Religion Et Magie Des Bayaka:

Religion et magie des Bayaka L. de Beir, 1975-01-01 **The Yaka and Suku** Bourgeois, 2023-09-20 Scholarly monographs on the iconography of African religions **The Law of the Lifegivers** Claude Brodeur, René Devisch, 2018-12-07 African societies are gifted with a rich creativity often expressed in intimate corporeal terms For the Yaka people of southwestern Congo such manifestations can have individual social or even cosmic significance The Law of the Lifegivers investigates the importance among the Yaka of body and space in their daily life exercise of power and initiatic traditions Through this analysis Devisch and Brodeur show that body desire and symbol are intertwined so that bodily expression can act as sensuous and powerful symbol The domestication of passion and the institutionalizing of a subject are all expressed in bodily terms particularly during initiations the ethical order of law rests on many bodily symbols including the importance of maternal and paternal lifegivers The authors vividly describe the different life giving or life threatening roles which function in this society such as sorcerer diviner therapist and chief as well as the funeral drama which shapes the passage to the afterlife with the ancestors as experienced by the dying subject and his community Through their dialogue and correspondence Devisch and Brodeur an anthropologist and a psychoanalyst respectively bring together two sometimes conflicting intellectual approaches They aim to unravel a truth which is freed as much as possible from the presumption that only the West possesses the knowledge of objective discourse and science Through the interaction the authors reveal the semantic threads located at the very heart of the most vital life giving processes which weave the fabric of the practice and thought of a riveting passionate Africa *Divination and Healing* Michael Winkelman, Philip M. Peek, 2022-08-23 Divination is an important feature of cultures all over the world While some may still question the efficacy of divination systems they continue to serve their communities by diagnosing ailments prescribing healing treatments and solving problems Yet despite their universality there are relatively few comprehensive studies of divination systems This volume seeks to fill this gap regarding the use of divination in healing Here some of the world's leading authorities draw on their own fieldwork and participation in ritual to present detailed case studies demonstrating that divination rituals can have therapeutic effects As the contributors examine the systems of knowledge that divination articulates and survey the varieties of divinatory experience they seek to analyze divination as an epistemological system as a social process and as a therapeutic endeavor While some of their findings reinforce traditional assumptions about the importance of social control spirit relations and community support in the divination process the authors place these considerations within new epistemological frameworks that emphasize the use of alternative modes of knowing In this wide ranging volume readers will find coverage of classic Ifa systems Buddhist influenced shamanic practices in the former Soviet Union the reconciliation of Muslim beliefs and divinatory practices in Thailand Native American divination used in diagnosis Maya calendrical divination in Guatemala mediumistic and chicken oracle divination among the Sukuma of Tanzania Ndembu divination focusing on the process of

collective healing and divination among the Samburu Maasai of Kenya featuring dialogues from actual healing sessions Together these contributions argue for new perspectives on the study of divination that emphasize not only the epistemological roots of these systems but also their multifaceted therapeutic functions Divination and Healing is a rich source of both data and insight for scholars of ritual religion medical anthropology and the psychology of altered states of consciousness

African Divination Systems Philip M. Peek,1991 This volume of finely crafted case studies is also the vehicle for an important general theory of divination this is a book overflowing with ideas that will powerfully stimulate further research Journal of Ritual Studies The essays in this collection provide a very useful overview of both the diversity of African divination systems and of recent approaches to their study Choice This unique collection of essays by an exceptional international group of Africanists demonstrates the central role that divination continues to play throughout Africa in maintaining cultural systems and in guiding human action African Divination Systems offers insights for current discussions in comparative epistemology cross cultural psychology cognition studies semiotics ethnosociology religious studies and anthropology

Weaving the Threads of Life Renaat Devisch,1993-11 For the Yaka of Southwestern Zaire infertility is a tear in the fabric of life and the Khita fertility ritual is a trusted way of reweaving the damaged strands In Weaving the Threads of Life Rene Devisch offers an extended analysis of the Khita cult which leads to an original account of the workings of ritual healing Drawing on many years among urban and rural Yaka Devisch analyzes their understanding of existence as a fabric of firmly but delicately interwoven threads of nature body and society The fertility healing ritual calls forth forces feelings and meanings that allow women to rejoin themselves to the complex pattern of social and cosmic life These elaborate rites whether simulating mortal agony and rebirth gestation and delivery or flowering and decay using music and dance steambath or massage dream messages or scarification are not based on symbols of traditional beliefs Rather Devisch shows the rites themselves generate forces and meaning creating and shaping the cosmic physical and social world of their participants In contrast to current theoretical methods such as postmodern or symbolical interpretation Devisch's praxiological approach is unique in also using phenomenological insights into the intent and results of anthropological fieldwork This innovative work will have ramifications beyond African studies reaching into the anthropology of medicine and the body comparative religious history and women's studies

Vers une sacramentalité du système matrimonial négro-africain Nkelenge Hilaire Mitendo,2003 A partir du moment où ils ont été confrontés au christianisme les Africains ont intégré leur mariage en trois temps selon la coutume mariage coutumier la commune mariage civil et l'église mariage religieux Prêtre congolais et docteur en théologie l'auteur souhaiterait harmoniser ces trois célébrations pour n'en faire qu'une qui serait sacramentelle

Explorations in Psychoanalytic Ethnography Jadran Mimica,2007-05-01 Whereas most anthropological research is grounded in social cultural and biological analysis of the human condition this volume opens up a different approach its concerns are the psychic depths of human cultural life worlds as explored through psychoanalytic

practice and or the psychoanalytically framed ethnographic project In fact some contributors here argue that the anthropological interpretation of human existence is not sustainable without psychoanalysis others take a less extreme radical stance but still maintain that the unconscious matrix of the human psyche and of the intersubjective social reality of any given cultural life world is a vital domain of anthropological and sociological inquiry and understanding **Ibss:**

Anthropology: 1975 International Committee for Social Scien,1978-08-24 First published in 1978 Routledge is an imprint of Taylor Francis an informa company **Reviewing Reality** W. E. A. van Beek,Philip M. Peek,2013 From crab divination in the Cameroon to friction oracles in the Congo Basin from reading cast objects in Mozambique to spirit possession in Cote d Ivoire from Sudanese ebony diviners to South African Xhosa healers divination systems throughout Africa serve their communities by answering questions and resolving problems Divination helps people chart a course in their lives through a deeper understanding of past and present This important book reveals the extraordinary diversity and complexity of African divination systems focusing on self knowledge social reality and intercultural and historical relations Series African Studies Afrikanische Studien Vol 50 African Myths of Origin Stephen Belcher,2005-12-01 Gathering a wide range of traditional African myths this compelling new collection offers tales of heroes battling mighty serpents and monstrous birds brutal family conflict and vengeance and desperate migrations across vast and alien lands From impassioned descriptions of animal creators to dramatic stories of communities forced to flee monstrous crocodiles all the narratives found here concern origins whether of the universe peoples or families Together they create a kaleidoscopic picture of the rich and varied oral traditions that have shaped the culture and society of successive generations of Africans for thousands of years throughout the long struggle to survive and explore this massive and environmentally diverse continent **Shamanism** Mariko Namba Walter,Eva Jane Neumann Fridman,2004-12-15 A guide to worldwide shamanism and shamanistic practices emphasizing historical and current cultural adaptations This two volume reference is the first international survey of shamanistic beliefs from prehistory to the present day In nearly 200 detailed readable entries leading ethnographers psychologists archaeologists historians and scholars of religion and folk literature explain the general principles of shamanism as well as the details of widely varied practices What is it like to be a shaman Entries describe region by region the traits such as sicknesses and dreams that mark a person as a shaman as well as the training undertaken by initiates They detail the costumes music rituals artifacts and drugs that shamans use to achieve altered states of consciousness communicate with spirits travel in the spirit world and retrieve souls Unlike most Western books on shamanism which focus narrowly on the individual s experience of healing and trance Shamanism also examines the function of shamanism in society from social political and historical perspectives and identifies the ancient continuous thread that connects shamanistic beliefs and rituals across cultures and millennia *Evil in Africa* William C. Olsen,Walter E. A. van Beek,2015-08-30 William C Olsen Walter E A van Beek and the contributors to this volume seek to understand how Africans have confronted evil around them Grouped

around notions of evil as a cognitive or experiential problem evil as malevolent process and evil as an inversion of justice these essays investigate what can be accepted and what must be condemned in order to evaluate being and morality in African cultural and social contexts These studies of evil entanglements take local and national histories and identities into account including state politics and civil war religious practices Islam gender and modernity Bodies and Persons Michael Lambek, Andrew Strathern, 1998-03-28 Large scale comparisons are out of fashion in anthropology but this book suggests a bold comparative approach to broad cultural differences between Africa and Melanesia Its theme is personhood which is understood in terms of what anthropologists call embodiment These concepts are applied to questions ranging from the meanings of spirit possession to the logics of witchcraft and kinship relations the use of rituals to heal the sick electric vampires and even the impact of capitalism There are detailed ethnographic analyses and suggestive comparisons of classic African and Melanesian ethnographic cases such as the Nuer and the Melpa The contributors debate alternative strategies for cross cultural comparison and demonstrate that there is a surprising range of continuities putting in question common assumptions about the huge differences between these two parts of the world Beyond Rationalism Bruce Kapferer, 2003-02-01 This book seeks a reconsideration of the phenomenon of sorcery and related categories The contributors to the volume explore the different perspectives on human sociality and social and political constitution that practices typically understood as sorcery magic and ritual reveal In doing so the authors are concerned to break away from the dictates of a western externalist rationalist understanding of these phenomena without falling into the trap of mysticism The articles address a diversity of ethnographic contexts in Africa Asia the Pacific and the Americas **Historical Dictionary of the Democratic Republic of the Congo** Emizet Francois Kisangani, 2016-11-18 This book looks at 55 years of independence over eight decades of colonial rule and earlier kingdoms and groups that shared the Congolese territory This fourth edition highlights new developments and the increasing importance of the DRC in the Great Lakes Region and Africa in particular as well as its important role in the international environment This fourth edition of Historical Dictionary of the Democratic Republic of the Congo contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about the Democratic Republic of the Congo **Historical Archaeology and Environment** Marcos André Torres de Souza, Diogo Menezes Costa, 2018-07-20 This edited volume gathers contributions focused on understanding the environment through the lens of Historical Archaeology Pressing issues such as climate change global warming the Anthropocene and loss of biodiversity have pushed scholars from different areas to examine issues related to the causes processes and consequences of these phenomena While traditional barriers between natural and social sciences have been torn down these issues have gradually occupied a central place in the field of anthropology As archaeology involves the transdisciplinary study of cultural

and natural evidence related to the past it is in a privileged position to discuss the historical depth of some of the processes related to environment that are deeply affecting the world today This volume brings together substantial and comprehensive contributions to the understanding of the environment in a historical perspective along three lines of inquiry Theoretical and methodological approaches to the environment in Historical Archaeology Studies on environmental Historical Archaeology Historical Archaeology and the Anthropocene Historical Archaeology and Environment will be of interest to researchers in both social and environmental sciences working in different disciplines and research areas such as archaeology history geography anthropology climate change studies environmental analysis and sustainable development studies
