibbert, 1886 The Future of Christianity David Martin, 2011 The Future of Christianity offers a mature assessment of themes preoccupying David Martin over some fifty years and acts as a complement to his earlier volume On Secularization Particular themes of focus include the dialectic of Christianity and secularization the relation of Christianity to multiple enlightenments and modes of modernity the enigmas of East Germany and Eastern Europe and the rise of the transnational religious voluntary association including Pentecostalism as that feeds into vast religious changes in the developing world *Theology and the Social Sciences* Michael Barnes, 2018-05-16 Original essays demonstrate that sociology history anthropology and psychology all leave their mark on theology and open new paths to understanding and that theology in turn provides significant questions and perspectives for the social sciences By providing archeological data sociological theory demographics and economic data psychological insights and new methods of historical interpretation the social sciences can open the way for a more sophisticated understanding of the social nature of human existence Theology challenges the social sciences through moral and transcendental questions as well as informs the social sciences through its larger and deeper perspectives The symbiotic nature of this relationship is described in the lead off essays by John Coleman and Gregory Baum The rich conversation between theologians and sociologists that follows moves from Von Balthasar's use of the social sciences and Rahner's approach to ecumenism to the roles of psychology and neuropsychology in understanding religious events **Society Shaped by Theology** Robin Gill, 2017-05-15 Over the last thirty years a number of theologians have been using aspects of sociology alongside the more traditional resources of philosophy In turn sociologists with an interest in theology have also contributed to an interaction between theology and sociology The time is right to revisit the dialogue between theologians and sociologists In his new trilogy on Sociological Theology Robin Gill makes a renewed contribution to the mapping of three abiding ways of relating theology and sociology with the three volumes covering Theology in a Social Context Theology Shaped by Society Society Shaped by Theology Society Shaped by Theology explores the possibility that theological concepts may sometimes still be influential in the modern world It follows in the tradition of Max Weber arguing that theological virtues and debates can at times be transposed wittingly or unwittingly into society at large Robin Gill examines the unusual instance of the public debate about Honest to God in the 1960s but then turns to the current debate about faith and social capital adding fresh and unexpected evidence Finally Gill argues that bioethics in the public domain especially on global issues such as AIDS can be enriched and deepened by a judicious use of theological virtues Theology in a Social Context Professor Robin Gill, 2013-06-28 Over the last 30 years a number of theologians have been using aspects of sociology alongside the more traditional resources of philosophy In turn sociologists with an interest in theology have also contributed

to an interaction between theology and sociology The time is right to revisit the dialogue between theologians and sociologists In his new trilogy on Sociological Theology Robin Gill makes a renewed contribution to the mapping of three abiding ways of relating theology and sociology with the three volumes covering Theology in a Social Context Theology Shaped by Society Society Shaped by Theology Theology in a Social Context argues that a sociological perspective properly understood can make an important contribution to theology Part I looks carefully at various objections raised by both theologians and sociologists maintaining instead that a proper understanding of social context is a prerequisite for effective theology Part II suggests that a sociological perspective offers crucial insights into resurgent forms of fundamentalism Part III offers a fresh account of social context in the modern world once thought by sociologists and theologians alike to consist simply of increasing secularization

Theological Reflections Elaine Graham, 2013-01-08 Following the same topics as the Methods volume this reader is aimed at postgraduates and academics interested in the expanding volume of work and research surrounding theological reflection Brought together in this second volume are materials relating to the same topics and dealt with by the same divisions descriptions and features The identified models being The Living Human Document Constructive Narrative Theology Canonical Narrative Theology Corporate Theological Reflection The Correlative Method Performative or Praxis Theological Reflection and Theology in the Vernacular or local theologies Volume one described and identified the various models whilst this new second volume fleshes out these descriptions by allowing the reader access to a variety of sources and examples of writings within these models

What Is and What Ought to Be Michael G. Lawler, 2005-04-05 Michael Lawler sets out a new approach for theology which must he says be historical empirical and in interdisciplinary collaboration with the social sciences He explores the relationship between practical theology which is concerned with the church as it is and as it ought to be and sociology using as example two Catholic moral doctrines artificial contraception and divorce and remarriage without prior annulment In addition to being a useful primer on the relationship between theology and sociology both theoretical and empirical the book provides a wonderfully clear description of the sea changes that have occurred in Roman Catholic theology worldwide over the past 70 or so years

Theology and Society in Three Cities Mark D Chapman, 2014-10-30 Oxford Berlin and Chicago were extraordinarily dynamic centres of theology during the nineteenth and early twentieth centuries However significant differences in the political climate and culture of each location bred strikingly divergent theological approaches in the universities of each city Mark Chapman offers a highly original exploration of the subjection of their theologies to the changes and developments of educational policy and national and international politics shedding light upon the constraints that such external factors have imposed upon the evolution of the discipline Chapman highlights the efforts of theologians and churchmen to relate the true core of Christianity a lived religion free of shibboleths to their rapidly changing world The opinions of conservative and liberal theologians are skilfully balanced to reveal the problems of critical history of political authority of increasing global awareness and of the need for

social amelioration which profoundly shaped the ways in which theology was conceived during the period New ground has been broken in this inter disciplinary study of the social political and ecclesiastical contexts of Western theology This book will be invaluable to any reader interested in the use of theology as part of the wider quest for social integration and meaning in an increasingly fragmented society **Restoring the Image** Martyn Percy,Andrew Walker,David Martin,2001-03-01

Theological Reflections at the Boundaries Paul O. Ingram, 2011-11-04 The interdependence of boundary questions and the experience of cognitive dissonance reveal that knowledge in all fields of inquiry is always incomplete and tentative The issues are particularly acute for Christian theological reflection Ingram illustrates the importance of boundary questions and cognitive dissonance as a means of creatively transforming contemporary Christian theological reflection through dialogue with the natural sciences and the world s religions particularly Buddhism filtered through the lenses of Whiteheadian process philosophy
