Business and Religion in the American 1920s Rolf Lunden, 1988-02-11 Addressing a phenomenon that continues to shape our culture today Professor Lunden presents a full length analysis of the relationship between business and religion during the 1920s He examines both the impact of the business mentality on Protestant institutions and values and the effects of religion on business Beginning with a discussion of business and entrepreneurship as determining factors in the development of American society Lunden looks at the position of the Protestant churches vis a vis business He next explores business attitudes toward religion Commenting on the adoption of specific Judeo Christian concepts religion Commenting on the adoption of specific Judeo Christian concepts he describes both how these concepts were applied in a business context and what concessions were made by business when Protestant values came into conflict with those of the commercial world In his final chapter he considers the implications of the business community's appropriation of religious functions and the widespread belief that its mission was linked to the redemption of society

The Business Turn in American Religious History Amanda Porterfield, Darren Grem, John Corrigan, 2017-07-19 Business has received little attention in American religious history although it has profound implications for understanding the sustained popularity and ongoing transformation of religion in the United States This volume offers a wide ranging exploration of the business aspects of American religious organizations The authors analyze the financing production marketing and distribution of religious goods and services and the role of wealth and economic organization in sustaining and even shaping worship charity philanthropy institutional growth and missionary work Treating religion and business holistically their essays show that American religious life has always been informed by business practices Laying the groundwork for further investigation the authors show how American business has functioned as a domain for achieving religious goals Indeed they find that religion has historically been more powerful when interwoven with business Chapters on Mormon enterprise Jewish philanthropy Hindu gurus Native American casinos and the wedding of business wealth to conservative Catholic social teaching demonstrate the range of new studies stimulated by the business turn in American religious history Other chapters show how evangelicals joined neo liberal economic practice and right wing politics to religious fundamentalism to consolidate wealth and power and how they developed marketing campaigns and organizational strategies that transformed the American religious landscape Included are essays exposing the moral compromises religious organizations have made to succeed as centers of wealth and influence and the religious beliefs that rationalize and justify these compromises Still others examine the application of business practices as a means of sustaining religious institutions and expanding their reach and look at

controversies over business practices within religious organizations and the adjustments such organizations have made in response Together the essays collected here offer new ways of conceptualizing the interdependence of religion and business in the United States establishing multiple paths for further study of their intertwined historical development

Entrepreneurship and Religion Léo-Paul Dana,2010-01-01 I wish this book had been around when I tried to teach about entrepreneurship in its social context life would have been much easier with these informed sources Alistair R Anderson Aberdeen Business School UK This rich and detailed book makes a very timely contribution to extending our understanding of entrepreneurship in its social context Using selected examples the respected contributors show how the values developed in religious beliefs and practices shape entrepreneurship For too long the entrepreneur has been characterized as an isolated economically driven individual thus ignoring how enterprise and entrepreneurs are products of their society their culture and their religion This innovative book discusses both entrepreneurship and religion as well as indicating how the synthesis of beliefs and practices combine in entrepreneurial endeavours It provides a conceptually useful way of framing the individualistic entrepreneur in his or her social and cultural context demonstrating how entrepreneurial agency operates within and through a variety of religious contexts Illustrated with original photographs this captivating book will be warmly welcomed by students and researchers with interests in entrepreneurship sociology religion and cultural studies Government policy makers in immigration will also find this book an invaluable read International Business K. Amore, 2024 This innovative collection of essays draws together and compares the teachings of world and regional religions on the subject of economic morality Faith in Society Anthony B. Bradley, 2019-02-14 Christian high school and college students have inadvertently been led to believe that working in non Christian settings is the preferred way of making the world a better place This book takes the opposite view Anthony Bradley argues that it is perfectly honorable and praiseworthy for Christians to work within Christian contexts to add value to the world Faith In Society profiles thirteen different explicitly Christian contexts that are already serving the common good **The Choice Maker** Hamid Rafizadeh, 2018-05-21 We all feel it To fit in is difficult to run away is impossible The only alternative is to manage yet something significant is missing Ancient knowledge has disappeared as if no one will ever find it but the divine intervenes rebooting the current existence into a new and unexpected one The divine voice unravels the ancient curse of ignorance placed on humans by humans stretching back to millennia and beyond a primal evil that threatens everyone's life unless one listens to the divine voice But where is that voice The Choice Maker offers clear ideas about the shocking realities that compel and engage humans to manage force and resources differently in relation to their place in earth's different versions one presently precarious and fleeting and the other arriving with unseen power and ferocity Author Hamid Rafizadeh pinpoints the divine voice in the Sermon on the Mount which is critical to human life survival and well being The Sermon on the Mount is universal knowledge for everyone not religious knowledge for select believers and it can reveal to us a truth about life in both the current blue skied earth and the new canopied earth that is coming soon Are you willing to go on a profound journey The one crucial to every human's life The one recommended by the divine Probably not and history is on the unwilling side yet The Choice Maker insists on showing you the way and the reasons for taking this journey Spirituality, Corporate Culture, and American Business James Dennis LoRusso, 2017-02-09 By the early twenty first century Americans had embraced a holistic vision of work that one's job should be imbued with meaning and purpose that business should serve not only stockholders but also the common good and that for many should attend to the spiritual health of individuals and society alike While many voices celebrate efforts to introduce spirituality in the workplace as a recent innovation that holds the potential to positively transform business and the American workplace James Dennis LoRusso argues that workplace spirituality is in fact more closely aligned with neoliberal ideologies that serve the interests of private wealth and undermine the power of working people LoRusso traces how this new moral language of business emerged as part of the larger shift away from the post New Deal welfare state towards today's global market oriented social order Building on other studies that emphasize the link between American religious conservatism and the rise of global capitalism LoRusso shows how

progressive spirituality remains a vital part of this story as well Drawing on cultural history as well as case studies from New York City and San Francisco of businesses and leading advocates of workplace spirituality this book argues that religion reveals much about work corporate culture and business in contemporary America **Everyman's Prayer Book** H. Kenneth MacLennan, 2014-08-08 The world is replete with conflicts between various governments and various religious factions Author and retired educator H Kenneth MacLennan has come to realize that these conflicts will not be resolved until the believers of these religions and governments better understand the true nature of those things in which they believe Everyman's Prayer Book is a humorous satirical and a sometimes serious look at the nature of how democratic governments and their courts using many of the same pillars and elements of the legal definition of witchcraft crafty science sorcery and fortune telling to procure tax payments from believers as Christianity uses in seeking offerings from believers In considering the nature of democratic governments and their courts you will find important truths and insights into human nature Those insights and truths will be revealed through satirizing ridiculing lampooning skewering deflating dissecting embarrassing undressing unmasking and exposing the illusion that the crafty science of democracy represents the people and that there is such a thing as real justice in the courts of democratic governments Without faith in the existence and power of God although the concept of faith is without foundation and the opposite of reason believers would not accept the power of religions or democratic governments and their courts *Entrepreneurs and Capitalism since Luther* Ivan Light, Léo-Paul Dana, 2020-08-20 In *Entrepreneurs and Capitalism since Luther* Rediscovering the Moral Economy Ivan Light and L o Paul Dana study the history of business capitalism and entrepreneurship to examine the values of social and cultural capital Six chapters evaluate case studies that illustrate contrasting relationships between social networks vocational culture and entrepreneurship Light and Dana argue that in capitalism's early stages cultural capital is scarcer than social capital and therefore more crucial for business owners Conversely when capitalism is well established social capital is scarcer than cultural capital and becomes more crucial Light and Dana then trace moral legitimations of capitalism from the Reformation to the Enlightenment the Gilded Age and finally to Joseph Schumpeter whose concept of creative destruction freed elite entrepreneurs from moral restraints that encumber small business owners After examining the availability of social and cultural capital in the contemporary United States Light and Dana show that business owners social capital enforces conventional morality in markets facilitating commerce and legitimating small businesses the old fashioned way As their networks become more isolated elite entrepreneurs must claim and ultimately deliver successful results to earn public toleration of immoral or predatory conduct [Entrepreneurial Marketing for SMEs](#) Luca Cacciolatti, Soo Hee Lee, 2015-10-26 *Entrepreneurial Marketing for SMEs* contextualizes the practice of marketing amongst SMEs and critically discusses major issues of Entrepreneurial Marketing with a relevant and up to date academic body of knowledge *The Morning-Exercise at Cripple-gate ...
