Relocating Germanness:

Reworking the German Past Susan G. Figge, Jenifer K. Ward, 2010 Coming to terms with the past has been a preoccupation within German culture and German Studies since the Second World War. In addition, there has been a surge of interest in adaptation of literary works in recent years. Numerous volumes have theorized, chronicled, or analyzed adaptations from novel to film, asking how and why adaptations are undertaken and what happens when a text is adapted in a particular historical context. With its focus on adaptation of twentieth-century German texts, not only from one medium to another but also from one cultural moment to another, the present collection resides at the intersection of these two areas of inquiry. The ten essays treat a variety of media. Each considers the way in which a particular adaptation alters a story or history for a subsequent audience, taking into account the changing context in which the retelling takes place and the evolution of cultural strategies for coming to terms with the past. The resulting case studies find in the retellings potentially corrective versions of the stories for changing times. The volume makes the case that adaptation studies are particularly well suited for tracing Germany's obsessive cultural engagement with its twentieth-century history. Contributors: Elizabeth Baer, Rachel Epp Buller, Maria Euchner, Richard C. Figge, Susan G. Figge, Mareike Hermann, Linda Hutcheon, Irene Lazda, Cary Nathenson, Thomas Sebastian Sunka, Simon Jenifer K. Ward. Susan G. Figge is Professor of German Emerita at the College of Wooster, Ohio, and Jenifer K. Ward is Associate Provost, Cornish College of the Arts, Seattle. [Remembering the German Democratic Republic](#) D. Clarke, U. Wölfel, 2011-11-08 Memories of and attitudes to the German Democratic Republic (GDR) or East Germany within contemporary Germany are characterized by their variety and complexity, whilst the debate over how to remember the GDR tells us a lot about how Germans see themselves and their future. This volume provides a range of international perspectives.

The Management of Hate Nitzan Shoshan, 2016-08-09 Since German reunification in 1990, there has been widespread concern about marginalized young people who, faced with bleak prospects for their future, have embraced increasingly violent forms of racist nationalism that glorify the country's Nazi past. The Management of Hate, Nitzan Shoshan's riveting account of the year and a half he spent with these young right-wing extremists in East Berlin, reveals how they contest contemporary notions of national identity and defy the clichés that others use to represent them. Shoshan situates them within what he calls the governance of affect: a broad body of discourses and practices aimed at orchestrating their attitudes toward cultural difference, from legal codes and penal norms to rehabilitative techniques and pedagogical strategies. Governance has conventionally been viewed as rational administration, while emotions have ordinarily been conceived of as individual states. Shoshan, however, convincingly questions both assumptions. Instead, he offers a fresh view of governance as pregnant with affect and of hate as publicly mediated and politically administered. Shoshan argues that the state's policies push these youths into a right extremist corner instead of integrating them in ways that could curb their nationalist racism. His point is certain to resonate across European and non-European contexts where, amid robust xenophobic nationalisms, hate becomes

precisely the object of public dispute Powerful and compelling *The Management of Hate* provides a rare and disturbing look inside Germany's right wing extremist world and shines critical light on a German nationhood haunted by its own historical contradictions

Remembering and Rethinking the GDR A. Saunders, D. Pinfold, 2012-12-15 Exploring the ways in which the GDR has been remembered since its demise in 1989/90 this volume asks how memory of the former state continues to shape contemporary Germany Its contributors offer multiple perspectives on the GDR and offer new insights into the complex relationship between past and present

Language and German Disunity Patrick Stevenson, 2002 This book investigates the history of national disunity in Germany since the end of the Second World War from a linguistic perspective what was the role of language in the ideological conflicts of the Cold War and in the difficult process of rebuilding the German nation after 1990 In the first part of the book Patrick Stevenson explores the ways in which the idea of the national language contributed to the political tensions between the two German states and to the different social experiences of their citizens He begins by showing how the modern linguistic conflict between east and west in Germany has its roots in a long tradition of debates on the relationship between language and national identity He then describes the use of linguistic strategies to reinforce the development of a socialist state in the GDR and argues that they ultimately contributed to its demise The second part considers the social and linguistic consequences of unification The author discusses the challenges imposed on east Germans by the sudden formation of a single speech community and examines how conflicting representations of easterners and westerners for example in personal interactions the media and advertising have hindered progress towards national unity German division and reunification were crucial to the development of Europe in the second half of the twentieth century This fascinating account of the relationship between language and social conflict in Germany throws new light on these events and raises important questions for the study of divided speech communities elsewhere The book will interest sociolinguists historians sociologists and political scientists

The PDS - A symbol of eastern German identity? Adrian Webb, 2009-03-26

Die Linke the Left is now Germany's third largest political party and the fourth largest political grouping in the Bundestag Germany's parliament Die Linke however is the result of a fusion in June 2007 between the left wing of the German social democratic party SPD and the Partei des demokratischen Sozialismus PDS the successor to East Germany's former effectively Communist ruling party the SED In practice the PDS contributed 60 000 of the new party's 72 000 members making Die Linke an essentially eastern German party Moreover the PDS had been unique in enjoying a level of electoral success denied to other Communist successor parties which had not turned themselves into mainstream social democratic parties within the new liberal democratic order This book employing the period 2001-03 for its detailed analysis suggests that this uniqueness is best understood as either an expression of eastern German national sentiment or as deriving from a reinterpretation of Marxism attuned to the interests of a democratic twenty first century society and the book explores these alternative understandings in turn Noting both the historic distinctiveness of German capitalism and the contradictions within German communism it concludes that the PDS now fused in Die Linke remains nourished by the particularism of eastern Germany

Humor, Satire, and Identity Jill Twark, 2012-02-14 This is the first book in English to survey the Eastern German literary trend of employing humor and satire to come to terms with experiences in the German Democratic Republic and after the fall of the Berlin Wall As sophisticated attempts to make sense of socialism's failure and a difficult unification process these contemporary texts help define Germany today from a specific Eastern German perspective Grounded in politics and history ten humorous and satirical novels are analyzed for their literary aesthetics and language cultural critiques and socio political insights The texts include popular novels such as Thomas Brussig's *Helden wie wir* Ingo Schulze's *Simple Stories* and Jens Sparschuh's *Der Zimmerspringbrunnen* as well as lesser known but equally relevant works like *Schlehwins Giraffe* by Bernd Schirmer and *Katerfr hst ck* by Erich Loest A broad spectrum of humor and satire theories is applied to probe texts from various angles and suggest multi layered answers to the question of how these literary modes function in postwall Germany to construct a specifically Eastern German identity Interviews the author conducted with five of the satirists are appended as primary sources and contribute to the interpretation of the texts

Pain and Prosperity Paul Betts, Greg Eghigian, 2003 The turn of the millennium has stimulated much scholarly reflection on the historical significance of the twentieth century as a whole Explaining the century's dual legacy of progress and prosperity on

one hand and of world war genocide and mass destruction on the other has become a key task for academics and policymakers alike Not surprisingly Germany holds a prominent position in the discussion What does it mean for a society to be so closely identified with both inflicting and withstanding enormous suffering as well as with promoting and enjoying unprecedented affluence What did Germany's experiences of misery and abundance fear and security destruction and reconstruction trauma and rehabilitation have to do with one another How has Germany been imagined and experienced as a country uniquely stamped by pain and prosperity The contributors to this book engage these questions by reconsidering Germany's recent past according to the themes of pain and prosperity focusing on such topics as welfare policy urban history childbirth medicine racism political ideology consumerism and nostalgia
