Religion Philosophy Yoga:

Religion, Philosophy, Yoga Jean Filliozat, 1991-01-01 *Yoga as Philosophy and Religion* Surendranath

Dasgupta, 1947-01-01 However dogmatic a system of philosophical enquiry may appear to us it must have been preceded by a criticism of the observed facts of experience The details of the criticism and the processes of self argumentation by which the thinker arrived at his theory of the Universe might indeed be suppressed as being relatively unimportant but a thoughtful reader would detect them as lying in the background behind the shadow of the general speculations but at the same time setting them off before our view An Aristotle or a Patajali may not make any direct mention of the arguments which led him to a dogmatic assertion of his theories but for a reader who intends to understand them thoroughly it is absolutely necessary that he should read them in the light as far as possible of the inferred presuppositions and inner arguments of their minds it is in this way alone that he can put himself in the same line of thinking with the thinker whom he is willing to follow and can grasp him to the fullest extent In offering this short study of the Patajali metaphysics I shall therefore try to supplement it with such of my inferences of the presuppositions of Patajali's mind which I think will add to the clearness of the exposition of his views though I am fully alive to the difficulties of making such inferences about a philosopher whose psychological social religious and moral environments differed so widely from ours An enquiry into the relations of the mental phenomena to the physical has sometimes given the first start to philosophy The relation of mind to matter is such an important problem of philosophy that the existing philosophical systems may roughly be classified according to the relative importance that has been attached to mind or to matter There have been chemical mechanical and biological conceptions which have ignored mind as a separate entity and have dogmatically affirmed it to be the product of matter only There have been theories of the other extreme which have dispensed with matter altogether and have boldly affirmed that matter as such has no reality at all and that thought is the only thing which can be called Real in the highest sense All matter as such is non Being or M y or Avidy There have been Nihilists like the nyavadi Buddhists who have gone so far as to assert that neither matter nor mind exists Some have asserted that matter is only thought externalized some have regarded the principle of matter as the unknowable Thing in itself some have regarded them as separate independent entities held within a higher reality called God or as two of his attributes only and some have regarded their difference as being only one of grades of intelligence one merging slowly and imperceptibly into the other and held together in concord with each other by pre established harmony Underlying the metaphysics of the Yoga system of thought as taught by Patajali and as elaborated by his commentators we find an acute analysis of matter and thought Matter on the one hand mind the senses and the ego on the other are regarded as nothing more than two different kinds of modifications of one primal cause the Prak ti But the self intelligent principle called Purusha spirit is distinguished from them Matter consists only of three primal qualities or rather substantive entities which he calls the Sattva or intelligence stuff Rajas or energy and Tamas the factor of obstruction or mass or inertia It is

extremely difficult truly to conceive of the nature of these three kinds of entities or Gu as as he calls them when we consider that these three elements alone are regarded as composing all phenomena mental and physical In order to comprehend them rightly it will be necessary to grasp thoroughly the exact relation between the mental and the physical What are the real points of agreement between the two How can the same elements be said to behave in one case as the conceiver and in the other case as the conceived Thus V caspati says The reals gu as have two forms viz the determiner or the perceiver and the perceived or the determined In the aspect of the determined or the perceived the gu as evolve themselves as the five infra atomic potentials the five gross elements and their compounds In the aspect of perceiver or determiner they form the modifications of the ego together with the senses Yoga as Philosophy and Religion Surendranath Dasgupta,1926

The Yoga Sutras Of Patanjali - The Book Of The Spiritual Man Charles Johnston, 1952 The Yoga Sutras of Patanjali are in themselves exceedingly brief yet they contain the essence of practical wisdom set forth in admirable order and detail The theme if the present interpreter be right is the great regeneration the birth of the spiritual from the psychical man the same theme which Paul so wisely and eloquently set forth in writing to his disciples in Corinth the theme of all mystics in all lands We think of ourselves as living a purely physical life in these material bodies of ours In reality we have gone far indeed from pure physical life for ages our life

has been psychical we have been centred and immersed in the psychic nature Some of the schools of India say that the psychic nature is as it were a looking glass wherein are mirrored the things seen by the physical eyes and heard by the physical ears But this is a magic mirror the images remain and take a certain life of their own Thus within the psychic realm of our life there grows up an imaged world wherein we dwell a world of the images of things seen and heard and therefore a world of memories a world also of hopes and desires of fears and regrets Mental life grows up among these images built on a measuring and comparing on the massing of images together into general ideas on the abstraction of new notions and images from these till a new world is built up within full of desires and hates ambition envy longing speculation curiosity self will self interest The teaching of the East is that all these are true powers overlaid by false desires that though in manifestation psychical they are in essence spiritual that the psychical man is the veil and prophecy of the spiritual man *Yoga* Daren Callahan,2015-01-28 Millions of people practice some form of yoga but they often do so without a clear understanding of its history traditions and purposes This comprehensive bibliography designed to assist researchers practitioners and general readers in navigating the extensive yoga literature lists and comments upon English language yoga texts published since 1981 It includes entries for more than 2 400 scholarly as well as popular works manuals original Sanskrit source text translations conference proceedings doctoral dissertations and master s theses Entries are arranged alphabetically by author for easy access while thorough author title and subject indexes will help readers find books of interest **Tracing the Path of Yoga** Stuart Ray Sarbacker,2021-01-01 Clear accessible and meticulously annotated *Tracing the Path of Yoga* offers a comprehensive survey of the history and philosophy of yoga that will be invaluable to both specialists and to nonspecialists seeking a deeper understanding of this fascinating subject Stuart Ray Sarbacker argues that yoga can be understood first and foremost as a discipline of mind and body that is represented in its narrative and philosophical literature as resulting in both numinous and cessative accomplishments that correspond respectively to the attainment of this worldly power and otherworldly liberation Sarbacker demonstrates how the yogic quest for perfection as such is situated within the concrete realities of human life intersecting with issues of politics economics class gender and sexuality as well as reflecting larger Indic religious and philosophical ideals Yoga Powers Knut A. Jacobsen,2011-10-06 A neglected topic in the research on yoga and meditation traditions the extraordinary capacities called yoga powers are at the core of the religious imagination in the history of religions in South Asia Yoga powers explained the divine the highest gods were thought of as great yogins and since major religious traditions considered their attainment as an inevitable part of the salvific process the textual traditions had to provide rational analyses of the powers The essays of the book provide a number of new insights in the yoga powers and their history position and function in the Hindu Buddhist and Jain traditions in classical Yoga Ha ha Yoga Tantra and aiva textual traditions in South Asian medieval and modern hagographies and in some contemporary yoga traditions
