Religious Women In Medieval East Anglia:

Religious Women in Medieval East Anglia Roberta Gilchrist, Marilyn Oliva, University of East Anglia. Centre of East Anglian Studies, 1993 **Medieval Monastic Preaching** Carolyn Muessig, 1998 This book demonstrates that monastic preaching was a diverse activity which included preaching by monks nuns and heretics The study offers a preliminary step in understanding how preaching shaped monastic identity in the Middle Ages **Medieval East Anglia** Christopher Harper-Bill, 2005 Medieval East Anglia one of the most significant and prosperous parts of England in the middle ages examined through essays on its landscape history religion literature and culture East Anglia was the most prosperous region of medieval England far from being an isolated backwater it had strong economic religious and cultural connections with continental Europe with Norwich for a time England's second city The essays in this volume bring out the importance of the region during the middle ages Spanning the late eleventh to the fifteenth century they offer a broad coverage of East Anglia's history and culture particular topics examined include its landscape urban history buildings government and society religion and rich culture Contributors Christopher Harper Bill Tom Williamson Robert E Liddiard P Maddern Brian Ayers Elisabeth Rutledge Penny Dunn Kate Parker Carole Rawcliffe James Campbell Lucy Marten Colin Richmond T M Colk Carole Hill T A Heslop A E Oliver Theresa Coletti Penny Granger Sarah Salih *A Cultural History of Women in the Middle Ages* Kim M. Phillips, 2015-04-02 The medieval era has been described as the Age of Chivalry and the Age of Faith but also as the Dark Ages Medieval women have often been viewed as subject to a punishing misogyny which limited their legal rights and economic activities but some scholars have claimed they enjoyed a rough and ready equality with men The contrasting figures of Eve and the Virgin Mary loom over historians' interpretations of the period 1000-1500 Yet a wealth of recent historiography goes behind these conventional motifs showing how medieval women's lives were shaped by status age life stage geography and religion as well as by gender *A Cultural History of Women in the Middle Ages* presents essays on medieval women's life cycle bodies and sexuality religion and popular beliefs medicine and disease public and private realms education and work power and artistic representation to illustrate the diversity of medieval women's lives and constructions of femininity **Female Monastic Life in Early Tudor England** Barry Collett, 2016-12-05 This gendered translation of the Benedictine Rule for women in 1517 is also a handbook for women on exercising authority management skills and the art of good governance including monastic property and relations with the outside world Barry Collett here provides a modern facsimile edition of Fox's translation written in the tumbling phrases of passionate prose that make Fox stand out as a literary figure of the English Renaissance Collett also provides an extensive introduction that argues that Fox's experience as an administrator and senior political adviser with special responsibility for foreign affairs mainly with Scotland and France the political situation in 1516 and social concerns Fox shared with Thomas More all provide keys to understanding this translation of the rule Richard Fox was king's secretary Lord Privy Seal and Bishop of Winchester and founder of Corpus

Christi College in Oxford He was an administrator who reflected much on the proper exercise of authority and responsibility at all levels especially through negotiated co operation He strongly supported monastic reforms and when a group of abbesses requested a translation for sisters unable to understand Latin this was his response It provides a unique window into the world of female spirituality just a few months before Luther s reformation began The exercise of God given authority by women is described in the same possibly stronger terms as for men Fox expressed no reservations about the exercise of authority by women His indifference to sexual distinctions arose paradoxically from his preoccupation with the skilful use of God given functioning of authority in a hierarchical society

Women in England in the Middle Ages Jennifer

Ward,2006-10-12 Medieval women faced many of the problems of their modern counterparts in bringing up their families balancing family and work and responding to the demands of their communities Of many women in the period of a thousand years before 1500 we know little or nothing though their typical ways of life on farms or in the towns can be reconstructed with accuracy from a variety of sources We know more about a far smaller number of elite women including queens such as Eleanor of Aquitaine and Margaret of Anjou noblewomen whose characters and attitudes can be sensed directly or indirectly and a variety of religious women Literary sources help flesh out real attitudes such as those of Chaucer s Wife of Bath

Jennifer Ward shows the life cycle of medieval women from birth via marriage and child rearing to widowhood and death She also brings out the slow changes in the position of women over a millennium

Women's Roles in the Middle Ages Sandy

Bardsley,2007-06-30 Information about women in this truly fascinating period from 500 to 1500 is in great demand and has been a challenge for historians to uncover Bardsley has mined a wide range of primary sources from noblewomen s writing court rolls chivalric literature laws and legal documents to archeology and artwork This fresh survey provides readers with an excellent understanding of how women high and low fared in terms of religion work family law culture and politics and public life Even though medieval women were divided by social class religion age marital status place and period they were all subject to an overarching patriarchal structure and sometimes could transcend their inferior status Numerous examples of these exceptional women and their words are included Chapter 1 examines religion focusing on women s roles in the early Christian church the lives of nuns and other professional religious women such as anchoresses and Beguines the participation of Christian laywomen and the experiences of Jewish and Islamic women in Western Europe The second chapter examines women s work looking in turn at the kinds of work performed by peasant women townswomen and noblewomen Women s roles within the family form the subject of the third chapter This chapter follows women throughout the typical lifecycle from girl to widow examining the expectations and experiences of women at each stage Chapter 4 Women and the Law focuses on the ways in which laws both restricted and protected women It also considers the crimes with which women were most often charged and surveys laws regarding marriage and widowhood Women s roles in creative arts form the basis of the fifth chapter Women and Culture This chapter examines women s roles as artists authors composers and patrons as

well as investigating the ways in which women were represented in works produced by men Finally chapter 6 discusses women s experiences in politics and public life While women as a group were typically banned from holding positions of public authority some found ways to get around this stricture while others were able to exercise power behind the scenes The final chapter thus encapsulates a major theme of this book the interplay between broader patriarchal forces that limited women s status and autonomy and the role of individuals who were able to overcome or circumvent such forces Medieval women were as a group subordinate to their husbands and fathers but certain women under certain circumstances evaded subordination

Women, Reading, and Piety in Late Medieval England Mary C. Erler, 2006-03-09 Narratives of medieval women offer new insights into networks of female book ownership and exchange

Women in Medieval English Society Mavis E. Mate, 1999-08-19 Written primarily for undergraduates this book weighs the evidence for and against the various theories relating to the position of women at different time periods Professor Mate examines the major issues deciding the position of women in medieval English society asking questions such as did women enjoy a rough equality in the Anglo Saxon period that they subsequently lost Did queens at certain periods exercise real political clout or was their power limited to questions of patronage Did women s participation in the economy grant them considerable independence and allow them to postpone or delay marriage Professor Mate also demonstrates that class as well as gender was very important in determining age at marriage and opportunities for power and influence Although some women at certain times did make short term gains Professor Mate challenges the dominant view that major transformations in women s position occurred in the century after the Black Death

The Convent and the Community in Late Medieval England Marilyn Oliva, 1998 Detailed study of female monasticism in the later middle ages with particular emphasis on the nuns importance to the local community

The Cambridge Companion to Medieval Women's Writing Carolyn Dinshaw, David Wallace, 2003-05-22 The Cambridge Companion to Medieval Women s Writing seeks to recover the lives and particular experiences of medieval women by concentrating on various kinds of texts the texts they wrote themselves as well as texts that attempted to shape limit or expand their lives The first section investigates the roles traditionally assigned to medieval women as virgins widows and wives it also considers female childhood and relations between women The second section explores social spaces including textuality itself for every surviving medieval manuscript bespeaks collaborative effort It considers women as authors as anchoresses dead to the world and as preachers and teachers in the world staking claims to authority without entering a pulpit The final section considers the lives and writings of remarkable women including Marie de France Heloise

Joan of Arc Julian of Norwich Margery Kempe and female lyricists and romancers whose names are lost but whose texts survive **Traditions and Transformations in Late Medieval England** Douglas Biggs, Sharon Michalove, Compton Reeves, 2021-10-25 This volume deals with political military social architectural and literary aspects of fifteenth century England The essays contained in the volume range across the century from some of the leading scholars currently working in the period Contributors Mark Addison Amos Douglas Biggs Kelly DeVries Matthew Boyd Goldie Virginia Henderson Gwyn Meirion Jones Michael Jones Helen Maurer Sharon D Michalove Michael D Myers Anthony J Pollard A Compton Reeves and Joel Rosenthal

Touching, Devotional Practices, and Visionary Experience in the Late Middle Ages David Carrillo-Rangel, Delfi I. Nieto-Isabel, Pablo Acosta-García, 2019-12-16 This book addresses the history of the senses in relation to affective piety and its role in devotional practices in the late Middle Ages focusing on the sense of touch It argues that only

by deeply analysing this specific context of perception can the full significance of sensory religious experience in the Late Middle Ages be understood Considering the centrality of the body to medieval society and Christianity this collection explores a range of devotional practices mainly relating to the Passion of Christ and features manuscripts works of devotional literature art woodcuts and judicial records It brings together a multidisciplinary group of scholars to offer a variety of methodological approaches in order to understand how touch was encoded evoked and purposefully used The book further considers how touch was related to the medieval theory of perception examining its relation to the inner and outer senses through the eyes of visionaries mystics theologians and confessors not only as praxis but from different theoretical points of view While considered the most basic of spiritual experience the chapters in this book highlight the all pervasive presence of touch and the significance of affective piety to Late Medieval Christians Chapter 3 Drama Performance and Touch in the Medieval Convent and Beyond is Open Access under a CC BY 4.0 license at link.springer.com *Princes, Pastors, and People* Susan Doran, Christopher Durston, 2003 Tracing the many changes in religious life that took place in the turbulent years of the sixteenth and seventeenth centuries this book explains the major historical controversies surrounding the period

Gender and Holiness Sam Riches, Sarah Salih, 2005-07-05 This collection brings together two flourishing areas of medieval scholarship gender and religion It examines gender specific religious practices and contends that the pursuit of holiness can destabilise binary gender itself Though saints may be classified as masculine or feminine holiness may also cut across gender divisions and demand a break from normally gendered behaviour This work of interdisciplinary cultural history includes contributions from historians art historians and literary critics and will be of interest not only to medievalists but also to students of religion and gender in any period *Archaeologies of Sexuality* Robert A. Schmidt, Barbara L.

Voss, 2005-06-28 Status age and gender have long been accepted aspects of archaeological enquiry yet it is only recently that archaeologists have started seriously to consider the role of sex and sexuality in their studies *Archaeologies of Sexuality* is a timely and pioneering work It presents a strong diverse body of scholarship which draws on locations as varied as medieval England the ancient Maya kingdoms New Kingdom Egypt prehistoric Europe and convict era Australia demonstrating the challenges and rewards of integrating the study of sex and sexuality within archaeology This volume with contributions by many leading archaeologists will serve both as an essential introduction and a valuable reference tool for students and academics
