Religious Change in Contemporary Poland Maciej Pomian-Srzednicki, 1982 **The Political Dimensions of Religion** Said Amir Arjomand, 1993-08-03 This volume explores the relationship between religion and politics It brings a varied sample of richly detailed comparative and case studies together with a set of analytical paradigms in an integrated framework It is a major statement on a timely subject and a plea for the acknowledgment of normative pluralism as firmly rooted in the history of religion The editor shows that the fact of political diversity in the history of world religions compels the acceptance of pluralism as a normative principle **Church and Politics in Latin America** Dermot Keogh, 1990-06-18 Complex and profound changes have been taking place in the Latin American Catholic Church in the 20th century which have often been misunderstood and misrepresented This is a collection of essays written by scholars working in the fields of history political science sociology law and theology *Catholicism and Politics in Communist Societies* Sabrina P. Ramet, 1990 This book is volume two of a three volume work Christianity Under Stress which focuses on the experiences of Christian churches in contemporary communist and socialist societies In this volume a distinguished group of experts examines the changing relationship of the Catholic church to contemporary communist and socialist societies in Eastern Europe Latin America and Asia Catholicism has on the one hand traditionally regarded earthly life as of secondary importance as an instrument of spiritual transformation and on the other has ascribed great value to the early institutions of the church taking great interest in temporal matters that affects its institutional concerns Against the backdrop of this duality the church has changed over the centuries adapting to local and national conditions Catholicism and Politics in Communist Societies surveys these local and national adaptations in their historical contexts linking the past experience of the church to its present circumstances Organized around themes of tradition vs modernity hierarchy vs lower clergy and institutional structure vs grass roots organization this comprehensive volume presents a detailed country by country portrait of the political and social status of the church today in communist and socialist settings Contributors Pedro Ramet Arthur F McGovern Roman Solchanyk Ivan Hvat Robert F Goeckel C Chrypinski Milan J Reban Leslie Laszlo Janice Broun Eric O Hanson Stephen Denney Thomas E Quigley Humberto Belli Hansjakob Stehle George H Williams **Poland** Patrice M. Dabrowski, 2014-10-01 Since its beginnings Poland has been a moving target geographically as well as demographically and the very definition of who is a Pole has been in flux In the late medieval and early modern periods the country grew to be the largest in continental Europe only to be later wiped off the map for more than a century The Polish phoenix that rose out of the ashes of World War I was obliterated by the joint Nazi Soviet occupation that began with World War II The postwar entity known as Poland was shaped and controlled by the Soviet Union Yet even under these constraints Poles persisted in their desire to wrest from their oppressors a modicum of national dignity and ultimately managed to achieve much more than that Poland is a sweeping account designed to amplify major figures moments milestones and turning points in Polish history

These include important battles and illustrious individuals alliances forged by marriages and choices of religious denomination and meditations on the likes of the Polish battle slogan for our freedom and yours that resounded during the Polish fight for independence in the long 19th century and echoed in the Solidarity period of the late 20th century The experience of oppression helped Poles to endure and surmount various challenges in the 20th century and Poland s demonstration of strength was a model for other peoples seeking to extract themselves from foreign yoke Patrice Dabrowski s work situates Poland and the Poles within a broader European framework that locates this multiethnic and multid denominational region squarely between East and West This illuminating chronicle will appeal to general readers and will be of special interest to those of Polish descent who will appreciate Poland s longstanding republican experiment

The Crosses of Auschwitz Geneviève Zubrzycki, 2009-10-15 In the summer and fall of 1998 ultranationalist Polish Catholics erected hundreds of crosses outside Auschwitz setting off a fierce debate that pitted Catholics and Jews against one another While this controversy had ramifications that extended well beyond Poland s borders Genevi ve Zubrzycki sees it as a particularly crucial moment in the development of post Communist Poland s statehood and its changing relationship to Catholicism In *The Crosses of Auschwitz* Zubrzycki skillfully demonstrates how this episode crystallized latent social conflicts regarding the significance of Catholicism in defining Polishness and the role of anti-Semitism in the construction of a new Polish identity Since the fall of Communism the binding that has held Polish identity and Catholicism together has begun to erode creating unease among ultranationalists Within their construction of Polish identity also exists pride in the Polish people s long history of suffering For the ultranationalists then the crosses at

Alvis,2016-08-01 In 1944 the Nazis razed Warsaw s historic Cathedral of St John the Baptist They knew that the strength of the Polish nation was rooted in the Cross Christ s

Passion the spirit of the Gospels and the invincible Church argued Cardinal Stefan Wyszyński in a letter celebrating the building's subsequent reconstruction. To weaken and destroy the nation they knew they must first deprive it of its Christian spirit. Wyszyński insisted that Catholicism was an integral component of Polish history, culture, and national identity. The faithfulness of the Polish people fortified them during times of trial and inspired much that was noble and good in their endeavors. Filling a sizable gap in the literature, *White Eagle Black Madonna* is a systematic study of the Catholic Church in Poland and among the Polish diaspora. Polish Catholicism has not been particularly well understood outside of Poland and certainly not in the Anglophone world until now. Demonstrating an unparalleled mastery of the topic, Robert E. Alvis offers an illuminating vantage point on the dynamic tension between centralization and diversity that long has characterized the Catholic Church's history. Written in clear, concise, accessible language, the book sheds light on the relevance of the Polish Catholic tradition for the global Catholic Church, a phenomenon that has been greatly enhanced by Pope John Paul II, whose theology, ecclesiology, and piety were shaped profoundly by his experiences in Poland, and those experiences in turn shaped the course of his long and influential pontificate. Offering a new resource for understanding the historical development of Polish Catholicism, *White Eagle Black Madonna* emphasizes the people, places, events, and ritual actions that have animated the tradition and that still resonate among Polish Catholics today. From the baptism of Duke Mieszko in 966 to the controversial burial of President Lech Kaczyński in 2010, the Church has accompanied the Polish people during their long and often tumultuous history. While often controversial, Catholicism's influence over Poland's political, social, and cultural life has been indisputably profound.

Science, Religion and Communism in Cold War Europe Paul Betts, Stephen A. Smith, 2016-05-14 Religion and science were fundamental aspects of Eastern European communist political culture from the very beginning and remained in uneasy tension across the region over the decades. While both topics have long attracted a great deal of scholarly attention, they almost invariably have been studied discretely as separate stories. *Religion, Science, and Communism in Cold War Europe* is the first scholarly effort to explore the delicate interface of religion, science, and communism in Cold War Europe. It brings together an international team of researchers who address this relationship from a number of national viewpoints and thematic perspectives ranging from mysticism to social science, space exploration to the socialist lifecycle and architectural heritage to pop culture.
