Reforming Juvenile Corrections Offenders Alternatives And Strategies:

Reforming Corrections for Juvenile Offenders Yitzhak Bakal, Howard W. Polsky, 1979 **Reforming Juvenile Justice** Josine Junger-Tas, Frieder Dunkel, 2009-05-29 Reforming Juvenile Justice deals with fundamental and at times controversial issues in juvenile justice that are universal and go beyond the individual juvenile justice systems of various countries For example What age groups can be transferred to the adult criminal justice system and for what crimes What can be said about the mental and moral development of juveniles in that age group Do we know anything about the effects in terms of recidivism and reconviction by juveniles who have been penalized in the adult system These are the kind of questions that this book written by a group of experts on specific sub topics in juvenile justice tries to answer The book concludes with a number of recommendations for improvements in juvenile justice **Reforming the Juvenile Justice System to Improve Children's Lives and Public Safety** United States. Congress. House. Committee on Education and Labor, 2010 **Reforming the Juvenile Justice System to Improve Children's Lives and Public Safety** George Miller, 2010-11 Hearing on the reauthorization of the Juvenile Justice and Delinquency Prevention Act which was first written in 1974 with the goal of supporting states actions to prevent youth crime and to provide core protections for children The law recognized that clear biological differences between teenagers and adults meant that youth should not be treated in the same manner as adults Witnesses Michael Belton Ramsey County MN Dep Dir of Juvenile Corrections Scott Burns Exec Dir National DA s Assoc A Hasan Davis Dep Commissioner for Operations Kentucky Dept of Juvenile Justice Tracy McClard Parent John Solberg Exec Dir Rawhide Boys Ranch New London WI Steven Teske Judge Clayton County Juvenile Court GA Illus **SNI Documents 1979** ,1980 **Reforming Juvenile Justice** National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Law and Justice, Committee on Assessing Juvenile Justice Reform, 2013-06-22 Adolescence is a distinct yet transient period of development between childhood and adulthood characterized by increased experimentation and risk taking a tendency to discount long term consequences and heightened sensitivity to peers and other social influences A key function of adolescence is developing an integrated sense of self including individualization separation from parents and personal identity Experimentation and novelty seeking behavior such as alcohol and drug use unsafe sex and reckless driving are thought to serve a number of adaptive functions despite their risks Research indicates that for most youth the period of risky experimentation does not extend beyond adolescence ceasing as identity becomes settled with maturity Much adolescent involvement in criminal activity is part of the normal developmental process of identity formation and most adolescents will mature out of these tendencies Evidence of significant changes in brain structure and function during adolescence strongly suggests that these cognitive tendencies characteristic of adolescents are associated with biological immaturity of the brain and with an imbalance among developing brain systems This imbalance model implies dual systems one involved in cognitive and behavioral control and one involved in socio

emotional processes Accordingly adolescents lack mature capacity for self regulations because the brain system that influences pleasure seeking and emotional reactivity develops more rapidly than the brain system that supports self control This knowledge of adolescent development has underscored important differences between adults and adolescents with direct bearing on the design and operation of the justice system raising doubts about the core assumptions driving the criminalization of juvenile justice policy in the late decades of the 20th century It was in this context that the Office of Juvenile Justice and Delinquency Prevention OJJDP asked the National Research Council to convene a committee to conduct a study of juvenile justice reform The goal of Reforming Juvenile Justice A Developmental Approach was to review recent advances in behavioral and neuroscience research and draw out the implications of this knowledge for juvenile justice reform to assess the new generation of reform activities occurring in the United States and to assess the performance of OJJDP in carrying out its statutory mission as well as its potential role in supporting scientifically based reform efforts *SNI*

National Criminal Justice Reference Service (U.S.),1979 **Residential and Inpatient Treatment of Children and Adolescents** Stewart Gabel,Robert D. Lyman,S. Prentice-Dunn,2013-06-29 Residential and inpatient treatment of children and adolescents is a field that is still in the process of defining itself and of demonstrating its effectiveness Because of the continuous nature of the field s development it is especially important that a broad range of its theoretical orientations and therapeutic techniques be considered and critically appraised Residential and inpatient treatment is unique in its potential for both positive and negative outcomes No other interventions can bring about the major changes in all aspects of a child s environment that inpatient hospitalization or residential treatment can These changes may result in rapid and significant improvements in a child s condition or they may conceivably lead to additional maladaptive behavioral patterns or inappropriate emotional and cognitive responses Therefore the obligation to consider the entire range of treatment alternatives and to empirically determine the effectiveness of specific interventions is particularly great Residential and inpatient treatment is also an expensive and limited resource and our wise utilization of it should be guided by a comprehensive understanding of its benefits and limitations **New England Journal on Prison Law** ,1979 Handbook of Issues in Criminal Justice Reform in the United States Elizabeth Jeglic,Cynthia Calkins,2021-12-04 This handbook provides a holistic and comprehensive examination of issues related to criminal justice reform in the United States from a multidisciplinary perspective Divided into five key domains of reform in the criminal justice system it analyzes Policing Policy and sentencing Reentry Treatment Alternatives to incarceration Each section provides a history and overview of the domain within the criminal justice system followed by chapters discussing issues integral to reform The volume emphasizes decreasing incarceration and minimizing racial ethnic and economic inequalities Each section ends with tangible recommendations based on evidence based approaches for reform Of interest to researchers scholars activists and policy makers this unique volume offers a pathway for the future of criminal justice reform in the United States *Commerce, Justice, Science, and*
