Scandinavian Pietists Mark A. Granquist, 2015 Selected writings of the Pietist movement as it existed in Denmark, Sweden, Norway, and Finland.

A Documentary History of Lutheranism, Volumes 1 and 2 Mark A. Granquist, Eric Lund, 2017-11-10 This unique collection of excerpts from Lutheran historical documents, many translated here for the first time, presents readers with a full picture of how the Lutheran movement developed in its thought and practice. Covering not only theology but also church life, popular piety, and influential historical events, the primary documents include theological treatises, confessional statements, liturgical texts, devotional writings, hymns, letters, and diaries; satirical polemics, political documents, woodcuts, and pamphlet literature. This first volume covers the chronological period from Luther's first calls for reform to the development of Lutheran Orthodoxy and Pietism during the seventeenth century. The judiciously selected and carefully translated texts, as well as the contextualizing information provided in each chapter's introductory essay, acquaint readers with the turbulence and fervor of this revolutionary Christian movement, its struggles for survival and consolidation, and its further evolution up to the dawn of the Enlightenment.

The Holy Word for Morning Revival - Crystallization-study of Joshua, Judges, Ruth, Volume 2 Witness Lee, 2021-07-12 This book is intended as an aid to believers in developing a daily time of morning revival with the Lord in His word. At the same time, it provides a limited review of the semiannual training held July 5-10, 2021, on crystallization studies of Joshua, Judges, and Ruth. Through intimate contact with the Lord in His word, the believers can be constituted with life and truth and thereby equipped to prophesy in the meetings of the church unto the building up of the Body of Christ.

The Holy Spirit and the Renewal of All Things T. David Beck, 2007-04-15 This volume explores the shape pneumatology takes when we develop the theology of the Holy Spirit within an eschatological framework that has a universal scope and an unlimited history. When we do so, we find that pneumatology deriving from questions about what the Spirit does for us needs to give way to pneumatology that derives from questions about how the Spirit can draw us into the saving history of the triune God.

Timescapes of Modernity Barbara Adam, 2005-08-18 *Timescapes of Modernity* explores the relationship between time and environmental and socio-cultural concerns. Using examples such as the BSE crisis, the Sea Empress oil pollution, and the Chernobyl radiation, Barbara Adam argues that environmental hazards are inescapably tied to the successes of the industrial way of life. Global markets and economic growth, large-scale production of food, the speed of transport and communication, the 24-hour society, and even democratic politics are among the invisible hazards we face. With this unique timescape perspective, the author dislodges

assumptions about environmental change enables a rethinking of environmental problems and provides the potential for new strategies to deal with environmental hazards

People Trees David L. Haberman, 2013-04-25 This is a book about religious conceptions of trees within the cultural world of tree worship at the tree shrines of northern India Sacred trees have been worshipped for millennia in India and today tree worship continues there among all segments of society In the past tree worship was regarded by many Western anthropologists and scholars of religion as a prime example of childish animism or decadent popular religion More recently this aspect of world religious cultures is almost completely ignored in the theoretical concerns of the day David Haberman hopes to demonstrate that by seriously investigating the world of Indian tree worship we can learn much about not only this prominent feature of the landscape of South Asian religion but also something about the cultural construction of nature as well as religion overall The title *People Trees* relates to the content of this book in at least six ways First although other sacred trees are examined the pipal arguably the most sacred tree in India receives the greatest attention in this study The Hindi word pipal is pronounced similarly to the English word people Second the personhood of trees is a commonly accepted notion in India Haberman was often told This tree is a person just like you and me Third this is not a study of isolated trees in some remote wilderness area but rather a study of trees in densely populated urban environments This is a study of trees who live with people and people who live with trees Fourth the trees examined in this book have been planted and nurtured by people for many centuries They seem to have benefited from human cultivation and flourished in environments managed by humans Fifth the book involves an examination of the human experience of trees of the relationship between people and trees Haberman is interested in people's sense of trees And finally the trees located in the neighborhood tree shrines of northern India are not controlled by a professional or elite class of priests Common people have direct access to them and are free to worship them in their own way They are part of the people's religion Haberman hopes that this book will help readers expand their sense of the possible relationships that exist between humans and trees By broadening our understanding of this relationship he says we may begin to think differently of the value of trees and the impact of deforestation and other human threats to trees

Protestant Systematic Theology Wilson Varkey, 2011-08-01 This volume is a meticulously researched text on pneumatology which puts the major pneumatological issues together without confining to the traditional way of dealing with the doctrine of the Holy Spirit Although pneumatology has been a neglected field in theological discussions of the past there is a renewal of interest among theologians on pneumatology today This renewal of interest has led to the formation of this work on the role of the Holy Spirit in the Protestant Systematic Theology Through highlighting the role and significance of the Holy Spirit in the whole divine action this volume contends that pneumatology is not a dull theological locus but rather an essential theological disposition relevant for today The detailed arguments found within challenge and inspire the contemporary pneumatological discussions as it relates to all the facets of theological reflection and action **The Life of Christ: book 1.**
