The History of the Christian Religion and Church During the Three First Centuries August Neander, 1844 **The Social Teaching of the Christian Churches** Ernst Troeltsch, 1956 This unsurpassed classic is more than a history of Christian ethical ideas It comes near to being a history of the Christian era for it relates these ideas to the changing structures of church and society showing the mutual influences between ideas social forces and institutions James Luther Adams Edward Mallinckrodt Jr The Divinity School Harvard University **A Concise History of the Christian Church, from Its First Establishment to the Present Time** George Gregory, Martin Ruter, 1834 **Christianity and the World Order** Edward R. Norman, 1979 These 1987 Reith Lectures are an attempt to isolate and identify the political and social ideas employed by contemporary Christians Beginning with a critical analysis of the modern politicization of religion Dr Norman proceeds to an examination of specific areas in which the conflict of ideologies has elicited strong Christian responses in the social radicalism and Marxism of the Latin American Churches in the Human Rights controversy over religious conditions in the Soviet Union in the racial and national upheavals of Southern Africa The result is a wide ranging discussion of present tendencies and a general scepticism about the property of associating Christianity with any set of political values Publisher

Christianity **The Worldly Church** C. Leonard Allen, Richard Thomas Hughes, Michael R. Weed, 1991-12 **Defining the Jacobean Church** Charles W. A. Prior, 2005-07-25 This 2005 book proposes a model for understanding religious debates in the Churches of England and Scotland between 1603 and 1625 Setting aside narrow analyses of conflict over predestination its theme is ecclesiology the nature of the Church its rites and governance and its relationship to the early Stuart political world Drawing on a substantial number of polemical works from sermons to books of several hundred pages it argues that rival interpretations of scripture pagan and civil history and the sources central to the Christian historical tradition lay at the heart of disputes between proponents of contrasting ecclesiological visions Some saw the Church as a blend of spiritual and political elements a state Church while others insisted that the life of the spirit should be free from civil authority **The Modern Church** Glenn T. Miller, 1997 The Modern Church From the Dawn of the Reformation to the Eve of the Third Millennium answers a wide variety of questions related to the history of Christianity in the modern period Comprehensive in scope and ecumenical in outlook it introduces the reader to the broad sweep of events that have shaped the Christian church from the year 1500 C E onward The Inner Life of the Religious Societies of the Commonwealth: Considered Principally with Reference to the Influence of Church Organization on the Spread of Christianity Barclay, 1876 *An Exposition of the Thirty-nine Articles of the Church of England* Gilbert Burnet, 1700 The Resilience of Conservative Religion Joseph B. Tamney, 2002-02-11 The recent growth and popularity of conservative churches contradicts the idea that late modern societies have outgrown the need for such relics of the past as traditionalist religions In this book Joseph Tamney offers an explanation for this this apparent incongruity by looking at the case of growing popular conservative Protestant congregations in the United States His findings represent a synthesis of ideas from supporters of secularization theory and from those who stress the competitive market of churches in America as a factor in church growth **The Churches and Modern Thought** Vivian Phelips, 1911 **Doctrinal Standards of Methodism, Including the Methodist Episcopal Churches** Thomas Benjamin Neely, 1918 **The Non-Religious and the State** Jeffrey Tyssens, Niels De Nutte, Stefan Schröder, 2024-06-25 **The Social Significance of Religion in the Enlarged Europe** Olaf Müller, 2016-02-24 Engaging with some of the central issues in the sociology of religion this volume investigates the role and significance of churches and religion in contemporary Western and Eastern Europe Based on an extensive international research project it offers case studies of various countries including Finland Ireland Portugal Germany Poland Russia Estonia Hungary and Croatia as well as cross country comparisons Researching more precisely the present social relevance of church and religion at different levels The Social Significance of Religion in the Enlarged Europe raises and responds to both descriptive and explanatory questions Can we observe tendencies of religious decline in the various Western and Eastern European countries Are we witnessing trends of religious individualization To what extent has there been a religious upswing in the last few years And what are the factors causing the observed processes of religious change Marked by its broad range of data and a coherent
