The Diamond Heart Julianne McLean, 2023-04-15 Two towering figures thread their way through this book St Teresa of Avila the sixteenth century Spanish Carmelite saint writer and reformer and C G Jung the founder of modern depth psychology Through sharing fifteen key papers chapters and talks written over nearly twenty five years the author draws on their writings to focus on and explore the interface and relationship between the Christian mystical tradition

and Jungian depth psychology Jung saw the human psyche as by nature religious and made this insight a principal focus of his explorations In this regard the book aims to explore an essentially depth approach to spirituality and numinosity relevant for today's largely post religious situation Jungian depth psychology with all its own richness can serve as an essential psychological foundation for and bridge to the Christian mystical tradition Over the past 1500 years the Christian tradition of theologia mystica or mystical theology has flourished in particular communities and individuals with great transformative beauty vitality and strength like a mysterious hidden river of Love overflowing into society such as in sixteenth century Spain Key to understanding the transmission of this tradition down the centuries has been the sixth century writings known as the Dionysian Corpus written by Pseudo Dionysius the Areopagite These writings have evolved over more than 1000 years of interpretation and translation being closely identified with the tradition of theologia mystica The author looks forward with enthusiasm hope and optimism to renewed creative and invigorated approaches to understanding the nature of our inner life that characterize the essential writings of St Teresa of Avila and C G Jung St Teresa of Avila's writings assure us our life journey can be graced by divine presence describing various stages of transformation of the soul in God's Love in her classic book on prayer the Interior Castle Living symbols were a major preoccupation in the life and writings of C G Jung where he explored the psychological foundation of religion particularly the Christian tradition what he termed the path of individuation The author believes under different guises we are in the midst of another flowering of theologia mystica in our own secular time The unprecedented spiritual longing and emergency of our own times is fuelling a strong need for the depth psychological tradition of Jungian psychology and the ancient tradition of theologia mystica to become more widely known understood practiced and lived There is a wider evolutionary shift happening in our times in the diamond heart of individuals groups nations and the global community Something new and unprecedented is being born in our world today we are not only in a new time but a new era

The Object of My Affection Is in My Reflection Rokelle Lerner, 2010-01-01 In her latest book relationship expert Rokelle Lerner tackles the innerworkings of narcissism and offers compassionate and realistic advice for surviving a relationship with those afflicted with this personality disorder A Narcissist can make life exhilaratingly exciting one minute and sheer hell the next A narcissist has no qualms about taking another's money love admiration body or soul to satisfy their unquenchable hunger They are not inherently evil but unfortunately their wounds compel them to act in ways that are sometimes unconscionable damaging and ultimately tragic Whether a mother in law friend coworker or boss sometimes it's impossible to avoid narcissists so instead of being miserable or taken advantage of Rokelle Lerner shares her insights on the dynamics behind this personality disorder to give readers the tools to cope with narcissists including Learning to see narcissists as they see themselves Creating defense factors to ward them off Maintaining a balanced relationship based on mutual love not one sided narcissism

Postcolonial Images of Spiritual Care Emmanuel Y. Lartey, Hellena Moon, 2020-09-23 This anthology is about caring for all persons as a part of the revolutionary struggle against colonialism in

its many forms In recognition of the varied ways in which different forms of oppression injustice and violence in the world today are traceable to the legacy and continuing effects of colonialism various authors have contributed to the volume from diverse backgrounds including differing ethnic identities religious and cultural traditions gender and sexual orientations as well as communal and personal realities As a postcolonial critique of spiritual care it highlights the plurality of voices and concerns that have been overlooked or obscured because of the politics of race religion sexuality nationalism and other structures of power that have shaped what discursive spiritual care entails today *Postcolonial Images of Spiritual Care* presents voices of practical and pastoral theologians academics spiritual care providers religious leaders students and activists working to provide greater intercultural spiritual care and awareness in the areas of healthcare community work and education The volume as such expands the discourse of spiritual care and participates in the ongoing paradigm shifts in the field of pastoral and practical theology *Psychology, Religion, and Spirituality* James M. Nelson, 2009-02-17 Over a century ago psychologists who were fascinated with religion began to study and write about it Theologians and religious practitioners have responded to this literature producing a fascinating dialogue that deals with our fundamental understandings about the human person and our place in the world This book provides an introduction to the important conversations that have developed out of these interchanges The dialogue between psychology and religion is difficult to study for a number of reasons First it requires knowledge of both psychology and religion People with a background in psychology often lack a solid understanding of the religious traditions they wish to study and theologians may not be up to date on the latest developments in psychology Second it requires conceptual tools to organize the material and understand the basic problems involved in any attempt to connect the science of psychology with religion These concepts can be found in many places for instance in the writings of philosophers of science but they are complex and often hard to follow for those without a proper theological and philosophical background Finally authors who write on the topic come to the study of psychology and religion from a variety of academic and personal backgrounds This makes for wonderful diversity in conversations but it makes understanding and mastery of the material quite difficult *Mystics Quarterly*, 1990 **Buenos Aires 2022 - Analytical Psychology Opening to the Changing World: Contemporary Perspectives on Clinical, Scientific, Social, Cultural and Environmental Issues** IAAP, 2023-08-03 The XXII International Congress for Analytical Psychology was held in Buenos Aires Argentina and for the first time in South America It was also the first such congress delivered in hybrid form bringing together IAAP members from all over the globe in person and on screens Guests interested in Jungian thinking from various other academic fields were invited and joined in the conversations The theme of Opening to the Changing World was explored as we come out of a pandemic and face the imperative of fast changes to our ways of working and relating to people living beings and the planet we inhabit The Congress offered again ways of exploring themes via a rich programme of pre congress workshops masterclasses plenary and breakout presentations and posters The

Proceedings are published as two volumes a printed edition of the plenary presentations and an e book with the complete material presented at the Congress To professionals as well as the general public this collection of papers offers a cross section and inspiring insight into contemporary Jungian thinking spanning from classical theories to the latest scientific research From the Contents Soul myth and cosmovision in a changing world Essentials of Analytical Psychology and the descendent path by Margarita Ovalle Vergara Devouring and asphyxia by Liliana Wahba Walter Boechat Some questions raised by the practice of tele analysis by Francois Martin Vallas COVID 19 Virtual engagement and the psychoid imagination by Joe Cambray Working online during the contemporary Covid 19 pandemic by John Merchant The syzygy reformulation and new perspectives Dreams anima animus androgynous and gender by Mario Saiz et al Enforced disappearances and torture today A view from Analytical Psychology by Maria Giovanna Bianchi Monica Luci Dreaming for the world A Jungian study of dreams during the COVID 19 pandemic by Ronnie Landau Roger Brooke et al The archetype of calamity Reflections at a time of contagion by Mei Fun Kuang Ying Li Jun Xu Collective trauma implicit memories the body and active imagination in Jungian analysis by Karin Fleischer Intimations of immortality by Robin McCoy Brook Jon Mills
