

A close-up photograph of a person's hands, likely of South Asian descent, holding a small, glowing, pinkish-orange object. The object has a textured, almost crystalline appearance. The background is dark and textured, possibly a piece of fabric or a wall. The lighting is warm and focused on the hands and the object they are holding.

Religion Is A Personal Matter:

Religion is a Personal Matter Philip A. Verhalen, 1990 This book investigates the religious role of the individual person in a community setting as it provides a review of the chief issues of Western religion that an introductory text would address Most Westerners with a Judeo Christian background do not readily distinguish theological inquiry from religious phenomena To meet this need the author reviews the chief disciplines related to the scientific study of religion under the central question How is a person religious both as an individual and as a member of a community The author surveys the current history of ideas related to religious phenomena in the areas of philosophy sociology psychology and Western theology *The Collected Works of Edward M. Matthews* Liberal Catholic Church, International, Edward M. Matthews, 1993 *Teenagers' Perspectives on the Role of Religion in their Lives, Schools and Societies. A European Quantitative Study* Pille Valk, Gerdien Bertram-Troost, Markus Friederici, Céline Béraud, 2009 Religion is on the European agenda again The secularisation paradigm has lost its explanatory power and the newly coined term post secularism is used to describe the realisation that in the current social transformation religion cannot be ignored any longer The quantitative study presented in this book is part of the research effort by the REDCo project REDCo is the abbreviation for Religion in Education A contribution to Dialogue or a Factor of Conflict in Transforming Societies of European Countries The project brought together nine research teams from eight European countries England Estonia France Germany The Netherlands Norway Russia and Spain The research involved interdisciplinary cooperation between specialists in the different academic fields of education religious education sociology political science anthropology psychology theology and religious studies The book offers valuable interpretations and inspirations on the question how the students in the 14-16 year age group in Europe see the relevance of religions for dialogue and conflict in their daily lives in the school environment and in society as a whole The young respondents of the quantitative study are clearly aware that the diversity of religious and non religious worldviews is the reality of the European contexts they have to manage within Most of them are convinced that religion must be addressed in schools as it is too important as factor in social life and for the coexistence of people from different cultural and religious backgrounds throughout Europe to be ignored **Religion beyond its Private Role in Modern Society** Wim Hofstee, A. van der Kooij, 2013-09-12 The volume *Religion beyond its Private Role in Modern Society* aims at contributing to the debate on the distinction between public and private spheres with regard to the role of religion in modern societies This issue which is inherent to many conceptions regarding social order modernity freedom of conscience and the changing role and function of religion is discussed not only from a social scientific but also from a historical and philosophical point of view The articles dwell on several aspects of the role of religion in different societies in modern times and the overall theme is explored from the perspective of various religious traditions and groups both institutional and non institutional It turns out that the distinction made is difficult to maintain Contributors include Bart Labuschagne Linda Woodhead Niek Brunsveld Dick

J. Rushdoony, 2017-07-11 Our faith should be an informed one because the God who created all things speaks to every sphere of life and all facts should be studied in light of the revelation of God in Scripture This is the foundation of Christian dominion For R J Rushdoony true government was the self government of the Christian life in terms of God s law so he wrote his position papers to better equip Christians to apply their faith to all of life His objective was not to empower the state or the organized church but rather to call every person and institution to God s Word which often put him at odds with both church and state This three volume collection of his position papers 1979 2000 are organized topically and are featured for the first time with an extensive index which will make this material far more accessible to the studious reader This beautiful three volume collection of hardback books topically organizes ALL of Rushdoony s position papers not only the 115 originally published in *Roots of Reconstruction* but also 118 later essays including six recently discovered unpublished papers A Collection of Lectures on Theosophy and Archaic Religions, Delivered in India and Ceylon Henry Steel Olcott, 1883
