Talcott Parsons, 1968 From Simon Schuster Talcott Parsons The Structure of Social Action is a study in social theory with special reference to a group of recent European writers from the 20th century Volume 1 of The Structure of Social Action is a must read for those looking to understand Parsons thinking of sociology and economics **Basic Documents on International Migration Law, 2ed** Richard Plender, Aire Centre, 1997-01-01 The second revised edition of Basic Documents on International Migration Law brings together in a single volume the principal international conventions declarations and instruments governing international migration in the form in which they stood as of early 1997 It contains the texts of these materials or where appropriate extracts from the texts together with information on the current state of ratification of each instrument and indications of any reservations interpretative declarations or other statements made by the States parties The book begins with excerpts from general multilateral texts ranging from the Universal Declaration of Human Rights to the Vienna Declaration of 1993 This is followed by instruments governing nationality and statelessness materials relating to refugees and texts emanating from the Council of Europe the Conference on Security and Cooperation in Europe the European Community and Union and the International Labour Organization The selection ends with a miscellany of texts of general significance from the Inter American Convention on Territorial Asylum of 1954 to the Convention of Human Rights concluded by the Commonwealth of Independent States in 1995 This publication is not intended for scholars alone but also for practitioners in migration law The texts are of practical significance for those concerned with the administration of the laws affecting migration and for representatives of those affected by these laws It also serves as a companion to Richard Plender s monograph International Migration Law **The Temple University Catalogue** Temple University, 1928 Five Centuries of Religion George G. Coulton, 1979 **Parapsychology and Religion** Everton de Oliveira Maraldi, 2021-06-29 Parapsychology and Religion is perhaps the most controversial research area in the psychology of religion However in recent decades psychology of religion has witnessed a growing literature bearing on ontological issues including parapsychological topics such as distant healing and near death experiences This book argues that despite the methodological and theoretical controversies that still surround the field of parapsychology the findings of research on alleged anomalous processes can inform the study of religious spiritual experiences Psychological literature on the paranormal is critically reviewed and it is argued that it became less a scientific endeavor and more an ideological program devised to denigrate paranormal believers

and experiencers This volume explores how an open minded dialogue between parapsychology and psychology of religion might help us move beyond the present ideological disputes and reviews the complex relations between parapsychology and religion over time as well as their implications for interdisciplinary research on religion and spirituality Religion and Equality Law Nelson Tebbe,2017-07-05 The essays selected for this volume address topics at the intersection of religion and equality law including discrimination against religion discrimination by religious actors and discrimination in favor of religious groups and traditions The introduction provides a conceptual guide to these types of inequality which are often misunderstood or conflated and it offers an analysis of different species of discrimination within each broad category Each section of the volume contains both theoretical essays which set out frameworks for thinking about the relevant type of inequality and essays that examine real world disputes For example the articles address the conflicts over headscarf laws in France and Turkey the place of so called traditional religions in Africa the display of Roman Catholic crucifixes in Italian classrooms and the ability of American religious organizations to be free of employment laws in their treatment of clergy This volume brings together classic articles which are otherwise difficult to access enables students to study key articles side by side and provides instructors with a valuable teaching resource **Principles and Practice of Forensic Psychiatry, 2Ed** Yasuhiro Monden,2003-02-28 The second edition of this award winning textbook has been thoroughly revised and updated throughout Building on the success of the first edition the book continues to address the History and Practice of Forensic Psychiatry Legal Regulation of the Practice of Psychiatry Psychiatry in relation to Civil Law Criminal Law and Family Law Importan W.E.B. Du Bois Reiland Rabaka,2017-05-15 Housed in one handy volume for the first time are several of the seminal essays on W E B Du Bois s contributions to sociology and critical social theory from Du Bois as inventor of sociology of race to Du Bois as the first sociologist of American religion from Du Bois as a pioneer of urban and rural sociology to Du Bois as innovator of sociology of gender and culture and finally from Du Bois as groundbreaking sociologist of education and critical criminologist to Du Bois as dialectical critic of the disciplinary decadence of sociology and the American academy What this volume offers that is wholly innovative and distinctive is that it brings together the watershed work of classical and contemporary male and female black and white national and international sociologists and social theorists with the express intent of creating critical inventories and thoroughly interrogating what has been included and what has been excluded when we come to W E B Du Bois s contributions to the discipline of sociology Unlike any other anthologies on Du Bois this volume offers an excellent overview of the critical commentary on arguably one of the most imaginative and innovative perceptive and prolific founders of the discipline of sociology It will therefore be of interest to scholars and students not just in sociology but also Africana studies American studies cultural studies ethnic studies gender studies and postcolonial studies as well as traditional disciplines such as history philosophy political science economics education and religion Exploring Religion and Ethics Peta Goldburg,Patricia Blundell,Trevor Jordan,2011-04 EXPLORING RELIGION AND ETHICS is written by leading
