Religious Pluralism and Truth Thomas Dean,1997 *A Protestant Theology of Religious Pluralism* Livingstone Thompson,2009 In this book three main things have been accomplished First it locates the emergence of religious pluralism as a problem for Christian theology Secondly it shows the critical weaknesses in the approaches to pluralism that we find in the works of Gavin D Costa George Lindbeck and John Hick all major players in the field of religious pluralism Retrieving theological material from seventeenth century Comenius and eighteenth century Zinzendorf the book shows that the Protestant tradition has suitable theological material that can better serve the development of a theology of religious pluralism Thirdly the book enters into dialogue with Islam and highlights exciting new approaches to addressing the issues of salvation the Qur'an and Christology One critical outcome of the book is that it breaks new ground in showing the limitations of liberation theology and proposes a fascinating new pluralism sensitive hermeneutical approach to contextual theology

Re-thinking Religious Pluralism Bindu Puri,Abhishek Kumar,2020-12-16 This book combines the mainstream liberal arguments for religious tolerance with arguments from religious traditions in India to offer insights into appropriate attitudes toward religious others from the perspective of the devout The respective chapters address the relationship between religions from a comparative perspective helping readers understand the meaning of religion and the opportunities for interreligious dialogue in the works of contemporary Indian philosophers such as Gandhi and Ramakrishna Paramhansa It also examines various religious traditions from a philosophical viewpoint in order to reassess religious discussions on how to respond to differing and different religious others Given its comprehensive coverage the book is of interest to scholars working in the areas of anthropology philosophy cultural and religious diversity and history of religion

Faith, Reason, and Culture George Karuvelil,2020-07-24 In this book George Karuvelil seeks to establish the rationality of religion and theology in the

contemporary world Theology has always required some philosophical basis Moreover Christian theology has had a dynamic character that enabled it to adapt to more than one philosophy depending on the need of the time For instance it shifted in accordance with the change from Neo Platonism to Aristotelianism in the thirteen century However this dynamism has been absent since the dawn of modernity when reason became identified with modern science to disastrous results While the advent of postmodernism has brought the limits of modernism to light it has done nothing to establish the rationality of religion other than to treat religion as a cultural phenomenon along with science This book conceives fundamental theology as a discipline that seeks religious truth in the midst of diverse perspectives ranging from militant atheism to violent religious fanaticism

Renewing Philosophy of Religion Paul Draper, J. L. Schellenberg, 2018-01-26 This book is animated by a shared conviction that philosophy of religion needs to change thirteen new essays suggest why and how The first part of the volume explores possible changes to the focus of the field The second part focuses on the standpoint from which philosophers of religion should approach their field In the first part are chapters on how an emphasis on faith distorts attempts to engage non western religious ideas on how philosophers from different traditions might collaborate on common interests on why the common presupposition of ultimacy leads to error on how new religious movements feed a naturalistic philosophy of religion on why a focus on belief and a focus on practice are both mistaken on why philosophy s deep axiological concern should set much of the field s agenda and on how the field might contribute to religious evolution The second part includes a qualitative analysis of the standpoint of fifty one philosophers of religion and also addresses issues about humility needed in continental philosophy of religion about the implausibility of

claiming that one's own worldview is uniquely rational about the Moorean approach to religious epistemology about a Spinozan middle way between insider and outsider perspectives and about the unorthodox lessons we could learn from scriptures like the book of Job if we could get past the confessional turn in recent philosophy of religion The goal of the volume is to identify new paths for philosophers of religion that are distinct from those travelled by theologians and other scholars of religion Awakening to Spirit Lee Irwin, 1999-07-16 Explores the concept of Spirit in the postmodern age

Shepherd, 2017-11-30 Ninian Smart came to public prominence as the founding Professor of the first British university Department of Religious Studies in the late 1960s His pioneering views on education in religion proved hugely influential at all levels from primary schools to academic teaching and research An unending string of publications many of them accessible to the general public sustained a reputation that became worldwide Here for the first time a selection of Ninian Smart's wide ranging writings is organised systematically under a set of categories which both comprehend and also illuminate his varied output over a career spanning half a century The editor John Shepherd was Principal Lecturer in Religion and Philosophy at the University of Cumbria He first met Smart as a postgraduate student and recently helped establish the Ninian Smart Archive at the University of Lancaster *John Hick's Pluralist Philosophy of World Religions* Paul R. Eddy, 2015-06-22 According to John Hick's model of religious pluralism all the world's great religions present equally valid ways of understanding and responding to the same ultimate Reality This book offers an exposition of and critical response to Hick's model Following an introductory chapter that surveys dominant approaches to religious diversity the rise and development of Hick's pluralist interpretation of religions is traced Finally a critical assessment of Hick's mature pluralist model is offered The conclusion Hick's model is

ultimately unsuccessful in overcoming the pluralist's most difficult conceptual problem namely providing an adequate account of the fact that the world's religions understand the divine Reality in often contradictory ways Ultimately Hick's own solution threatens two of his long cherished goals a robust religious realism and a tradition neutral religious pluralism
