## Literature, Neurology, and Neuroscience: Neurological and Psychiatric Disorders, 2013-12-11

This well established international series examines major areas of basic and clinical research within neuroscience as well as emerging and promising subfields This volume on the neurosciences neurology and literature vividly shows how science and the humanities can come together and have come together in the past Its sections provide a new broad look at these interactions which have received surprisingly little attention in the past Experts in the field cover literature as a window to neurological and scientific zeitgeists theories of brain and mind in literature famous authors

and their suspected neurological disorders and how neurological disorders and treatments have been described in literature. In addition a myriad of other topics are covered including some on famous authors whose important connections to the neurosciences have been overlooked e.g. Roget of Thesaurus fame famous neuroscientists who should also be associated with literature and some overlooked scientific and medical men who helped others produce great literary works e.g. Bram Stoker's *Dracula*. There has not been a volume with this coverage in the past and the connections it provides should prove fascinating to individuals in science medicine history literature and various other disciplines. This book looks at literature medicine and the brain sciences both historically and in the light of the newest scholarly discoveries and insights.

**Modernity and Epistemology in Nineteenth-Century Spain** Ryan A. Davis, Alicia Cerezo Paredes, 2016-12-14. The fraught tension between science and religion has loomed large in scholarship about the nineteenth century in Spain especially given the prominence of the Catholic Church and the discoveries made by Wallace and Darwin. The struggle for epistemological superiority between these two discourses science and religion has served to overshadow certain corners of the cultural landscape that though prominent sites of intellectual exploration in their day have received comparatively less scholarly attention until recently. *Fringe Discourses* brings together a group of essays that seeks to restore a sense of the epistemological richness of nineteenth century Spain. By exploring the relationship between epistemology modernity and subjectivity these essays recover significant efforts by Spanish authors and intellectuals to explain human nature and their world which seemed to be changing so radically before their eyes. In doing so the essays also reveal just how elastic the relationship was between science and pseudoscience genius and quackery. Offering a veritable Wunderkammer the authors collected here train their sights both on curious fields of study from pogonolgy the science of beards to Spiritualism and curiouser people from a government spy on undercover assignment in Morocco dressed as a Moorish prince to a hypnotic huckster who dupes the queen regent. With other authors focusing on science fiction dystopias mystical journeys and anatomical symbology *Fringe Discourses* reveals the Spanish nineteenth century for the intellectual Wild West it was.

**The Literature of Spain and Latin America** Britannica Educational Publishing, 2010-04-01. From the whimsical idealism of Miguel de Cervantes Don Quixote to the magical realism of Gabriel Garc a M rquez's *100 Years of Solitude* Spanish language literature has substantially enriched the global literary canon. This volume examines the vibrant prose and dynamic range of both Spanish and Latin American authors whose narratives are informed as much by their imaginations as the turbulent histories of these native lands. Influenced by a plethora of diverse cultures these tales truly tell a global story.

**Gender and Modernity in Spanish Literature** Elizabeth Smith Rousselle, 2014-10-02. Using each chapter to juxtapose works by one female and one male Spanish writer *Gender and Modernity in Spanish Literature 1789-1920* explores the concept of Spanish modernity. Issues explored include the changing roles of women the male hysteric and the mother and Don Juan figure.

***Women, Mysticism, and Hysteria in Fin-de-Siècle Spain*** Jennifer Smith, 2021-06-15. *Women Mysticism and Hysteria in Fin de Si cle Spain* argues

that the reinterpretation of female mysticism as hysteria and nymphomania in late nineteenth and early twentieth century Spain was part of a larger project to suppress the growing female emancipation movement by sexualizing the female subject. This archival historical work highlights the phenomenon in medical, social, and literary texts of the time illustrating that despite many liberals' hostility toward the Church, secular doctors and intellectuals employed strikingly similar paradigms to those through which the early modern Spanish Church castigated female mysticism as demonic possession. Author Jennifer Smith also directs modern historians to the writings of Emilia Pardo Baz (1851-1921) as a thinker whose work points out mysticism's subversive potential in terms of the patriarchal order. Pardo Baz, unlike her male counterparts, rejected the hysteria diagnosis and promoted mysticism as a path for women's personal development and self-realization. Tears and Flowers Feliciano Castro, 2024-10-22 A rare glimpse into the history and literary culture of the Cuban community in Key West in the early twentieth century, this book makes the poetry of Feliciano Castro, a writer, printer, editor, and cigar factory lector, available in English for the first time. *Dark Assemblages* Kay Pritchett, 2015-10-22 This book examines strategies of transformation, becoming, image making, and the phantasmagoric that figure in four stories and a novel by Gothic fiction writer Pilar Pedraza (Spain, 1951). While critics have long associated the Bildungsroman with Gothic fiction, this study takes a close look at the developmental process itself, the means by which a protagonist, young or old, might transcend a deprived status to achieve a complete sense of self. Pedraza's works imply that regardless of the path followed, a character's ability to think differently is crucial to progress. The fixed image, representative of an inflexible, socially determined mindset, arises as an obstacle to maturation. In *Das de perros*, for example, a triangular arrangement of coins in a cigar box elucidates the connection between individual lives and the social order or assemblage. Literary texts such as this one serve as collective assemblages of enunciation, capable of exposing fixed images as powerful instruments of control. *Tristes Ayes del guila Mejicana* discovers fixed images among the icons of Colonial Spain's *exequias reales*, used in this case to territorialize the evolving identity of indigenous peoples. The territory that Pedraza's fiction best illuminates is, in reality, the image. When images remain fixed or territorialized, they uncannily infect the assemblages over which they exert influence. Placing emphasis on images that impact women, Pedraza, in *Anfiteatro*, for example, deconstructs the cat woman, which, albeit a potentially subversive image in its early manifestations, eventually ceases to empower the feminine, lashing it rather to a burdensome stereotype. Territorialized, the feminine must then break free from the image in order to discover representations more capable of illuminating present-day challenges. The phrase *dark assemblages*, drawn from Deleuze and Guattari's *A Thousand Plateaus*, gestures toward societal stagnation as a decisive factor in individual evolution. Gothic fiction represents an uneven landscape in that it tenders the possibility of a social critique yet equally well lends itself to the exclusion of specific identities and practices that society brands as anomalous. Pedraza's Gothic fiction is indeed subversive in that it offers readers original perceptions of modern-day people and the assemblages, dark or otherwise, to which they belong. The A to Z of Spanish

Enlightenment and Political Fiction Cecilia Miller, 2016-03-22 The easy accessibility of political fiction in the long eighteenth century made it possible for any reader or listener to enter into the intellectual debates of the time as much of the core of modern political and economic theory was to be found first in the fiction not the theory of this age Amusingly many of these abstract ideas were presented for the first time in stories featuring less than gifted central characters The five particular works of fiction examined here which this book takes as embodying the core of the Enlightenment focus more on the individual than on social group Nevertheless in these same works of fiction this individual has responsibilities as well as rights and these responsibilities and rights apply to every individual across the board regardless of social class financial status race age or gender Unlike studies of the Enlightenment which focus only on theory and nonfiction this study of fiction makes evident that there was a vibrant concern for the constructive as well as destructive aspects of emotion during the Enlightenment rather than an exclusive concern for rationality
