Changes in Religious and Spiritual Practices in Western Society Dr. Anthony B. Atwam (PhD), 2025-01-22 Adopting an interdisciplinary approach between the sociology of religion and practical theology this book examines the dynamic changes

in religious and spiritual practices in the West from the 1960s From this examination the book demonstrates that westerners are becoming spiritually hungry and there is also a general thirst for righteousness When people demand faithfulness and loyalty in marriages relationships and at the workplace that is a thirst for righteousness Furthermore these changes are also leading to a paradigm shift in the West in religion and spirituality contexts we are moving from the Christian Age to a new era which some scholars claim to be the New Age In politics there is a potential shift in world dominance from the West to the East however there is some notable resistance from some quarters in America but Europe including Britain theologically seems to be following and championing events leading to its own demise In the context of world missions the centre of world Christianity is shifting from the West to the global south Africa in particular There is also a potential societal apocalypse despite our scientific endeavours and finally cosmologically the coming of God's kingdom is imminent The context in which these changes are occurring is the West Therefore this book is a great resource for policy makers students tutors Pastors the Church and people in Western nations The West is a mission field therefore this book is also a great resource for students institutions tutors missionaries and people in the global south Thus the discussion in the book contributes to our understanding of what is going on globally in the twenty first century Read this book to find out how these dynamic events affect you your family and society

Eberle, 2016-05-23 The role of religion as a contentious and motivating force in society is examined here through the lens of the church state dynamic in countries with three very different approaches to this crucial relationship Focusing on the United Kingdom where there is official recognition of one religion by the state the United States where law imposes a separatism between religion and the state and Germany where there is cooperation between the church and state this book compares these three models It describes the components of each model illustrates their operation and uses case law to examine what each model might learn from the other Controversial and timely issues such as the refusal of medical treatment on religious grounds the wearing of Islamic headscarves and ritual animal slaughter are discussed with new insight providing a comprehensive review of varied approaches to law government and religious freedom **Russia and Western Civilization** Russell

Bova, 2015-02-12 This volume introduces readers to an age old question that has perplexed both Russians and Westerners Is Russia the eastern flank of Europe Or is it really the heartland of another civilization In exploring this question the authors present a sweeping survey of cultural religious political and economic developments in Russia especially over the nineteenth and twentieth centuries Based on the inter disciplinary Russian studies program at Dickinson College this splendid collection will complement many curricula The text features highlight boxes and selected illustrations Each chapter ends with a glossary study questions and a reading list *The Non-Western World* Pradyumna Prasad Karan, 2004 This introductory

Farmer, 2014-01-10 This book explores the challenge posed by the immersion of 15 million Muslims in Western democracies and the few but volatile terrorists present within the larger body of believers The fact that immersion in Western culture is insufficient to stem the tide of extremism is discussed along with the factors that contribute to the growth of radical Islam such as the presence of charismatic authoritarian leadership educational options that downplay critical thinking and colonialism Hope that radical Islam can be kept to a minimum in Western societies is provided by the Islamic concept of Ijtihad through which Muslims reinterpret their own religion Just as mainstream Mormons have dispensed with polygamy and Christians with witch hunting Muslims in Western societies have the potential to minimize the growth of radicalism Instructors considering this book for use in a course may request an examination copy here [A Comparative Sociology of World Religions](#) Stephen Sharot, 2001-08 Sharot sociology Ben Gurion U of the Negev focuses on the differences and interrelationships between religious elites and lay masses He presents several relevant concepts and theories including a model of religious action based on the work of Max Weber and a discussion of elites and masses as represented in Weber's comparison of world religions Coverage encompasses religious action in world religions Brahmins Renouncers and Hinduism in India Buddhism and Animism in Sri Lanka and Southeast Asia traditional Catholicism in Europe Islam and Judaism Protestants Catholics and the reform of popular religion and a comparison of religious elites and popular religions c Book News Inc [The Globalization of God](#) Dara Molloy, 2015-11-10 Roman Catholicism was the first multinational corporation Preaching was the forerunner of advertising Roman Catholicism created the template for the spread of commercial globalisation through multinational corporations For global Christianity to succeed all local expressions of Christianity had to be suppressed These included Celtic Christianity For 800 years the Roman church tried to break the independent spirit of Celtic Christianity Despite being defeated in 1014 at the Battle of Clontarf the Irish Vikings through their urban bishops were key actors in the imposition of Roman episcopal structures of church throughout Ireland in the 12th century There was an invasion of Norman monks to Ireland which began in 1142 twenty five years before the military invasion in 1167 The ecclesiastical colonisation of Ireland meant that a Roman episcopal and diocesan structure replaced the Celtic monastic structure Norman colonisers destroyed Celtic monasteries and replaced them with imported European religious orders Cistercian monasteries in Ireland were required to have French abbots and sometimes these were imposed by force no Irishman was allowed to become a bishop or attain any ecclesiastical high office St Malachy of Armagh betrayed his own Celtic heritage and was a key figure in bringing about the ecclesiastical colonisation of Ireland Monotheism is the mythical container for globalization Humans will fail to return to a sustainable way of living on this planet until the
