Religion And The Human Image:

Religion and the Human Image Carl A. Raschke, James A. Kirk, Mark C. Taylor, 1977 Religion and the Human Image traces major religious philosophies to show how each is a mirror of man It explores religion as a set of symbols of images which reveal various aspects of human life throughout history It shows how to interpret the clues that give significance to the human situation The book discusses how the human image is depicted in the religion of ancient Israel in early Christianity in classical Hinduism and Buddhism and in the traditional religious cultures of China and Japan It concludes with two strong chapters that deal with the disintegration of traditional religious images under the impact of rapid social change and secularization during the past one hundred and fifty years the text concludes with an examination of recent trends in religion which seem to point toward the recovery of a new understanding of the human condition The material presents key traditions rather than covering everything about all religions although the introductory chapter summarizes and critically analyzes the various theories of religion in general It integrates the historical approach to religion with sociology psychology philosophy and theology Publisher *Images of the Human* Hunter Brown, Leonard A. Kennedy, 1995 Now available in paperback Images of the Human addresses the questions human beings have been asking for centuries Each chapter focuses on the writings of a different philosopher from Plato to Nietzsche St Augustine to Simone de Beauvoir As a distinctive feature commentaries explore the unique relationship between what philosophers say and what religion teaches **The Human Image of God** Hans-Georg Ziebertz, Friedrich Schweitzer, Hermann Häring, Don Browning, 2021-10-01 A new wave of religious energy is sweeping through the western nations Although God is disappearing from religious discourse in western culture both as a word and as a concept there is a definite undercurrent of religious ardour which is growing in strength It focuses all the more attention on the issue what or who is God in the modern era This is the question examined through systematic studies practical theology and empirical research that are presented here through anthropologically relevant theology Renowned international authors make it plain in this book the question of God is exciting again This book is published in honour of Johannes A van der Ven on the occasion of his 60th birthday *Religion and the Order of Nature* Seyyed Hossein Nasr, 1996-09-26 The current ecological crisis is a matter of urgent global concern with solutions being sought on many fronts In this book Seyyed Hossein Nasr argues that the devastation of our world has been exacerbated if not actually caused by the reductionist view of nature that has been advanced by modern secular science What is needed he believes is the recovery of the truth to which the great enduring religions all attest namely that nature is sacred Nasr traces the historical process through which Western civilization moved away from the idea of nature as sacred and embraced a world view which sees humans as alienated from nature and nature itself as a machine to be dominated and manipulated by humans His goal is to negate the totalitarian claims of modern science and to re open the way to the religious view of the order of nature developed over centuries in the cosmologies and sacred sciences of the great traditions Each tradition Nasr

shows has a wealth of knowledge and experience concerning the order of nature The resuscitation of this knowledge he argues would allow religions all over the globe to enrich each other and cooperate to heal the wounds inflicted upon the Earth
