Refugees Four Political Case Studies:

Escape from Violence Aristide R. Zolberg, Astri Suhrke, Sergio Aguayo, 1989 A crisis in the making Refugees Milton US-Pakistan Relationship A.Z. Hilali, 2017-07-05 Hilali provides an excellent study into the US Pakistan partnership under the Reagan administration The book explores the causes of Pakistan's involvement in the Afghanistan war and the United States support to prevent Soviet adventurism It shows that Pakistan was the principal channel through which assistance was provided to Afghan freedom fighters it also provided access to its military bases to use against the Soviet Union The study looks at the consequences of the war on Pakistan and explains how it became enmeshed within its domestic politics Furthermore it evaluates the role of Pakistan as a key partner in the global coalition against terrorism and discusses how General Pervez Musharraf brought about Pakistan's development towards a progressive moderate and democratic society Ideally suited to courses on foreign policy Refugee Manipulation Stephen John Stedman, Dr. Fred Tanner, 2004-05-13 Since World War II refugee organizations have faced a recurrent challenge the manipulation of refugees by warring parties to further their own aims Some armies in civil wars facing military defeat use refugees as assets to establish the international legitimacy of their cause treat refugee camps as sanctuaries and recruitment pools and limit access to refugees to ensure that they will not repatriate Focusing on the geopolitical security environment surrounding militarized camps and the response of humanitarian agencies the contributors to this volume examine the ways armed groups manipulate refugees and how and why international actors assist their manipulation. They then offer suggestions for reducing the ability of such groups to use the suffering of refugees to their own advantage The contributors examine three cases Cambodian refugees along the Thai border in the 1970s and 1980s Afghan refugees in Pakistan in the 1980s and 1990s and Rwandan refugees in Eastern Zaire from 1994 96 They argue that refugee manipulation occurs because warring parties gain resources in their fight for power and other actors often the host government and regional and major powers encourage and support it Manipulation is allowed to occur because the international refugee regime and major states have not identified a consistent approach to stopping it In the post Cold War era the United Nations and its members have chosen to treat the issue as a humanitarian problem instead of a security problem As the contributors make clear however manipulation of refugees has important ramifications for international security turning some civil wars into larger protracted regional wars They argue that the geopolitics of refugee manipulation leads to sanguine conclusions about stopping it Solutions must change the moral political and strategic calculations of states that are implicated in the manipulation As long as the problem Governance, Development and Conflict Manas Chatterji, Darvesh Gopal, Savita is not deemed a security threat Singh, 2011-08-17 A considerable amount of work has been conducted in the field of peace studies conflict management peace science in economics sociology anthropology and management This title presents research with an emphasis on theoretical and mathematical constructs in the area of peace economics peace science Third World Conflicts and

representatives of resettlement organizations and government officials including Jhuma N Acharya Bimala Bastola Khada Bhandari Kiri Hata Govin Magar Madhu Neupane Natacha Nikokeza Angela K Plummer Lance Rasbridge Chris Sunderlin David Thatcher and John Tluang **Refugees in International Politics** Leon Gordenker, 2023-02-01 Originally published in 1987 Refugees in International Politics explores the nature of forced migration It sets out systematically the factors that set refugees in motion and explains how and why a flexible network of organizations copes with the inescapable results of their presence It suggests measures to reduce both the human suffering involved in forced migration and the disturbing effects of international relations International Political Theory and the Refugee Problem Natasha Saunders, 2017-11-22 The refugee problem is a term that it has become almost impossible to escape Although used by a wide range of actors involved in work related to forced migration these actors do not often explain what exactly the problem is that they are working to solve leading to an unfortunate conflation of two quite different problems the problems that refugees face and the problems that refugees pose Beginning from the simple yet too often overlooked observation that how one conceives of solving a problem is inseparable from what one understands that problem to be Saunders study explores the questions raised about how to address the refugee problem if we recognise that there may not be just one problem and that not all actors involved with the refugee regime conceive of their work as addressing the same problem Utilising the work of Michel Foucault the book first charts how different problems lend themselves to particular kinds of solutions arguing that the international refugee regime is best understood as developed to solve the refugee as problem rather than refugees problems Turning to the work of Hannah Arendt the book then reframes the refugee problem from the perspective of the refugee rather than the state and investigates the extent to which doing so can open up creative space for rethinking the more traditional solutions to the refugee as problem Cases of refugee protest in Europe and the burgeoning Sanctuary Movement in the UK are examined as two sub state and popular movements which could constitute such creative solutions to a reframed problem The consequences of the refugee label and of the discourses of humanitarianism and emergency is a topic of critical concern and as such the book will form important reading for a scholars and students of international political theory and forced migration studies The Politics of Refugee Policy in the Global South Ola G. El-Taliawi, 2024-06-15 Mass refugee movements represent a complex policy problem to host governments as they challenge existing socio economic and political structures While scholarship on refugee migration tends to centre on the Global North most refugees actually reside in the Global South where the capacity to provide assistance is limited Shifting the focus from sensationalist rhetoric about mass migration to the North The Politics of Refugee Policy in the Global South provides a comparative analysis of Lebanon's and Jordan's responses to the Syrian refugee movement one of the largest displacements in modern history Through extensive interviews and process tracing Ola El Taliawi uncovers the complex realities of refugee hosting and the hard choices governments make in light of this challenge Building on the concept of complexity El Taliawi employs a unique

methodology and analytical approach painting a nuanced picture of asylum provision and identifying a spectrum of refugee hosting models More than ever we need a better understanding of the unique politics of refugee policymaking in the Global South This incisive book offers key insights for effective governance and reform of the global refugee regime
